GERMAN-ATLANTIC CABLE COMPANY

(Deutsch-Atlantische Telegraphengesellschaft)

History and Properties—Organized in 1922 in Germany; successor to German-Atlantic Cable Company of Cologne, German-South American Cable Company and East European Cable Company. Effective Jan. 11, 1927 took over the business of the German-Netherlands Telegraph Co.

The German-Atlantic Cable Company operates a cable crossing the North Sea connecting with the lines of the Eastern Telegraph Company (of England) through which messages are sent to and from South America, Africa, Asia and Australia, and two special telegraph circuits in the Anglo-German Government cables connecting at London with the lines of the Commercial Cable Company (Mackay) and the Western Union Telegraph Company through which messages are sent to and from North America, Mexico, Central America and the West Indies.

The New Emden-Azores Cable—To re-establish its Trans-Atlantic service, German-Atlantic Cable Company has constructed and put into operation on March 4, 1927 a new cable of modern design from the Island of Borkum (near Emden, Germany) to the Azores. The Emden-Azores cable, together with the New York-Azores cables of Commercial Cable Company (The Mackay System) and The Western Union Telegraph Company, constitutes the only direct cable connection now projected between the United States and Germany. The proceeds of the issue of $4,000,000 First Mortgage 7% bonds of 1945 were applied to the cost of the manufacture and laying of this new Emden-Azores cable.

Concessions—The German Government has granted the Company a concession permitting the landing of the cable in Germany and assuring the connection of the cable with the German Telegraph System. This concession is for a period of forty years from the placing of the cable in service and is free of burdensome restrictions.

The Government of the Republic of Portugal has also granted the Company a concession comprising the necessary landing and operating rights at the Azores. This concession is for a period of 25 years from Sept. 6 1924, and permits of the operation of the Azores end of the cable for the benefit of the Trustee.

MONTEREY RAILWAY, LIGHT & POWER CO.

History and Properties—Incorporated Feb. 13, 1905, under Canadian laws as Monterey Electric & Gas. Co., Ltd.; name changed to present title, May 16, 1905. Owns the entire $2,000,000 capital stock and $3,745,000 First Mortgage 5% bonds of The Monterey Waterworks & Sewer Co., Ltd.; the entire outstanding $100,000 Pfd. and $400,000 Common stock of the Monterey Light & Power Co. and the $10,000 stock of Monterey Plumbing & Electrical Supply Co., Ltd. Co. owns directly 26 miles of street railway, under 99-year concession dated March 10, 1905. At the expiration of the concession, the State has the right to acquire the real and personal property of the Company as a going concern at a price to be determined by three appraisers. The terms of the concession provide that the capital invested and all the properties shall be free from State and municipal taxation until March 20, 1925; thereafter the State and municipal taxes are limited to 1% of the gross traffic receipts for the first ten years; to 2% for the next ten years, and thereafter not exceeding 3% per annum.

The power plants of the Railway Co. and the Light and Power Co. were amalgamated in 1910, and since June 1, 1910, all the power used by the Company for these services has been obtained from the central plant. The Company has a practical monoply for supplying electric light and power in and about the city of Monterey.

The Monterey Waterworks & Sewer Co., Ltd., operates waterworks and sewage and drainage works, under a concession granted by the State of Nuevo Leon, dated Oct. 19, 1904. This concession provides that if, during 99 years from the commencement of operations of the system, the gross revenue therefrom is in any year less than 10% of the invested capital as approved by the Government, the latter shall pay to the Waterworks Co. a sufficient sum to make up the 10%, out of which the Waterworks Co. is to pay the operating expenses and the cost of ordina maintenance. The guaranty stands good even shou the water supply be interrupted through scarcity water, etc., and no moneys paid under such guaran have to be repaid. All the revenue over and abo 10% on invested capital is to be divided equally b tween the Waterworks Co. and the Government. T concession is perpetual, but the Government has t right, after the system has been in operation for years, to purchase property for sum equal to 16 times the average annual net profits received Waterworks Co. during the three preceding yea After 40 years, this right may be exercised at t end of any 10 years' period up to 99 years from t commencement of operation. If this right be exe cised at expiration of the 99 years, the State mu pay the price in ten year 5% Government bonds. T company and all its stocks, bonds and properti shall be free from State and municipal taxes for years. The Railway Co. and the Waterworks C jointly own about 2,500 acres of land for a sewag farm. The system includes 72 miles of water mai and 52 miles of sewer.

MEXICAN UTILITIES COMPANY

(To Be Controlled by American & Foreign Power Company, Inc.)

History—Organized in 1925 to acquire the Pfd. and Common stocks of The Guanajuato Power & Electric Co. and the Pfd. stock of Central Mexico Light & Power Co. and to finance those companies and their subsidiaries pursuant to a Plan dated Jan. 15, 1925, described in the 1925 Public Utility Volume, page 803, which see, or apply to our Information Department. Company now owns about 99½% of the Preferred and Common stock of The Guanajuato Power & Electric Co. and the Preferred stock of the Central Mexico Light & Power Co.

Plan For Acquisition of Company by American & Foreign Power Co., Inc.—A plan and agreement of reorganization, dated April 25, 1928, has been entered into under which American & Foreign Power Company, Inc., is to acquire Collateral Gold bonds, Pfd. stock and Common stock of Mexican Utilities Company by giving its $6 Pfd. stock in exchange for securities of Mexican Utilities Company on the following basis:

For each $100 principal amount of the Collateral Gold bonds of the Mexican Utilities Company, nine-tenths of a share of the $6 Pfd. stock of the American & Foreign Power Company, Inc., with a cash adjustment of accrued interest.

For each share of the Pfd. stock of the Mexican Utilities Company, 75/100ths of a share of the $6 Pfd. stock of the American & Foreign Power Company, Inc., with a cash adjustment of accrued dividends.

For each share of the Common stock of the Mexican Utilities Company, 35/100ths of a share of the $6 Pfd. stock of the American & Foreign Power Company, Inc.

The privilege of exchange is extended to all holders of Collateral Gold bonds, Pfd. stock and Common stock now outstanding of the Mexican Utilities Company who shall avail themselves thereof by depositing their holdings on or before June 1, 1928, or on or before any extended date. American Exchange Irving Trust Company, 60 Broadway, New York, is depositary under the plan.

Electric Bond and Share Company has offered to all depositors under the plan to purchase at the rate of $100 per integral share plus accrued dividends, if any, on integral shares only, such of the shares of the $6 Pfd. stock of American & Foreign Power Company, Inc. and scrip therefor to be received by holders of securities of Mexican Utilities Company who shall elect at the time of deposit under the plan to sell the stock to Electric Bond and Share Company. The obligation of Electric Bond and Share Company to purchase the $6 Pfd. stock is subject to the Plan becoming or being declared operative on or before June 1, 1928, or on or before such extended date as may be fixed by Electric Bond and Share Company and is limited to depositors who shall deposit and elect to sell on or before June 1, 1928, or any extended date under the Plan, not later, however, than June 25, 1928.

No fractional shares of the $6 Pfd. stock of American & Foreign Power Company, Inc., will be issued but in lieu thereof the American Company will issue non-dividend bearing and non-voting Scrip exchangeable in integral amounts for whole shares of such $6 Pfd. stock. Electric Bond and Share Company offers

for a period of 60 days after the Plan shall become operative to purchase at the rate of $100 per integral share any Scrip for fractional shares of the $6 Pfd. stock of American & Foreign Power Company, Inc., that may be offered to Electric Bond and Share Company for sale at said price, and also during said period to sell at said price to other holders of said Scrip any such Scrip that Electric Bond and Share Company may have available for sale to the extent necessary to make integral shares.

The Board of Directors of Mexican Utilities Company has considered and approved the Plan and has recommended it to the holders of securities of that Company, and the holders of large amounts of the Mexican Utilities Company securities have expressed the intention of accepting the exchange offered under the Plan.

CAPITAL STOCK

Authorized 250,000 shares Common and 50,000 shares $7 cumulative dividend Pfd.; both classes of stock of no par value; outstanding 35,000 shares Commonn and 30,812 3/5 shares Pfd.

Preferred Stock Provisions—Pfd. stock has preference for dividends at the rate of $7 per annum, cumulative from July 1, 1925, has preference as to principal on distribution at $100 per share and is redeemable at $105 per share. Both classes of stock have equal voting power.

Dividends—Initial dividend of $3.50 a share on Pfd. for the six months ended Dec. 31, 1925, was paid Jan. 15, 1926, which semi-annual rate has been regularly paid since.

FUNDED DEBT

$1,550,000 THIRTY-YEAR 8% COLLATERAL TRUST GOLD BONDS, SERIES "A"; DUE MAY 1, 1955

Dated May 1, 1925.

Interest Payable May and November 1.

Trustee—Bankers Trust Company, New York.

Provisions of Issue—Authorized, $25,000,000; issued as of Dec. 31, 1927, $1,550,000 Series "A" bonds of the several series are to be of such dates, maturities, interest rates, redemption privileges, tax exemptions, convertible privileges and other terms and conditions as the Indenture shall permit and as the Directors, from time to time, may determine. Bonds of series subsequent to Series "A" shall be issued only if the net income of the company available for the payment of interest on these bonds for twelve months within the fifteen months immediately preceding the authentication thereof shall have been not less than twice the annual interest charges upon all of the bonds outstanding and about to be issued.

Purpose of Issue—The proceeds from the sale of Series "A" bonds were used to purchase the notes or other obligations of The Guanajuato Power & Electric Co. and its subsidiaries; to provide funds to enable those companies to meet maturing obligations and sinking fund requirements and to pay the cost of acquisition or construction of improvements and additions to plants, lines and properties and other corporate purposes.

Callability—Subject to call in the first year at 105, the second year at 104, third year at 103, fourth year at 102 and the fifth year and thereafter at 101.

Security—Secured by pledge of approximately 99% of the Pfd. and Common stocks of The Guanajuato Power & Electric Co. and the Pfd. stock of Central Mexico Light & Power Co.

Tax Provisions—Principal and interest shall be payable without deduction for any taxes which the Company may be required or permitted to pay or deduc except inheritance and estate taxes and Federal In come Tax in excess of 2% per annum.

THE GUANAJUATO POWER AND ELECTRIC COMPANY

(Controlled by Mexican Utilities Company)

History and Property—Incorporated April, 1902, in Col., to transmit power by electricity from the Duero River, near Zamora, State of Michoacan, Mex., to the City of Guanajuato, and the neighboring mining districts. The company transmits power from its Platanal power station and the Brunel and Noriega power stations of the Michoacan Power Co., which it operates, through Guanajuato to San Luis Potosi. The distances between these points are as follows: Platanal power station of the Guanajuato Power & Electric

:o. to Guanajuato, 101 miles; Guanajuato to San Luis 'otosi, 87 miles; from the Noriega power station of he Michoacan Power Co. to Guanajuato, 84 miles om the Brunel power station of the Michoacan Power :o. to Guanajuato, 78 miles; Guanajuato Power & :lectric Co. transmission line from Guanajuato to 'ozos, 51 miles. Hydro-electric power station is lated at Zamora, about 100 miles from the City of uanajuato, and has a capacity of 7,500 h. p. Population served, about 200,000.

The Guanajuato Power & Electric Co. owns the ntire $1,000,000 capital stock of the Michoacan Power o. which was incorporated for the purpose of enaling bonds to be issued, secured by first mortgage on ie Brunel, Noriega and other developments, as the uthorized bond issue of the Guanajuato Co. was losed and second mortgage bonds would not be salble. The Guanajuato Co. guarantees the payment of ie principal and interest of the Michoacan Company's bonds, and is operating all of its plants and roperty under an agreement between the two companies which provides, in substance, that the Guanajuto Co. shall take all of the power generated by the Iichoacan Co.'s plants, and, in consideration therefor, ay all of that Company's operating and maintenance xpenses and fixed charges.

The Central Mexico Light & Power Co. (all but 500 of whose $1,500,000 Common stock is owned by ie Guanajuato Co.) was organized to take charge of ie lighting, small motor and other retail business ormerly conducted directly by this Co. at Irapuato, ilao and other points. Its operations have been large- extended through its acquisition of the properties f the Potosina Electric Co. at San Luis Potosi and the uilding of the Michoacan Power Co.'s transmission ne from Guanajuato to San Luis Potosi. In addition o its lighting and small motor business in the various owns where its plants are located it has found a large eld for the sale of power for pumping for irrigation, nd the prospects are that this will develop into a very rge power market at profitable rates. The Guanaiato Co. guarantees the payment of the principal and iterest of the bonds of the Central Mexico Light & ower Co.

The Noriega, or last plant of the Michoacan Power o., was placed in operation on June 1, 1911, so that the uanajuato Co. now controls an aggregate capacity in ie three plants of 20,000 h. p.

History—Incorporated April 19, 1910, in New York, and at midnight Dec. 31, 1911 (at which date the receiver, Frederick W. Whitridge, was discharged), succeeded to the property and franchises formerly belonging to The Third Avenue R. R. Co., sold at foreclosure, March 1, 1910, under decree of foreclosure and sale entered May 17, 1909 (see Manual for 1911, page 2423). By deed of April 18, 1910, the property was turned over to a purchasing committee, consisting of representatives of bondholders, which committee on Jan. 31, 1912, turned the property over to the Third Avenue Ry. Co. The litigation between the Public Service Commission, First District, and the Reorganization Committee was ended Nov. 21, 1911, by the Court of Appeals at Albany, reversing the decision of the Public Service Commission (which had refused to approve the amended plan of reorganization), declaring the reorganization effective upon the basis of the plan outlined in the Manual for 1912, page 2359. Information in back Manuals furnished on request to our Information Department.

THE DRY DOCK, EAST BROADWAY AND BATTERY RAILROAD COMPANY

(Controlled by Third Avenue Railway Company)

History—Inc. Dec. 8, 1863 in New York. On Feb. 1, 1908, Fred'k W. Whitridge was appointed receiver by Judge Lacombe in the U. S. Circuit Court, upon petition of a creditor. On the same day, interest on the $1,100,000 certificates of indebtedness was defaulted. On Nov. 23, 1917, the receivership was terminated by a decree of the U. S. District Court for the Southern District of New York. The Plan dated July 9, 1917 (see 1918 Public Utility Manual, page 627, or apply to our Information Department for refunding the entire debt of Company, except the General Mortgage bonds, was declared operative in Feb., 1918. Holders of deposit receipts of the Union Trust Co. representing 5% certificates of indebtedness received Series "C" Registered Refunding bonds and (or) scrip as described by the plan in the ratio of $59.10 par value Series "C" bonds for each $100 par value of certificates of indebtedness.

Company operates the Grand St. Electric Line from Desbrosses St. Ferry to Grand St. Ferry and from Desbrosses St. Ferry through Grand St. and across the Williamsburg Bridge to Brooklyn; the Avenue B line between the 34th St. Ferry and the East River, south on numerous streets, including East Broadway, from Grand St. to Chatham Sq., with southern terminus at Chatham Sq.; the Canal St. & Grand St. Ferry Line between Grand St. Ferry and North Moore and Washington Sts. Length of track, 11.583 miles. In addition, the company owns, but does not operate, 2.09 miles of track. On Oct. 25, 1912, the Public Service Commission authorized the company to electrify the road on Canal St., heretofore operated by storage battery. Gauge, standard. Rail, 60 to 113 lbs. Cars, 128.

Franchise Abandonment Approved—Stockholders of Company approved on April 11, 1927, a resolution to abandon the franchises covering a portion of Company's lines. The abandonment applies to sections of the lines which have not been operated for several years and on which the franchises were regarded as worthless. All Company's properties now in operation will be retained.

FUNDED DEBT OUTSTANDING APRIL 27, 1928

(1)

$4,000,000 FIRST LIEN COLLATERAL 30-YEAR 5½% GOLD BONDS, SERIES "A"; DUE NOVEMBER 1, 1956

Dated November 1, 1926.

Interest Payable May and November 1, at First Trust & Savings Bank, Chicago.

Denominations—Coupon, $100, $500 and $1,000 (interchangeable); principal may be registered.

Trustee—First Trust & Savings Bank, Chicago.

Provisions of Issue—Authorized, Series "A," $4,650,000; issued, $4,000,000. Trust Indenture provides that $650,000 additional Series "A" bonds may be issued at any time in face amounts equivalent to the cost or fair market value, whichever is less, (a) of acquisitions, additions, improvements, or extensions, permanent in character, to the physical properties of the Company or of subsidiaries, or (b) of securities of other utility companies whenever net earnings (as defined in the Indenture) are equal to at least twice the total annual interest requirements on all bonds then outstanding, including those to be issued. No bonds shall be issued in respect of any new subsidiary unless there shall be pledged with the Trustee not less than 95% of the outstanding stock having full voting power and not less than 75% of stock having any voting power, and unless there shall also be deposited bonds secured by first mortgage upon substantially all the permanent property of such subsidiary, the amount of such pledged bonds being further restricted by the Indenture. Bonds of later series, additional to $4,650,000 principal amount of Series "A" now authorized, may be issued in face amounts equivalent to 75% of the cost or fair market value, whichever is less, of new properties or securities.

Purpose of Issue—Proceeds from these bonds, together with other financing, provided funds required to retire the funded indebtedness of the Company and its subsidiaries, to acquire new properties and for additional working capital and other corporate purposes.

Callability—Subject to call as a whole or in part on 30 days' notice on any interest date at 105.

Security—Secured by direct first mortgage on mortgageable property, rights and franchises now owned or hereafter acquired (except merchandise held for purposes of sale) and by first collateral lien on properties of all subsidiaries except two small companies. All bonds, mortgage notes and capital stock (except directors' shares) of pledged subsidiaries now outstanding are deposited and pledged with the Trustee, and all bonds, notes and stocks hereafter issued by said subsidiaries must be deposited as additional security under this mortgage.

Maintenance Fund—Company covenants to set aside as a fund for maintenance and/or depreciation in each calendar year beginning with 1927 a sum at least equal to 12½% of its gross operating earnings, not including the cost of telephone tolls and cost of electric current or gas purchased.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania and Connecticut 4 mills tax, Maryland 4½ mills tax, California and Kentucky 5 mills tax, Iowa 6 mills tax, Kansas 2½ mills tax, Massachusetts 6% income tax on interest, New Hampshire 3% income tax on interest, and any similar taxes hereafter imposed in Maine not exceeding 5 mills personal property tax or 6% income tax on interest refunded.

Legal Opinion—Newman, Poppenhusen, Stern & Johnston, Chicago, and H. B. Carter, Sioux City.

Original Offering—First publicly offered ($4,000,000) in Dec., 1926, at 99 and interest to yield about 5.55% by A. B. Leach & Co., Inc., New York; Halsey, Stuart & Co., Inc., New York; and Porter Fox & Co., Inc., Chicago.

TEXAS POWER CORPORATION

History and Property—Incorporated in 1926, in Texas, for the purpose of constructing, maintaining and operating power plants with all necessary equipment and transmission lines, has under construction, three hydro-electric plants on the Guadalupe River between the towns of New Braunfels and Seguin and about 30 miles northeast of San Antonio. The three dams are to be of reinforced concrete in connection with which all lands, water and flowage rights have been acquired. Based upon extended investigations of rainfall and flowage conditions there will normally be sufficient supply of water to operate the installed capacity of 8,880 k.w. Actual construction work started Dec. 4, 1926. In Feb., 1928, the Manual was officially informed that the plants would start in complete operation March 1, 1928.

Power Contract—The Texas Power Corporation has entered into a thirty year contract expiring Dec. 31, 1957 with Comal Power Company a subsidiary corporation of American Light and Traction Company, and affiliated corporation of San Antonio Public Service Company, under the terms of which Comal Power Company agrees to purchase substantially all of the current which the Texas Power Corporation will be able to generate and deliver. It is estimated the average annual output will be 34,000,000 k. w. h. For the current received Comal Power Company is to pay at the rate of 7½ mills per k. w. h. with the proviso that during the first fifteen years, while the plants are in operation its annual payments to Texas Power Corporation shall be at least $165,000 with the understanding that any excess in payments made over the contract price of 7½ mills per k. w. h. shall be adjusted in succeeding months.

The Comal Power Company has just completed a steam station at New Braunfels with an initial installation of 30,000 k. w., and designed for an ultimate capacity of approximately 120,000 k. w.

The Comal Power Company's transmission lines will connect with and supply current to the lines of San Antonio Public Service Company and South Texas Public Service Company, subsidiaries of American Light & Traction Company, West Texas Utilities Company and Texas Central Power Company, controlled by Middle West Utilities Company and Texas Public Utilities Company, which is operated under supervision of Electric Bond and Share Company.

UNTERELBE POWER & LIGHT COMPANY

(Elektricitaetswerk Unterelbe, Aktiengesellschaft)

History and Property—Organized Jan. 23, 1912, under the laws of Germany. Company supplies electric power and light, without competition, in the City of Altona, and certain nearby districts. In addition, Company acquired from the City of Altona the gas and water properties (exclusive of old administration building) which supply the entire requirements of the City and part of the surrounding territory. These gas and water properties will continue to be operated as heretofore through the Altona Gas & Water Company, (Altonaer Gas-und Wasserwerke G. m. b. H.) all of whose capital stock was acquired by the Unterelbe Power & Light Company from the city. The total population thus served directly and indirectly by the Company with electricity, gas and water is approximately 260,000. Sales of electric current, about 37,996,000 k.w.h. in the calendar year 1924 and 44,612,000 k.w.h. in the year 1925, have approximately doubled over a five year period. More than half the current sold in 1925 was delivered to industrial users. Sales of gas have shown normal increase and in the calendar years 1924 and 1925 were in excess of 741,000,000 cubic feet and 813,000,000 cubic feet respectively.

The electric properties owned and operated by the Company consist of a plant having an installed turbo generator capacity of 26,000 k.w. together with high tension lines for transmission of current to outlyi districts and a distribution network within the ci providing for a total connected load in excess of 60,0 k.w. New plant to be presently constructed will bri the total generating capacity to 60,000 k.w., as well extend the transmission and distribution system to ca for the rapidly increasing demand in the territo served.

The gas and water properties directly owned by t Company and operated through its wholly owned su sidiary consist of, (a) gas generating facilities capab of producing daily a total of 3,500,000 cubic feet of co gas (with by-products) and delivering gas to co sumers through about 47,000 meters, and (b) a wat filtration, central pumping and supply plant servi consumers through about 13,000 meters. The Co pany either owns or has the exclusive right to use g and water distributing systems appurtenant to the plants.

As the Company is municipally owned, it is not su ject to a capital charge under the Dawes Plan, and i property is, therefore, free from the so-called Daw Mortgage. However, in accordance with the laws the German Reich, enacted to put the Dawes Plan in effect, the Company is obligated to make annual pa ments, which on the basis of present assessments, a estimated at a maximum of about $35,000 per year.

CAPITAL STOCK

Authorized and outstanding, 20,000,000 R. M. pa value. All owned by the city of Altona.

History—Incorporated May 1, 1902, in Pa., with power to "lease and operate the properties and franchises of street passenger railway companies, to supply them with motive power, and for this purpose to enter upon any streets upon which a street passenger railway track is laid (with the consent of the Passenger Railway Co. and of the municipal authorities), for the purpose of constructing the necessary and convenient apparatus and mechanical fixtures for supplying such power; and to invest its corporate funds in the shares of stock of Passenger Railway Companies."

Controlled Companies—The Philadelphia Rapid Transit Co. owns the entire capital stocks of the Broad Street Rapid Transit St. Ry. Co., the Broad Street & Boulevard St. Ry. Co., the Moyamensing & Southwark Rapid Transit St. Ry. Co., the Glenwood Rapid Transit St. Ry. Co., the Parkside Rapid Transit Co., the Cayuga & Torresdale St. Ry. Co., and the Mount Vernon, Shawmont & Roxborough St. Ry. Co. It also owns the entire $10,000 stock of the Motor Real Estate Co., which owns property costing approximately $7,800,000 at Dec. 31, 1927. In Sept., 1911, the Snyder Avenue St. Ry. was chartered in the interest St. Ry. Co., the Bustleton & Byberry Rapid Transit of the Philadelphia Rapid Transit Co., with $140,000 stock, to operate 2.895 miles of track on Snyder Ave., put in operation in Jan, 1912.

Yellow Cab Co. of Philadelphia—Public Service Commission on April 20, 1926, approved the agreement between the City of Philadelphia and P.R.T. authorizing P.R.T. to purchase the stock of Yellow Cab Co. of Philadelphia from the Yellow Taxi Corp of New

ork for approximately $3,000,000. Yellow Cab o. of Philadelphia commenced operation March 21, 21 with 25 cabs. As of Jan. 1, 1928 it operated about 85 cabs. In 1927 Yellow Cab carried approximately 1,131,744 passengers and had a gross revenue of $5,-76,664 and net revenue of $352,888; compared with proximately 12,125,675 passengers, gross revenue of $432,025 and net revenue of $198,339 in 1926; and th approximately 9,440,458 passengers, gross revenue $5,316,504 and net revenue of $434,115 in 1925.

Philadelphia Rapid Transit Air Service, Inc. was incorporated as a subsidiary of the Philadelphia Rapid Transit Co. in June, 1926, with share capital of $250,-00, par $100. Company operated an air service between Philadelphia, Washington and Norfolk between July 6 and Nov. 30, 1926. It was announced that Company retired permanently from air transport field with close of the Sesqui-Centennial Exposition on Nov. 30, 1926. Air mail contract was cancelled in February, 1927.

New Companies.—Since 1920 the following companies have been incorporated and are leased to the Philadelphia Rapid Transit Co. for 999 years:

Name	Date of Incorporation	—Capital Stock— Authorized	Paid in
Germantown Loop Ry. Co.	Mar. 31, 1920	*$23,000	*$23,000

Wayne Junc. Connec'g Ry. Co.	May 25, 1923	30,000	30,000

*By authority of the stockholders at a meeting held Sept. 2 1921, the capital stock of the Germantown Loop Ry. Co. as reduced from $32,000 to $23,000 (from 640 shares to 460 shares, par $50).

Lease of Union Traction Co. and other Properties—On July 1, 1902, took over, under 999-year lease, the properties (including leased lines) of the Union Traction Co., at rental of all fixed charges, taxes etc., and dividends upon the capital stock at the rate of 3% for the first two years, 4% for the next two years, 5% for the next two years, and 6% from July 1, 1908, thereafter, the latter rate having been paid since 1909. The lease of the Continental Passenger Ry. Co. expires Jan. 1, 1979, and the balance of the lease is for terms ranging from 900 to 999 years, and expires on various dates beginning Jan. 1, 2784 and ending July 1, 2901. The lease of the Union Traction Co. provides that in case any difference shall arise at any time between the parties relative to the construction of the agreement or the proper performance of any of the covenants contained therein, the question shall be submitted to arbitration. The Union Traction Co. owns the entire capital stock (par, $750,000) of the Electric Traction Co. and ($6,000,-000) of the People's Traction Co. and controls under 999-year lease, from Oct. 1, 1895, the property of the Philadelphia Traction Co. (see next paragraph).

Transfer of Properties—On Feb. 28, 1911, stockholders voted to make an assignment and transfer to Union Traction Co., of Philadelphia, of all the equity and interest of the company in the Market Street Elevated Passenger Ry. Co., viz.: Capital stock, lease and all claims for advances by the Phila. Rapid Transit Co.; likewise all equity and interest in the Doylestown & Willow Grove Ry. Co. and the Darby & Yeadon St. Ry. Co., and in any other street railway properties which the Phila. Rapid Transit Co. had acquired since July 1, 1902 (all leaseholds, stocks, securities, etc., so assigned to the Union Traction Co. as owner, to be reassigned to the Phila. Rapid Transit Co. as lessee, without payment of any further rental or charge whatsoever to the Union Traction Co.), said transfer to be made only upon the condition and consideration that the Union Traction Co. shall guarantee the payment of the principal and interest of a proposed issue of $10,000,000 5% gold bonds of the Phila. Rapid Transit Co.; the Union Traction Co. having the right to require that not more than $2,000,000 of the bonds shall be issued in any one year without the consent of its Board of Directors, and that the proceeds shall be expended on the leased property, or if expended on any other property, such property shall become the property of the Union Traction Co., subject to the conditions of the lease, until the payment by the Phila. Rapid Transit Co. of all the bonds, when such other property shall be returned to and revested in latter Co., and the Union Traction Co. shall further pledge with the Trustee as additional security all of its equity and interest in the Market Street Elevated Passenger Ry. Co.

Motorbus and Trackless Trolley—The initial motorbus installation was made in Sept., 1923, when the Roosevelt Boulevard line connecting Frankford and the North Philadelphia section was placed in operation. Motorbus operations were extended in 1924 and in 1925, nine new routes were installed operating over 150 miles of city streets. This system has been further added to in 1926 by the installation of nine more new routes operating 101 miles over city streets —a net addition of 32% to P. R. T. route mileage accomplished within two years. In 1927 was operating 243 miles of city motorbus routes. The Philadelphia Rural Transit Co. was formed to take care of this new transit facility (see appended statement).

An experimental installation of the trackless trolley was made in 1923 on Oregon Ave., the Southernmost crosstown street, to serve the shipping industries on the Delaware River. To take care of this service the Pennsylvania Rapid Transit Co. was organized in Aug., 1923 (see appended statement).

Excise Tax—On Aug. 2, 1915, Judge Dickinson in the U. S. District Court held that the Company's subsidiaries operated under lease were not carrying on business within the meaning of the excise tax law of 1909 and, therefore, were not liable to the tax.

Franchises—The company acquired numerous franchises for new roads obtained by the Mack-Foerderer syndicate in 1901, some of which were merged with the Market Street Elevated Passenger Ry. Co. and others lapsed. An agreement was entered into with the city under date of July 1, 1907, affecting and regulating the powers, rights and liabilities of the City and the Philadelphia Rapid Transit Co. and its subsidiary companies and providing for the future management and extension of the street railway system controlled by the Philadelphia Rapid Transit Co.

Power—The Philadelphia Rapid Transit Co. purchases power under contracts, as follows:

59,000 Kilowatts from the Philadelphia Electric Co. for use at scattered locations over the system. This contract expires in 1931.

2,000 Kilowatts from The Philadelphia Hydro-Electric Co. for use in Philadelphia and Manayunk. This contract expires June 5, 1943.

In addition to the above purchased power, the Philadelphia Rapid Transit Co. operates its own steam plants in the City of Philadelphia, as follows: 963 Delaware Ave., 40,800 k.w.; 33rd and Market Sts., 11,000 k.w.; and it has 20 power sub-stations at various localities in the city.

Property Valuation—Philadelphia Rapid Transit property valuation has been found by the Public Service Commission of Pennsylvania to be substantially upwards of $200,000,000, and upon this amount the Commission has ruled the Company is entitled to earn a return of not less than 7% per annum or at least $14,000,000. This finding and ruling have been affirmed by Court decision and assures to the Company the right to continuously earn and pay its present fixed charges and dividend.

Income Tax Litigation—On July 15, 1918, the various leased line companies filed suits against the

Philadelphia Rapid Transit Co. to recover income and excess profits taxes paid by them under protest. On Nov. 20, 1918, a ruling was handed down by Common Pleas Court Number 3 (and in Feb., 1919, affirmed by the Pennsylvania Supreme Court) under which the Philadelphia Rapid Transit Co. is held responsible under the terms of the several leases for the payment to the Government of the income and excess profits taxes of the following leased line corporations; Philadelphia Traction Co., Germantown Passenger Ry. Co., 13th & 15th Sts. Passenger Ry. Co., Philadelphia City Passenger Co., Union Traction Co., Ridge Ave. Passenger Ry. Co., Frankford & Southwark Philadelphia City Passenger R.R. Co., Fairmount Park & Haddington Passenger Ry. Co., Citizens Passenger Ry. Co. and the Hestonville, Mantua & Fairmount Passenger R.R. Co. On the other hand however, it was ruled that the following companies must assume liability for their Federal taxes: Continental Passenger Ry. Co., Philadelphia & Darby Ry. Co. and Green & Coates Sts. Philadelphia Passenger Ry.

Employee Ownership—P. R. T. employees have been receiving each since 1922 a co-operative wage equalling from 5% to 10% of their pay. This, with additional deposits from their regular pay, has been deposited in a fund administered by trustees elected by the men. The fund now owns 487,245 shares of Pfd. stock and 78,100 shares of Common stock—par value $14,133,625 of Mitten Bank Securities Corporation, which owns a large amount of P. R. T. stock.

P. R. T. wages during 1925 were based on the rate of 77 cts. per hour. Commencing Jan. 1, 1926 wages were based on the purchasing power of the dollar, plus an added return for efficiency and economy. The basic wage for 1926 was by agreement, 73½c per hour in payment for average services as rendered elsewhere, and will be continued except as it may be adjusted to conform to the purchasing power of the dollar. 3½c of this wage will be invested in stock together with the difference between 73½c and 77c, or 3½c, per hour, the contingent wage dependent upon the continued efficiencies and economies of the men.

Fares—Effective Sept. 14, 1924, Company was authorized by the Pennsylvania Public Service Commission pending final determination to increase the rates in the City of Philadelphia from 6¼c-7c cash fare, to 7½c token—8c cash fare; eliminating the 3c exchange ticket outside the delivery district and establishing 5c as the rate for zones on suburban lines. This increase was upheld in Dec., 1924, by the Pennsylvania Superior Court. The Pennsylvania P. S. Comm. handed down its final determination Jan. 12, 1926, approving rates and fares set forth in temporary order of Sept. 8, 1924, from which no appeal has been taken.

Mileage and Equipment, Dec. 31, 1927—Total mileage, including all lines leased and operated is 703.304 miles, as follows: Philadelphia Traction Co., 334.287 miles; Electric Traction Co., 131.508 miles; Peoples Traction Co., 79.643 miles; Hestonville, Mantua & Fairmount Pass. R. R., 16.455 miles; Doylestown & Willow Grove Ry., 13.505 miles; Philadelphia & Willow Grove Ry., 15.596 miles; Market St. Subway & Elevated Pass. Ry. 23.358 miles; Darby, Media & Chester, 25.603 miles; Darby & Yeadon, 2.724 miles; Snyder Ave. St. Ry., 2.895 miles; Chester & Philadelphia Ry., 13.152 miles; Germantown Loop Ry. Co., 0.258 mile; Philadelphia Navy Yard, 1.220 miles; City of Philadelphia (Bustleton Surface Line, 7.421 miles; Frankford Elevated Ry., 15.453 miles), 22.874 miles; Champlost Street Connecting Ry., 0.535 mile; Northeastern Philadelphia Transit Co., 14.207 miles; Pelham & Frankford Street Ry. Co., 0.102 mile; Tioga & Frankford Street Ry. Co., 5.336 miles; Wayne Junction Connecting Ry. Co., 0.046 mile. Gauge, 5 ft. 2¼ inches. Rail, 90 to 141 lb. steel girder and T. Equipment: Closed cars, 3,029; trackless trolleys, 10; snow sweepers and plows, 173; freight cars, 15; miscellaneous, 95—total, all cars, 3,322.

The construction of the subway around the City Hall and on East Market Street was completed and trains were placed in operation to the eastern terminus, South Street, on Oct. 4, 1908, trains having been previously operated as far east as Second Street station.

City-Built Subways—P. R. T. was under contract in 1926 to pay 4% on city's construction costs of the Frankford Elevated. This city-company contract provided for an increase of 1% per annum until a maximum of 5% per annum was reached in 1927, at which time the rental paid by the company to the city approximated $780,000. Under the 30-year extension, the rental will continue to be $780,000 a year.

In October, 1926, an ordinance providing for 30-year extension of the Frankford Elevated operating agreement was signed by Mayor Kendrick of Philadelphia providing for increase of $125,000 in yearly rental to be paid by Company. The Philadelphia City Council on April 26, 1927, authorized the extension of the lease for 30 years until 1957.

P. R. T. has agreed to pay the city's carrying charges on the Chestnut Street surface car subway. Three years are expected to be consumed in construction. The carrying charges during the first year of actual operation will be added to the capital cost. P. R. T. will thereafter pay approximately $1,000,000 per annum on the $20,000,000 estimated cost of the company's portion of this city-built subway.

P. R. T., to meet the city's views, must undertake during 1928, the making of a contract with the city covering the operation of the $100,000,000 Broad St. subway, which, although built ahead of present needs, is now expected to be ready for operation in 1928.

P. R. T. is planning to supply seats for all passengers and to relieve over-congestion, to which end it will urge the early building of subways on Chestnut Street and on the Parkway from 29th St. to City Hall. $50,000,000 more of city money is required for these necessary subways and perhaps $100,000,000 additional for other subway plans.

P. R. T. stock, under the terms of the 1907 city-company agreement, is entitled to 6% dividends upon the $30,000,000 of paid-in capital cumulatively 1907 to 1957.

The 1907 city-company agreement also provides that P. R. T. stock shall have one-half of all P. R. T. earnings over 6% per annum.

Broad Street subway, if operated as part of P. R. T. system, will eat up P. R. T. earnings which would otherwise be divided 50-50 with the city in time to come. P. R. T. stockholders should be recompensed for this one-half of the estimated added earnings which would later accrue to them if P. R. T. did not now participate in the support of the city-built subways of which no mention is made in the 1907 agreement.

Operations in 1927—P. R. T. co-ordinates every phase of Philadelphia's public passenger transportation and now operates about 664 miles of surface track, 39 miles of elevated and subway track, 243 miles of city motor-bus routes, 1,285 taxicabs and a fast growing system of inter-city bus routes. Revenue and transfer passengers carried by P. R. T. in 1927 totaled 935,412,879, compared with 966,469,223 in 1926, and 926,928,994 in 1925. In 1926 P. R. T. acquired from Northeastern Philadelphia Transit Co. the Frankford, Tacony & Holmesburg Street Ry. (see 1926 Public Utility Manual, page 1895) for a price of $300,000 and operates the line as a feeder for the Frankford Elevated.

Passenger Revenue in 1927—Passenger revenue for the year, including subway-elevated, street cars, motor-buses and taxicabs, was $56,070,709. Operating expenses and taxes were $43,321,422. Surplus earnings after providing for all charges including 7% on Pfd. stock and 8% on Common stock amounted to $13,010.

CAPITAL STOCK

Authorized, $30,000,000 Common and $30,000,000 increased from $23,000,000 in Feb. 1928) 7% cumulative Pfd., par $50; outstanding, Dec. 31, 1927, 29,996,235 Common and $22,977,200 Pfd. On March 3, 1925, capital stock was changed from $30,000,000 to $30,000,000 Common and $3,000,000 7% Pfd.; on Jan. 20, 1926, stockholders increased Pfd. stock from $3,000,000 to $18,000,000; on Sept. 22, 1926, stockholders increased Pfd. stock from $18,000,000 to $23,000,000. Of the new $15,000,000 Pfd. stock, $10,000,000 was oversubscribed in Feb., 1926 (see below), and of the remaining $5,000,000, $3,000,000 was issued in connection with the purchase of the Yellow Cab Co. of Philadelphia and $2,000,000 will be used to purchase other taxicab interests operating in Philadelphia.

Proposed Stock Increase—Special meeting of stockholders was to be held June 18, 1928, to vote on increasing Pfd. stock from $30,000,000 to $35,000,000. Proceeds of the additional stock are to be used in relocating tracks of the Market Street subway and construction of car barn and bus terminal.

Subscription Privileges, Etc.—In order to comply with legal requirements, stockholders of record, April 1, 1925, were notified that they were entitled to subscribe to one share of new Pfd. for each 10 Common shares held. Stockholders, however, at the annual meeting had voted to waive their subscription

rights so that the new Pfd. shares might be offered to the car riding public in small lots at par.

Common stockholders of record Jan. 29, 1926, received the right to subscribe to $15,000,000 Pfd. stock, at par $50 per share, on the basis of one share of Pfd. for each two shares of Common. Subscription privilege expired Feb. 15, 1926, when payment in full was due. Stockholders, however, were requested to waive their subscription rights by refraining to make application, this being in continuation of the plan for car riders participation in ownership.

Common stockholders of record September 30, 1926, were offered the right until Oct. 14, 1926, to subscribe to Preferred stock at $50 a share in the ratio of one share for each six shares held. Stockholders were again requested to waive their rights so that stock could be offered to car riders.

Common stockholders of record Feb. 10, 1928, received the right to subscribe to $7,000,000 additional 7% Pfd. stock at $50 per share in the ratio of one new share for each 4 2/7 shares of Common stock held. Stockholders were again requested to waive their subscription rights.

Preferred Stock Provisions—Has preference for assets and dividends, and in dissolution or liquidation, whether voluntary or involuntary, is entitled to par and accrued dividends, plus 6% interest per annum, on any dividends in arrears. Pfd. stock has no voting power except in the default of two semi-annual dividend payments in which case it will have equal voting power share for share with Common. Without the consent of holders of Pfd. stock, no class of stock having priority or preference over present Pfd. shall be authorized or issued except for the purpose of acquiring or retiring securities having a prior claim including stocks and bonds of leased companies to which rental is paid. Present Pfd. stock may be increased and other classes of Pfd. stock with different preference, restrictions, etc., (except as above stated), may be issued without the consent of present Pfd. stock.

Callability—Pfd. stock is subject to redemption as a whole or in part on any dividend date on 60 days' notice at 110% and accrued dividends, plus 6% per annum on any dividends in arrears.

Transfer Agents—Stock transferred at the Company's office, Philadelphia, and by the Chemical National Bank of New York.

Registrars—The Real Estate-Land Title & Trust Co., Philadelphia and The Equitable Trust Co. of New York.

UNION TRACTION COMPANY

(Leased to Philadelphia Rapid Transit Co.)

History—Incorporated Sept. 6, 1895, in Pa., for the purpose of acquiring control by lease or by purchase of shares of the Philadelphia Traction Co., the Electric Traction Co. and the People's Traction Co., and giving to the shareholders of these three companies the privilege of subscribing for their pro rata share of Union Traction Co. stock. The Philadelphia Traction Co. was leased for 999 years from Oct. 1, 1895, and on or about that date the Union Traction Co. acquired all the shares of the Electric Traction Co. and the People's Traction Co. in exchange for which were issued collateral trust certificates secured by deposit of all the stock of these companies thus purchased. On July 1, 1896, the Electric Traction and the People's Traction systems were leased to the Union Traction Co. for 998 years and three months. Also leases the Hestonville, Mantua & Fairmount Passenger R.R. for 999 years from Jan. 1, 1898, and owns $239,000 of that company's Pfd. stock and $1,764,700 Com., which is pledged under the mortgage securing the Phila. Rapid Transit Co. collateral trust bonds. The Union Traction Co. owns the entire outstanding capital stock of Philadelphia & Willow Grove St. Ry. Co.

The Union Traction Co. is leased to the Philadelphia Rapid Transit Co. for 999 years from July 1, 1902, at an annual rental of 3% upon capital stock for the first two years; 4% for the next two years, 5% for the next two years and 6% thereafter. The 6% rate is now being paid. In addition to this rental, the Philadelphia Rapid Transit Co. assumes all fixed charges, taxes, etc., of every description of the Union Traction Co. or any of its leased lines. The stockholders of Union Traction were given the right to purchase 150,000 shares of Philadelphia Rapid Transit stock.

Guaranteed Bonds—On Feb. 28, 1911, the stockholders of this company voted to guarantee as to principal and interest $10,000,000 (authorized issue) of Philadelphia Rapid Transit Co.'s bonds, as same shall from time to time mature; the Union Traction Co., as guarantor, having the right to require that not more than $2,000,000 of such bonds shall be issued in any one year without the consent of its Board of Directors, and that proceeds of said bonds shall be expended solely on the property covered by lease dated July 1, 1902, or which shall have become subject to the terms of said lease, or, if expended on other property, such other property shall become the property of the Union Traction Co., subject to the conditions of said lease, until payment by Philadelphia Rapid Transit Co. of all of said bonds. As consideration for this guaranty, stockholders of Philadelphia Rapid Transit Co. voted to assign and transfer to the Union Traction Co., all its equity and interest in the Market St. Elevated Passenger Ry. Co., to wit: All of the capital stock of the Market St. Co., together with the lease of that company, and all claims for advances to that company by Philadelphia Rapid Transit (said property being subject to a mortgage of $10,000,000); likewise, all the equity and interest of the Philadelphia Rapid Transit Co. in the Doylestown & Willow Grove Ry., the Darby & Yeadon Street Ry. and in any other street railway properties acquired since July 1, 1902. The Union Traction Co. reassigned to the Philadelphia Rapid Transit Co., as lessee, all the interests and equities above referred to, without payment of any further rental.

Without consent of majority of each class of stock, no mortgage or lien may be created, except purchase money mortgages and liens and mortgages on property hereafter acquired and pledges made for loans in usual course of business. Authorized amount may not be increased without consent of majority of Preferred and no prior preference stock may be created without consent of 66 2/3% of Preferred. Issued for acquisitions.

Callability—Subject to call as a whole or in part after three years from date of issue at 105 and accrued dividends.

Class "A" Stock Provisions—Has priority over Class "B" stock both as to assets and non-cumulative dividends of $2 per share. Participates equally as a class with Class "B" in all dividends after latter has received as a class an amount of dividends equal to total paid on Class "A" stock at rate of $2 per share. In liquidation entitled to $35 per share and participates equally as a class with Class "B" after latter has received an amount equal to the preferential payments on Class "A". Non-callable. Has no voting power unless four quarterly dividends are in default when it may elect two directors. No mortgage may be placed upon the property other than purchase money obligations without the consent of the owners of a majority of the preferred, Class "A" and "B" stock, each voting as a class. Issued for acquisitions and other corporate purposes.

Class "B" Stock Provisions—Has third preference as to assets and dividends; has sole voting power with restrictions (see above under Pfd. stock and Class "A" stock provisions). Held in voting trust agreement dated April 1, 1925, and to continue for ten years unless terminated by consent of 80% of the voting trust certificate holders.

Transfer Agents—American Exchange Irving Trust Co., New York, and at office of Company in Chicago.

Initial cash dividends of 25 cents on Class "B" stock paid April 1, 1926, which quarterly rate paid to date; payments, J, A, J & O 1 to stock of record M, J, S & D 6. Extra dividends of 41 cents a share each paid Jan. 3, 1927 and 1928. Stockholders were offered the option of receiving all dividends subsequent to April, 1926, at the rate of 1/10th of a share of Class "B" stock for each $1 of dividends to which they were entitled.

FUNDED DEBT

$20,000,000 5½% TWENTY-YEAR GOLD DEBENTURES; DUE JUNE 1, 1947

Dated June 1, 1927.

Interest Payable June and December 1 at The Chase National Bank of New York, N. Y., and Continental National Bank and Trust Co., Chicago, Ill.

Denominations—Coupon, $100, $500 and $1,000; interchangeable; principal of bonds in the $1,000 denomination may be registered.

Trustee—The Chase National Bank of the City of New York.

Provisions of Issue—Authorized amount, not limited; issued and outstanding Dec. 31, 1927, $20,000,000.

Additional debentures and/or any other bonds, notes or other obligations maturing more than one year after date may not be issued unless the consolidated net earnings of Corporation and its subsidiaries, as defined in the Indenture, for 12 consecutive months within 15 months next preceding such issue, shall have been at least 2½ times annual interest charges on all debentures, bonds, notes and other obligations of the Corporation maturing more than one year after their respective dates then outstanding, including those proposed to be issued.

Purpose of Issue—Proceeds were used in connection with the purchase of all the Common stock of Laclede Gas & Electric Co. and St. Louis Gas & Coke Corp., for the reduction of current indebtedness, to retire underlying securities, and for other corporate purposes.

Callability—Subject to call as a whole at any time, or in part on any interest date on 60 days' notice at 105 prior to June 1, 1931; at 104 on said date, and thereafter prior to June 1, 1935; at 103 on said date and thereafter prior to June 1, 1939; at 102 on said date and thereafter prior to June 1, 1943; at 101 on said date and thereafter prior to maturity, plus accrued interest in each case.

Sinking Fund—None provided.

Security—A direct obligation of the Corporation but not secured by mortgage. Corporation covenants not to create or permit any mortgage or other lien upon any of the fixed property of the Corporation, nor any pledge of voting or Common stock of a subsidiary necessary to qualify the subsidiary as such, except the pledge of shares of future subsidiaries (as defined in the indenture) hereafter acquired, to secure loans maturing not more than one year effected in connection with the acquisition of such shares, without at least equally securing these debentures. Corporation will not permit any subsidiary to issue any shares of voting stock unless the Corporation or another such subsidiary shall acquire a sufficient proportion thereof to cause the issuing corporation to continue to be a subsidiary as defined in the Indenture.

Maintenance, Renewals and Replacements—Corporation's policy is to set aside in the aggregate 13% of annual operating revenues of its public utilities subsidiaries and controlled companies for maintenance, renewals and replacements.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania 4 mills tax and California 5 mills taxes and Massachusetts 6% income tax on interest, refundable upon proper application.

Legal Opinion—Rushmore, Bisbee & Stern, New York (for the Bankers) and Matthews & Koegel, Chicago (for the Corporation).

Original Offering—First publicly offered ($20,000,000) in June, 1927, at 94¼ and interest to yield about 6%, by H. M. Byllesby & Co., Inc., Pynchon & Co., John Nickerson & Co., W. S. Hammons & Co., New York; West & Co., Philadelphia, and Federal Securities Corp., Chicago.

Price Range—1927: High, 94¾; low, 91.

able features and provisions as may be determined by directors. Bonds, in addition to the $20,000,000 outstanding, may be issued (1) to the extent of 75% of the cost or fair value, whichever is less, of additional public utility properties and other permanent additions acquired or constructed by Company; or (2) upon the pledge of a like principal amount of first mortgage bonds of subsidiary companies, as defined in the mortgage, representing such percentage of like properties owned by such subsidiaries; or (3) upon the deposit of moneys equal to their principal amount with Trustee, subject to being taken down for the above purposes in lieu of bonds; provided that no bonds shall be certified by Trustee as above stated unless the consolidated net earnings as defined in the mortgage for 12 consecutive months within 15 months immediately preceding the application therefor are equal to at least twice the annual interest requirements of all bonds outstanding under this mortgage (including bonds proposed to be certified) and all outstanding prior lien bonds. Where properties are acquired by Company or a subsidiary subject to prior liens, an equal principal amount of bonds will be withheld out of the amount otherwise issuable on the basis thereof for certification as such prior liens are satisfied or provided for. The total principal amount of prior liens permitted by the mortgage to exist upon the public utility properties of Company and its subsidiaries will be limited to not exceeding 25% of the aggregate principal amount of bonds outstanding under the mortgage. Bonds may also be certified for retirement of a like principal amount of bonds previously issued under the mortgage.

Purpose of Issue—The proceeds received from the sale of these bonds were used in the retirement of previous bond issues of Company and of underlying bonds and Pfd. stocks of subsidiary companies, to permit consolidation of the properties into one operating unit, and for other corporate purposes.

Callability—Subject to call as a whole at any time, or in part on any interest date, on 60 days' notice, at 105 and interest prior to Jan. 1, 1933; at 104 and interest thereafter prior to Jan. 1, 1939; at 103 and interest, thereafter prior to Jan. 1, 1945; at 102 and interest, thereafter prior to Jan. 1, 1951; and at 101 and interest, thereafter prior to maturity.

Maintenance and Renewal and Replacement Reserves—Beginning Jan. 1, 1927, 8% and 5% respectively of the gross operating revenue of the Company and its subsidiaries, less charges for actual amounts expended therefor, shall be set aside for maintenance and renewal and deposited with Trustee. Unused balances are subject to use for acquisition or construction of additional property against which bonds may not be issued, or for purchase or redemption of this issue.

Security—First Mortgage bonds are secured by a direct first mortgage on all real estate, plants, transmission lines and other fixed public utility properties of Company, now owned (located in Minnesota, Iowa, South Dakota and Oklahoma) or hereafter acquired (subject, as to after acquired properties, to prior liens within limits permitted by the mortgage) and by the pledge of all outstanding bonds and capital stocks of subsidiaries owning the Wisconsin, North Dakota, Nebraska and Illinois properties included in the system.

Tax Provisions—Company pays Normal Federal Income tax up to 2%. Pennsylvania 4 mills and California 5 mills taxes, and Massachusetts 6% income tax on interest, Connecticut 4 mills tax, Maryland 4½ mills tax, Kentucky 5 mills tax, Maine 5 mills tax and/or 6% Income Tax on interest, and New Hampshire 3% Income Tax refundable upon application within 90 days after payment.

Legal Opinion—Rushmore, Bisbee & Stern, New York, (for the bankers), and Matthews & Koegel, Chicago, (for the Company.)

Original Offering—First publicly offered ($20,000,000) in February, 1927, at 97½ and interest, to yield 5.16% by Halsey, Stuart & Co., Inc., Spencer Trask & Co., Pynchon & Co., New York; West & Co., Philadelphia; Federal Securities Corp., Chicago, and W. Hammons & Co., Portland, Maine.

Price Range—1927: High, 97⅝; low, 94¾.

(2)

$7,500,000 6% GOLD DEBENTURES; DUE JANUARY 1, 19

Dated January 1, 1927.

Interest Payable January and July 1, at The Chase National Bank of the City of New York and at the Continental National Bank and Trust Co., Chicago

Denominations—Coupon debentures in interchangeable denominations of $1,000 (registerable as to principal), $500 and $100.

Trustee—The Chase National Bank of the City of New York.

Provisions of Issue—Authorized and issued, $7,500,000.

Purpose of Issue—Issued in part to retire previous bond issues of Company, underlying bonds and preferred stocks of subsidiaries, for consolidation of properties into one operating unit, and for other corporate purposes.

Callability—Subject to call as a whole at any time or in part on any interest date, on sixty days' published notice at 105 prior to Jan. 1, 1932; at 104 on said date and thereafter prior to Jan. 1, 1937; at 103 on said date and thereafter prior to Jan. 1, 1942; at 102 on said date and thereafter prior to Jan. 1, 1947; and at 101 on said date and thereafter prior to maturity, plus accrued interest in each case.

Maintenance and Renewal and Replacement Reserves—Annual maintenance reserves and renewal and replacements reserves beginning Jan. 1, 1927, of 8% and 5% respectively of the gross operating revenue of the Company and its subsidiaries, may be used for additions and improvements or to retire bonds.

Security—A direct obligation of company, but not secured by mortgage. Company agrees that it will not create or permit the existence of any mortgages or similar liens upon any of its fixed properties, except for the first mortgage and prior liens on after acquired properties to the extent thereby allowed, without at least equally securing these Debentures; nor will it permit any such liens now held by the Company to exist upon the properties of its subsidiaries (as defined in the indenture) except the liens of mortgages securing bonds pledged under the first mortgage and prior liens on future properties within the limit thereby allowed. The Company will not issue any bonds, notes or other obligations maturing more than one year after date (except additional bonds issued in accordance with the first mortgage) unless the consolidated net earnings of the Company and such subsidiaries, as defined in the indenture, for twelve consecutive months within fifteen months next preceding such issue, shall have been at least 1½ times annual interest charges on all bonds and notes of the Company and such subsidiaries then outstanding in the hands of the public, including those proposed to be issued. The Company will not permit any such subsidiary to issue any bonds, notes or other obligations or shares of capital stock (except ordinary current liabilities not in excess of current assets) unless acquired by the Company or another such subsidiary.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania 4 mills tax, California 5 mills tax, Massachusetts 6% income tax on interest, Connecticut 4 mills tax, Maryland 4½ mills tax, Kentucky 5 mills tax, Maine 5 mills tax and/or 6% income tax on interest, refundable upon application within 90 days after payment.

Legal Opinion—Rushmore, Bisbee & Stern, New ork (for the Bankers), and Matthews & Koegel, hicago (for the Company).

History and Property—Incorporated for a term of years by special act of Missouri Legislature on arch 2, 1857, with an authorized capital stock of 0,000 which might be increased to $2,000,000. By act approved March 26, 1868, the franchise of the mpany was made perpetual, and the Company was thorized to increase its capital stock to such an ount as might be necessary to carry on its business. e privileges of The Laclede Gas Light Co. were exded throughout "the corporate limits of the city of Louis, as the same are now or may hereafter be established." As modified, charter gives Company right of making and selling gas, gas fixtures, and "any substance or material that may be now or hereafter used as a substitute therefor." In 1889 a reorganization of the various gas companies then operating in the city of St. Louis was effected. This reorganization resulted in the Company taking over the various properties and converting its original capital stock, amounting to $2,500,000, into a like amount of 5% cumulative Pfd. stock. The issuance of $7,500,000 Common stock was also authorized. Early in 1927, the electric light

business of the Company including a power plant of 22,500 k.w. capacity, was taken over by Laclede Power & Light Co. (see appended statement).

The Company owns and operates, without competition, manufactured gas systems serving the entire city of St. Louis with a total population in excess of 800,000. The property consists of three artificial gas plants, having a daily capacity of 63,350,000 cubic feet, 4 holder stations, and gas distribution system consisting of 1,098.42 miles.

During 1927 32.94 miles of mains and 1,894 services were installed, making the total miles of mains 1,098.42 and the total number of services 135,568 at Dec. 31, 1927. On the latter date there were 199,707 gas customers, an increase during the year of 1,245.

A transmission main has been installed and connected with the pipe lines of the Illinois and Missouri Pipe Line Co., to receive the gas purchased from the St. Louis Gas & Coke Corp. Gas purchased from the Illinois and Missouri Pipe Line Co. and from the St. Louis Gas & Coke Corp. is being received at the several plants of the Company in quantities sufficient to supply the present requirements, thereby avoiding the necessity of increasing the Company's manufacturing capacity, as well as affording Company protection against a scarcity of gas oil.

Control—On May 1, 1924, a majority of the Common stock of The Laclede Gas Light Company was acquired by Laclede Gas and Electric Company.

Valuation—The Missouri Public Service Commission found the reproduction value of Company's property as of Sept. 30, 1925, to be $61,267,139, and allowed a rate making value of $52,260,000. This, with net additions and betterments to Dec. 31, 1927, gives a reproduction value of $65,530,088 and the rate making value $56,522,949. The face value of all of the Company's securities is $43,700,000.

$3,000,000 TEN-YEAR 6% SECURED GOLD BONDS; DUE JANUARY 1, 1938

Dated January 1, 1928.

Interest Payable January and July 1 at The Chase National Bank of the City of New York, or at Continental National Bank and Trust Co., Chicago.

Denominations—Coupon, $1,000 (principal may be registered), $500 and $100; interchangeable.

Trustee—The Chase National Bank of the City of New York.

Provisions of Issue—Authorized amount, not limited; issued, $3,000,000. No additional bonds shall be issued except for the purpose of refunding bonds of some previous series, unless the consolidated net earnings of the Corporation and its subsidiaries (as defined in the Trust Indenture) for 12 consecutive calendar months within 15 months immediately preceding the application therefor, shall have been at least two times the annual interest charges on all bonds outstanding under the Trust Indenture, including those to be issued. Subject to compliance with said requirements as to consolidated net earnings, additional bonds may be issued in series on the basis of not exceeding 2/3 of the deposit value (as defined in the Trust Indenture) of additional shares of stock and/or bonds, notes or other evidences of indebtedness of subsidiaries pledged thereunder. Bonds may also be issued for the purpose of refunding a like principal amount of previously authenticated bonds of any other series. Bonds may also be authenticated on the basis of the deposit of cash with the Trustee to an amount equal to their principal amount subject to withdrawal for the above described purposes in lieu of the authentication of bonds.

Purpose of Issue—Proceeds were used in the acquisition of the capital stocks of subsidiary companies, to provide them with funds for the retirement of underlying bonds and Pfd. stocks, and for other corporate purposes.

Callability—Subject to call as a whole at any time, or in part on any interest payment date on 30 days' notice at 105 prior to Jan. 1, 1930; at 104 on said date and thereafter prior to Jan. 1, 1932; at 103 on said date and thereafter prior to Jan. 1, 1934; at 102 on said date and thereafter prior to Jan. 1, 1936; and at 101 on said date and thereafter prior to maturity, plus accrued interest in each case.

Sinking Fund—None provided.

Maintenance, Renewal and Replacement Reserves—Company covenants to set aside in each year beginning Jan. 1, 1928, amounts for maintenance reserves and renewal and replacement reserves equal to 8% and 5% respectively of the gross operating revenue of the Corporation and its subsidiaries, as defined in the mortgage, less amounts actually expended for

such purposes. Unused balances must be deposited annually with the Corporate Trustee, subject to use for the acquisition or construction of additional property not made the basis for the issuance of additional bonds under the mortgage or for the purchase or redemption of First Mortgage and First Lien Gold bonds.

Security—Secured by pledge with the Trustee of all of the outstanding Common stock of Central States Power & Light Corp. and Central States Pipe Line Corp. The Trust Indenture provides that the Trustee shall not release any of the pledged shares of Common stock of Central States Power & Light Corp. (except for reorganization purposes as provided in the Trust Indenture) unless provision shall be made for the payment or redemption of all of the outstanding bonds of this series on or before the next interest payment date. The provisions of the trust indenture, but not the terms of the payment of bonds, will be subject to modification by holders of 80% of the bonds at a bondholders' meeting called as provided in the Trust Indenture and with the concurrence of the Corporation.

Tax Provisions—Company pays Normal Federal Income tax up to 2%. Pennsylvania and Connecticut 4 mills tax, Maryland 4½ mills tax and California 5 mills tax, and Massachusetts 6% income tax on interest, refundable upon application within 90 days after payment.

Provisions of Issue—Outstanding, $5,000,000 5% Ser. of 1946. Additional bonds may be issued under Indenture in series on following basis: (a) 75% of cost or fair value of extensions, additions or improvements to electric and gas properties owned or operated by Corporation or its subsidiaries; (b) 66 2/3% of cost to Corporation or fair value, whichever is lower, of other electric or gas properties, which are or will be physically connected with present systems acquired by Corporation directly or through subsidiaries. (c) To refund a like principal amount of bonds of some previous series. The term subsidiary as defined in Indenture will include, in addition to present subsidiaries, only operating gas and/or electric companies whose systems are or will be physically connected with present systems, and at least 95% of whose Common stock, together with all outstanding bonds or Pfd. stock, have been pledged under Indenture. Indenture provides that no additional bonds shall be certified by Trustee except for purpose of refunding bonds of some previous series, unless consolidated net earnings (after setting aside at least 8% of gross operating revenue for maintenance) for twelve consecutive months, within fifteen months immediately preceding application therefor, shall have been at least twice annual interest requirement on bonds outstanding and those to be issued.

Purpose of Issue—Proceeds used for part of funds necessary for acquisition of capital stock of The Derby Gas and Electric Co. and The Wallingford Gas Light Co., retirement of underlying securities and for other corporate purposes.

Callability—Subject to call as a whole or in part on sixty days' notice on any interest date at par and interest, plus a premium commencing with 5% for 1927 and decreasing ¼% of principal amount each year thereafter.

Maintenance, Renewal and Replacement Fund—Indenture provides that the present or any future subsidiaries and Corporation itself in case it acquires any electric or gas properties, directly shall establish and continue a maintenance fund and a renewal and replacement fund in which there shall be set aside in each year amounts respectively equal to 8% and 5% of gross operating revenues, less credit for amounts actually expended for such purposes. Unused balances in these funds may be used for acquisition or construction of extensions, improvements and other permanent additions, which shall not be made basis for issuance of additional bonds under Indenture or for retirement of First Lien Gold bonds.

Security—Bonds are secured by a direct first lien by pledge on over 99.9% of Common stock of The Derby Gas and Electric Co. and entire Common stock of The Wallingford Gas Light Co. Indenture provides that any bonds or stock (except pro rata share of minority interest) subsequently issued by subsidiaries, shall be pledged hereunder.

Tax Provisions—Corporation pays Normal Federal Income tax up to 2%; Pennsylvania and Connecticut 4-mills tax, Maryland 4½-mills tax, and California 5-mills tax, Massachusetts Income tax not exceeding 6% of interest per annum, and New Hampshire Income tax not exceeding 3% of interest per annum, and any similar tax that may be imposed in Maine not in excess of the amounts for the above mentioned states, refundable.

Legal Opinion—Matthews & Koegel, Chicago (for the Corp.), and Rushmore, Bisbee & Stern, New York, (for the bankers).

Original Offering—First publicly offered ($5,500,000 Series of 1946) in July, 1926, at 95 and interest, to yield over 5.40%, by Pynchon & Co., John Nickerson & Co., West & Co., New York, etc., and W. S. Hammons & Co., Portland, Me.

Provisions of Issue—The mortgage provides for the issuance of bonds thereunder, in series, bearing the same or different rates of interest, dates, maturities, redemption provisions and such other distinguishing features and provisions as may be determined by the Board of Directors of the Company, subject, however, to the restrictive provisions of the mortgage. Additional bonds of 6% Series of 1949, or of other series, may be issued to the extent of 80% of the cost or fair value, whichever is less, of permanent improvements or additions made or acquired subsequent to Jan. 1, 1924, less the total principal amount of underlying bonds outstanding thereon, if any, provided net earnings, as defined in the mortgage, are equal to at least twice the annual interest requirements on all bonds outstanding under this mortgage, including bonds proposed to be issued, and on any underlying bonds. Subject to the above earnings restrictions, bonds may be issued against the deposit with the Trustee of an equal principal amount of cash or obligations of the United States Government and to the extent of $202,000 against pledge with the Trustee of an equal principal amount of bonds of the electric railway and water subsidiaries. Bonds may also be issued, par for par, for refunding bonds of other series

issued under this mortgage and underlying bonds, if any, on hereafter acquired property.

Purpose of Issue—Issued to provide for the retirement of funded indebtedness, for additions and extensions, and to provide additional working capital.

Callability—Subject to call at option of the Company as a whole or in part after 60 days' notice on any interest date at 105% up to and including Jan. 1, 1945; at 104% thereafter up to and including Jan. 1, 1946; at 103% thereafter up to and including Jan. 1, 1947; at 102% thereafter up to and including Jan. 1, 1948; and at 101% on July 1, 1948; plus accrued interest in each case.

Maintenance and Renewals—The indenture provides that commencing with the year ending December 31, 1925, and in each year thereafter there will be expended or set aside for maintenance, sums equal to 8% of the gross electric operating earnings and 15% of the gross railway operating earnings, and for renewals and replacements, sums equal to 5% of the gross electric and railway operating earnings. Any unexpended balances in the Maintenance Funds and/or the Renewal and Replacement Funds may be used for permanent improvements or additions which may not be made the basis for the issuance of bonds under the mortgage, or to retire bonds at not exceeding the then redemption price.

Security—Secured by a direct first mortgage on the entire property of the Company now owned and by a direct mortgage on property hereafter acquired, except securities not specifically pledged. All the outstanding bonds and capital stock (except directors' qualifying shares) of New Jersey Water and Light Co. and Coast Cities Railway Co. are pledged under the Indenture.

Tax Provisions—The Company agrees to pay the Normal Federal Income Tax to the extent of 2% and to refund upon application within 90 days after payment, the Pennsylvania and Connecticut Personal Property taxes, not exceeding 4 mills per annum, the Maryland Security tax, not exceeding 4½ mills per annum, and the Massachusetts Income tax, not exceeding 6% per annum on income derived from the bonds. Free of personal property tax in the State of New Jersey.

Legal Opinion—Seibert & Riggs, New York, Pitney, Hardin & Skinner, Newark, N. J., Matthews & Koegel, Chicago.

Original Offerings—First publicly offered ($3,250,000) in Feb., 1924, at 95 and accrued interest, to yield 6.40%, by Bonbright & Co., Inc., and W. C. Langley & Co., New York, and Hoagland, Allum & Co., Chicago.

$1,350,000 First Mortgage Gold Bonds, 5½% Series of 1949 were offered in April, 1926, at 97½ and interest, to yield about 5.70%, by Bonbright & Co., Inc., and W. C. Langley & Co., New York, and Hoagland. Allum & Co., Chicago. $1,000,000 First Mortgage Gold Bonds, 5% Series of 1949 were offered in May, 1927, at 97 and interest, by the same bankers.

History—Incorporated June 16, 1920, in Md. to carry on a general telephone, telegraph, cable and wireless business and operations incidental thereto, including the construction and operation of such communication systems and the manufacture and distribution of electrical equipment in the States, territories or dependencies of the United States, except the State of Maryland, and specifically to transact such business in Cuba, Porto Rico, and other islands of the West Indies, Mexico, Central America, South America and Europe as well as in any other foreign countries.

PLAN AND AGREEMENT

Dated March 29, 1928, for the exchange of Common shares of The Mackay Companies for 7% Pfd. stock of a New Company, and stock of International Telephone and Telegraph Corporation and for exchange of Pfd. shares of The Mackay Companies and of 4% Gold bonds and 4% Debenture stock of The Commercial Cable Company for Collateral Trust 5% bonds of the New Company.

The Plan was declared operative May 15, 1928, sufficient securities having been deposited with the Committee:

A resume of the Plan follows:

"An arrangement was concluded in March, 1928, with Clarence H. Mackay, Pres. of The Mackay Companies (see General Index) to associate with the International Telephone and Telegraph System, the properties of The Mackay Companies which comprise the cables and land lines of The Commercial and Postal Telegraph Systems extending from Europe on the one hand, through the United States to the coast of Asia, on the other. The plan for such association has been formulated and approved by the Board of Directors, whereunder a New Company will be organized, which will acquire all or any, (but not less than 66 2/3%, unless otherwise determined by the Board of Directors of International) of the Pfd. shares and of the Common shares of The Mackay Companies and not less than 90%, (unless similarly otherwise determined), of the 4% bonds and debenture stock of The Commercial Cable Co. All of the Common stock of the New Company, which carries the right to vote, will be acquired and owned by International Telephone and Telegraph Corp. The Trustees of The Mackay Companies recommended the acceptance of the plan to the holders of their shares and to the holders of the above mentioned obligations of The Commercial Cable Company, and such holders were invited to deposit their securities for the purpose of carrying out the plan.

The International Company shall cause to be formed a new corporation (referred to as the "New Company"), which shall be organized under the laws of the State of Maryland, or of such other State of the United States as shall be determined upon for the purpose, and which shall have the following authorized corporate structure:

(1) Twenty-five Year Collateral Trust 5% bonds for an authorized principal amount of $60,000,000 (of which a part thereof will be issued in Pounds Sterling at the rate of 206 Pounds Sterling for every $1,000 face value of bonds), of which $52,321,120 will be issuable only in exchange as below specified for the above-mentioned Preferred shares of The Mackay Companies and the bonds and debenture stock of the Cable Company, and the remainder will be used to provide moneys to acquire other corporate bonds or shares or to be applied directly or indirectly for additions to or improvements of the properties now held by The Mackay Companies or its controlled companies or by companies in which The Mackay Companies has a substantial interest. The new bonds (all or any) are to be subject to redemption on any interest date at 105 per cent and accrued interest for the first five years, at 104 and accrued interest for the next five years, at 103 and accrued interest for the next five years, at 102 and accrued interest for the next five years and at 101 and accrued interest for the last five years. The Dollar bonds are to be payable principal and interest in New York and the Pound Sterling bonds in London and are to be issued under a Collateral Trust Indenture whereunder will be pledged all of the shares of The Mackay Companies and all of the bonds and debenture stock of the Cable Company acquired by the New Company and any other corporate securities acquired with any of the new bonds which are issuable therefor as above mentioned. The Dollar bonds will be issuable only in denominations of $100 and $1,000 and will be coupon bonds with privilege of registration as to principal. Pound Sterling bonds will be issued only in registered form and in denominations of One Pound Sterling or multiples thereof. The Trust Indenture is to contain the provisions usual in such indentures, including customary clauses for the substitution and release of the pledged securities, all as shall be approved by the Committee;

(2) $60,000,000 par value of non-cumulative, non-voting Pfd. stock, consisting of 600,000 shares of the par value of $100 each, issuable in series of any amount, each series to bear non-cumulative dividends at a rate not in excess of 7% per annum, and all such stock to be entitled to receive in liquidation $100 per share in preference to any distribution on the Common stock; all such stock to be redeemable (in amounts thereof not less than 10,000 shares) at 110% on any dividend date; such stock to be without any pre-emptive subscription rights. Of said stock $31,035,300 par value which will be entitled to non-cumulative dividends at the rate of 7% per annum, will be issuable only to acquire the Common shares of The Mackay Companies, as hereinafter provided. The charter of the New Company shall provide that no Pfd. stock in addition to said $60,000,000 par value having equal rights with said Pfd. stock may be authorized, and no Pfd. stock having preference or priority either in dividends or in principal to

said Pfd. stock, may be created, without the consent first obtained of two-thirds in amount of the said Pfd. stock issued and outstanding;

(3) Common stock of such authorized number of shares of a par value or no par value as shall be determined by the International Company, with which the International Company undertakes and agrees that the New Company forthwith will acquire 103,451 shares of the par value of $100 each of the Capital stock of the International Company, or such lesser amount as may be required under the terms hereof.

The plan provides for the exchange of the existing Pfd. and Common shares of The Mackay Companies and the 4% Five Hundred Year First Mortgage bonds and Debenture stock of the Commercial Cable Company on the following basis:

$18,000,000 of the Twenty-Five Year Collateral Trust 5% bonds of the New Company are to be issuable in exchange for $20,000,000 of such 4% bonds and Debenture stock of The Commercial Cable Company on the basis of $900 face amount of said new bonds in exchange for each $1,000 (£206) face amount of such 4% bonds and Debenture stock;

$34,321,120 of said 5% bonds are to be presently issuable in exchange for the outstanding $42,901,400 4% Pfd. shares of The Mackay Companies at the rate of $800 principal amount of the new 5% bonds for each ten Pfd. shares of The Mackay Companies, making a total present issue of the 5% bonds of $52,321,120.

Each four Common shares of The Mackay Companies will be exchangeable for three shares of 7% non-cumulative, non-voting Pfd. stock of the New Company, plus one share of $100 par value of the capital stock of International Telephone and Telegraph Corporation, which is to issue to the New Company, in exchange for the Common stock of said New Company, such part of an aggregate of $10,345,100 par value of the capital stock of International Telephone and Telegraph Corp. as may be needed for the above purpose.

The enlarged system will operate telegraph lines extending throughout the United States, with agreements for exchange of business with Canada and Mexico; cable systems extending across the Atlantic and Pacific and to the important countries of South America with connections to European and Asiatic countries; telephone systems in Mexico, the West Indies and South America; and an organization engaged in the manufacture and sale of electrical communications equipment widely distributed throughout the world. It will also operate radio services to supplement the existing cable and wire systems.

Both organizations should profit by this association of interests through greater diversification, and the added business which the widespread contacts of each in many fields of operations will bring to the other.

Clarence H. Mackay is to become a member of the Board of Directors and Executive Committee of the International Telephone and Telegraph Corp., and is to assume an active part in the direction of the Corporation. In addition he is to be the Chairman of the New Company.

At a special meeting held May 9, 1928, stockholders of the International Telephone and Telegraph Corp. approved the above plan and authorized the issuance of additional capital stock of the Corporation necessary to carry out the plan and agreement.

The Committee under the Plan and Agreement are as follows: Clarence H. Mackay, Chrm.; Frank L. Polk, Charles H. Sabin, Lewis L. Clarke, F. G. Osler, William J. Deegan, 253 Broad St., New York, Sec.; Hughes, Schurman & Dwight, New York, Counsel. J. P. Morgan & Co., New York, Morgan, Grenfell & Co., London, England, and Baring Brothers & Co., Ltd., London, England, Depositaries. The time limit for the deposit of securities of Mackay Companies and Commercial Cable Co. was set for June 15, 1928.

CUBAN TELEPHONE COMPANY

(Controlled by International Telephone and Telegraph Corporation)

History and Property—Incorporated Feb. 3, 1908, in Del., amended Dec. 31, 1924, for the purpose of doing everything necessary or incidental to the ownership and operation of a telephone and telegraph system, in any part of the world, and especially in the West Indian Islands and in the Island of Cuba. Holds a concession confirmed by the Supreme Court of Cuba, conferring the right, without time limit, (1) to install and operate a 1,200 mile telephone system extending over and covering practically the entire Island of Cuba, including the City of Havana and their chief towns and municipalities of the Island; (2) similar rights with regard to local telephone service, except within the radius of the existing concessions, which relate to about 11 towns and municipalities. The Company will either acquire these existing concessions or await their expiration as may be considered advisable.

The entire system as at Dec. 31, 1927, contained 2,608 miles of long distance pole lines and a total telephone wire mileage of 214,093. The Company serves 351 cities and towns and owns 14 automatic and 135 manual exchanges. No. of telephones in operation Dec. 31, 1927, 67,470.

The Cuban Telephone Co. owns practically all of the $500,000 capital stock and the entire First and Second Mortgage bonds ($500,000 and $200,000 respectively) of the **Havana Subway Co.,** which was incorporated June 6, 1902, in Delaware, with a perpetual charter, and operates under a concession granted by the City Council of Havana, Dec. 23, 1903, for 99 years. It owns subway conduits for telephone cables in the city of Havana, the construction of which was completed in 1907, and has been operating them since 1909. Its affairs are administered by the personnel of the Cuban Telephone Co.

The Company also owns the sole interest in the **Radio Corporation of Cuba,** which was incorporated on April 12, 1922, in Havana, Cuba, and operates radio station PWX, located at Havana, Cuba.

CAPITAL STOCK

Authorized $18,000,000 (increased from $14,000,000 on June 4, 1924) Common and $12,000,000 (increased from $2,000,000 in May, 1924) 7% cum. Pfd.; outstanding, $14,142,076 Common and $6,067,000 Pfd.; par, $100. In addition to the Pfd. outstanding there was $4,100 subscribed for but unissued. The Pfd. dividend rate was increased in Sept., 1924, from 6% to 7%. At Dec. 31, 1927, International Telephone and Telegraph Corp. owned $13,855,900 of the Common stock.

Preferred Stock Provisions—Pfd. stock has preference for assets and dividends, and is subject to call as a whole, or in amounts of not less than 1,000 shares, on any dividend date upon not less than 90 days' notice at 110 and dividends. In the event of liquidation or dissolution it is entitled to 100 and dividends. Pfd. stock has no voting power, except in case of default in four consecutive dividends, or in case the proposal to be submitted directly affects the rights of the Pfd. stock.

(2)

$4,311,600 FIRST LIEN AND REFUNDING GOLD 7½s, SERIES "A"; DUE SEPTEMBER 1, 1941

Dated September 1, 1921.

Interest Payable March and September 1, at The National City Bank of New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Interchangeable with fully registered bonds in denominations of $1,000, $5,000 and multiples of $5,000.

Trustee—The National City Bank of New York.

Provisions of Issue—Authorized issue, $50,000,000. Bonds may be issued in series, with the same or such different interest rates, dates, maturities (not later than Sept. 1, 1971) and redemption provisions as may be determined by the Board of Directors of the Company, subject, however, to the restrictive provisions of the mortgage. Bonds of any series may be issued from time to time in the future, in principal amounts equal to and for the acquisition or retirement of First Mortgage bonds outstanding in the hands of the public on Sept. 1, 1921, or for the retirement of bonds of another series issued under this First Lien & Refunding Mortgage. Additional bonds may also be issued for not exceeding 75% of construction expenditures made subsequent to Sept. 1, 1921, provided net earnings after all operating expenses, maintenance and taxes and liberal charges for replacements, shall have been not less than twice the annual interest charges on all First Mortgage bonds and First Lien & Refunding Mortgage bonds outstanding in the hands of the public together with those then to be issued.

Callability—Subject to call as a whole or in part on any interest date upon 30 days' notice, at 107½ and accrued interest between Sept. 1, 1931, and Sept. 1, 1936, both inclusive, and at 105 and accrued interest thereafter but prior to maturity.

Sinking Fund—The mortgage provides for the payment to the trustee semi-annually commencing Dec. 1, 1921, of sums in cash equal in each case to 1% of the aggregate amount of First Lien & Refunding Mortgage bonds outstanding. Such moneys shall be applied: first to the purchase so far as possible of First Lien & Refunding Mortgage bonds of any series, at or below the then existing redemption prices or, if during a non-redeemable period with respect to any particular series, at or below certain specified purchase prices; and, second, to the redemption of bonds of such series as are then subject to redemption. In the event that no bonds are at the time redeemable and the sinking fund moneys are not exhausted by the purchase of bonds within the price limits specified, the balance of any such moneys remaining unexpended may be reimbursed to the Company for construction expenditures, against which no bonds may be issued. In the case of the Series "A" bonds, prior to Sept. 1, 1931 (during which period this series is non-redeemable), the sinking fund moneys may be used in the purchase of such bonds up to 107½ and accrued interest.

Maintenance and Improvement Provisions—The indenture provides that a General Reserve Fund be created, which will require the Company annually beginning with the year 1922, either to expend or, in lieu thereof, to deposit in cash with the Trustee not less than 25% of the gross telephone revenue for such year, which amount may be expended only for maintenance, repairs, renewals and replacements for the purchase of First Lien & Refunding Mortgage bonds, or for extensions, improvements and additions, on account of which no bonds shall have been or may be issued. With a view to assuring the adequacy of the General Reserve Fund under possible alterations in operating conditions, this percentage will be subject to adjustment at the end of each five year period; but in no year shall the amount required be less than 10% of the aggregate face value of First Mortgage bonds and First Lien & Refunding Mortgage bonds outstanding in the hands of the public at the end of such year.

Security—Secured by pledge of $4,696,430.66 First Mortgage bonds, comprising the entire balance issuable under the First Mortgage. Also secured by a direct mortgage lien on the entire property of the Company now owned or acquired in the future, subject only to the lien of the First Mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania State Tax refunded. Exempt from all Cuban taxes.

Legal Opinion—Shearman & Sterling, New York, and Rosales y Lavedan, Havana, Cuba.

Original Offering—First publicly offered ($4,000,000) in Oct., 1921, at 95 and interest, yielding over 8%, by the National City Co., New York.

Market—Traded on New York Curb Market.

MEXICAN TELEPHONE AND TELEGRAPH COMPANY

(Controlled by International Telephone and Telegraph Corp.)

History—Incorporated Feb. 21, 1905 in Maine, and amended April 12, 1926, to construct and operate telephone, telegraph and electrical plants, lines and systems in the Republic of Mexico. Took over properties formerly owned and operated by the Mexican Telephone Company. Has telephone exchanges in various cities in Mexico and long distance lines interconnecting most of these exchanges and connecting the Company's lines with the lines of the American Telephone and Telegraph Company in the United States. For reorganization plan of the Mexican Telephone Company see Manual for 1905, page 1513.

Company's property, which had been in the hands of the Mexican Government since 1915 was returned Sept. 1, 1925.

Company has an amended concession covering t right to construct and operate a telephone system the federal district (Mexico City and its environs), s well as concessions to construct and operate a lo distance system throughout Mexico and local and lo distance systems in the states of Tamaulipas a Queretaro. The duration of these concessions is f sixty-nine years from date of approval. After this ti has elapsed the Government can purchase as a wh but not in part, upon three years' notice. If this not taken advantage of, the Company continues to e ercise its rights for another thirty years, at the co pletion of which the properties revert to the Gover ment and the latter will assume the possession of t equipment against a cash settlement.

Activities, started in 1926 on physical rehabilitation nd expansion of Company's plant, have so far resulted n the installation of new automatic exchanges in Tampico and in the Condese area in Mexico City; in mportant increases in the facilities of the Juarez and Veri central office areas in Mexico City and in the acilities in Monterrey, Saltillo, Cuidad, Victoria and Leon; also in the extension of Company's long disance lines from Mexico City and Queretaro to San Luis Potosi, Tampico, Puebla, Saltillo, Monterrey, Cuiad, Victoria and Nuevo Laredo. The culmination of he long distance program for 1927, came in September vhen long distance service between the United States nd Mexico was formally opened. International ervice has since been extended to Canada and Cuba, nd will shortly cover Great Britain and many impor- ant cities in continental Europe.

Plans for 1928 call for installation of two new exhanges and commencement of construction of general ffice building housing a large exchange, all in Mexico City; installation of new exchanges in Quadalajara nd the Cecilia section of Tampico; the installation of ommon battery central offices in Piedras Negras and Nuevo Laredo; and construction of the additional ong distance lines needed to interconnect every city erved by the Company and also to relieve present ongested lines.

At Dec. 31, 1927, Company served twelve cities nd towns and owned 19 manual exchanges. It had 5,065 stations, compared with 20,485 at the end of 926.

CAROLINA MOUNTAIN POWER COMPANY

(Controlled by Chimney Rock Mountains, Inc.)

History and Property—Incorporated in N. C., as a subsidiary of the Chimney Rock Mountains, Inc. The lake resulting from the construction of a dam is the central feature of the resort now being developed by that company 25 miles southeast of Asheville, N. C. The Carolina Mountain Power Co. owns in fee all land and water-rights necessary for the entire hydro-electric development. The hydro-electric plant, consisting of approximately 1,500 acres of lake bottom, water-rights, dams, power-house, transmission lines and equipment, has a generating capacity of approximately 5,200 h.p. and cost approximately $1,200,000. A contract has been concluded between Carolina Mountain Power Co. and Blue Ridge Power Co., whereby latter company agrees to operate and maintain the plant at its own expense and to buy sufficient power at a price estimated to produce annually approximately double the interest requirements on the outstanding bonds. The Blue Ridge Power Co. agrees to sell back to the Carolina Mountain Power Co. at its regular wholesale rates, all current so purchased, needed to supply the resort development.

CAPITAL STOCK

Authorized, 25,000 shares Common of no par value and $300,000 7% cumulative Pfd. stock; outstanding 25,000 shares Common. Stock control held by Chimney Rock Mountains, Inc. Annual meeting, in June, at Asheville, N. C. No dividends paid to date.

UNION TRACTION COMPANY OF INDIANA

History—Incorporated May 13, 1912, in Ind.; consolidation of a company of same name (incorporated May 28, 1903) and the Indiana Union Traction Co. (see Manual for 1912, pages 1815 to 1817). The properties of the old Union Traction Co. of Indiana were formerly leased to the Indiana Union Traction Co. In the consolidation, holders of Indiana Union Traction Co. stock received $40 in new Common stock for each 100 share held; holders of Pfd. stock of old Union Traction Co. received $100 in new First Pfd. for each 100 share held, and holders of Common stock, $40 in New Second Pfd. and $40 in new Common for each 100 share held. Operates under 999-year lease from Oct. 25, 1912, the Indianapolis New Castle & Eastern Traction Co., (see statement appended), the lease covering the interurban line from Indianapolis to Newcastle and an extension from New Castle to Muncie, put in operation Aug. 31, 1913. Also owns all the $100,000 outstanding First Mortgage 15-year 6% bonds due April 1, 1928, and the outstanding $50,000 capital stock of the **Traction, Light & Power Co.,** incorporated in 1912, in Ind., to generate and sell electric current. This latter Company now serves 50 towns and villages. In 1917 the Union Traction Co. of Indiana joined with the Indianapolis Traction & Terminal Co., the Terre Haute, Indianapolis & Eastern Traction Co. and the Fort Wayne & Northern Indiana Traction Co. in the organization of the **Shirley Realty Co.,** which purchased an operating coal mine in Sullivan County, Ind. The purchase was financed through the sale of the Pfd. capital stock of the Shirley Realty Co., amounting at par to $265,000. The entire

Common capital stock of the company, amounting at par to $135,000, is held equally by the four traction companies mentioned, which are entitled to take the output of the mine in equal proportions.

The Union Traction Co. of Indiana owns the entire Common stock of the Muncie, Hartford & Fort Wayne Ry., and leases its lines (formerly leased by Indiana Union Traction Co.) under lease dated June 27, 1906, and expiring in 999 years (see statement appended).

On June 30, 1916, an indenture of lease was executed between The Muncie & Portland Traction Co., Indianapolis, New Castle & Eastern Traction Co. and Union Traction Co. of Indiana whereby the interurban line of the first-named company, extending from Muncie to Portland, 32 miles, became a part of the property operated by Union Traction Co. of Indiana under the lease from the Indianapolis, New Castle & Eastern Traction Co. dated Oct. 25, 1912, and modified Aug. 21, 1914 and June 30, 1916 (see statement appended).

Leased Lines—While operation of the lines owned by The Munice, Hartford & Fort Wayne Ry. Co., Indianapolis, New Castle & Eastern Traction Co. and The Muncie & Portland Traction Co. have been continued by the Receiver, the leases of those lines held by the Union Traction Co. of Indiana have not been adopted or affirmed by the Receiver, such operation being only for the convenience of all persons in interest.

Bus Operations—Busses were operated by the Receiver during 1927 between Indianapolis and Peru, Indianapolis and Muncie, Indianapolis and Sheridan via Noblesville, and Anderson and Marion, in the cities of Anderson and Muncie, and at Fort Benjamin Harrison. All these operations except at Fort Benjamin Harrison, were under certificates of public convenience and necessity granted by the Public Service Commission of Indiana. At Muncie the busses of the Receiver run in sharp competition with busses operated without the necessary State authority, and proceedings to restrain such illegal operation are pending in the courts. Gross revenues from bus operation in 1927 were $131,724 and operation expenses, taxes, interest and amortization charges were $305,559, making a deficit resulting from bus operation of $173,835, which includes $96,619 for depreciation and amortization.

Broad River Traction Company Bonds—Through the sale of Broad Ripple Park and Bathing Beach by the Trustee in Bankruptcy of Broad Ripple Park, Inc. and the consequent payment of the balance of the purchase price stipulated in the contract executed in 1922 whereby the bankrupt purchased the property, there became available certain funds for application to the purchase of Broad Ripple Traction Company bonds. The total issue of these bonds, dated Aug. 1, 1899, and due July 1, 1933, is $400,000, of which $200,000 was the obligation of the Union Traction Co. of Indiana through assumption in connection with acquisition of the Broad Ripple line in 1903. Additional funds became available for the same purpose from the sale of two lots in Broad Ripple. Through assumption by the Indianapolis Street Railway Co. of $85,000 of these bonds, and the purchase of $103,000 face value of bonds out of the funds referred to, the amount not provided for of the $200,000 of bonds which were the obligation of the Union Traction Co. of Indiana, was reduced Dec. 31, 1926 to $12,000, which have since been retired in 1927. $6,000 additional bonds of the issue were purchased out of the proceeds of the property referred to. The interest on the purchased bonds was paid to the Receiver. Unexpired proceeds remain in the hands of the Trustee for application to the purchase of additional bonds.

Terminal Realty Corp.—Agreements were concluded between Union Traction Co. of Indiana, Terre Haute, Indianapolis & Eastern Traction Co., Interstate Public Service Co., Indianapolis & Cincinnati Traction Co. and Indianapolis Street Ry. Co., and the organization under the laws of Indiana of the Terminal Realty Corp. effected for the establishment of joint interurban freight terminal at Indianapolis o about eleven acres of land acquired for the purpos This terminal has been in use since June 1, 1924. Th authorized capitalization of the Corporation is $1 500,000 of 6% Pfd. stock and $750,000 of Commo stock. All the Common stock of the Corporation owned by the four interurban companies, the Unio Traction Co. of Indiana owning one-third, and $900 000 of the Pfd. stock was sold to meet the cost of th ground and of the improvements now planned, lea ing $600,000 of Pfd. stock unissued but available ur der proper reservations and safeguards for furthe additions and betterments.

INDIANAPOLIS, NEW CASTLE & EASTERN TRACTION COMPANY

(Operated by Union Traction Co. of Indiana)

History—Incorporated June 10, 1912, under laws of Ind., and purchased at foreclosure sale the properties of the Indianapolis, New Castle & Toledo Electric Ry. (see Manual for 1912, page 1821). Leased to Union Traction Co. of Indiana for 999 years from Oct. 25, 1912, lease amended Aug. 21, 1914 and June 30, 1916. The lease, as amended, provides for payment by Union Traction Co. of Indiana of a cumulative dividend of 5% annually on Pfd. stock, also $1,050 per year dividend on Common stock, payable June and Dec., making the total fixed dividend $26,050. Provision is made for the contingent payment of an additional rental every year ending June 30, beginning with the year ending June 30, 1917, in which, the net income of Union Traction Co. of Indiana, after the deduction of taxes, interest and rentals under existing leases, including those payable under this lease shall exceed $180,900, an amount equal to such excess in that year, but not more than $10,420 shall be paid as additional rental for that year. If in any year, however, a dividend of $50,000 or more shall have been paid on the First Preferred stock of the Union Traction Co., then $10,420 shall be paid, even though the excess income be less than $180,900; but the total aggregate rentals paid in or for any year ending June 30, shall not exceed $36,470. This lease has not been adopted or affirmed by the Receiver of the Union Traction Co. of Indiana.

Line of road: Indianapolis to Newcastle, Ind., 44½ miles; Newcastle to Muncie (put in operation Aug. 31, 1913), 18 miles—total, 62½ miles. Gauge, standard. Rails, 70 and 90 lbs. T. Cars, 16. Sub power station at Newcastle, Ind. Company has private right of way, except in municipalities, where shortest franchise expires April 7, 1933. Operates through Indianapolis into Interurban Terminal under contract with Indianapolis Traction & Terminal Co., expiring in 1933.

Receivership Suit—Suit asking that Company be placed under control of a receiver and that Arthur W. Brady, Pres. and Receiver of the Union Traction Co., be made receiver, was filed in the Delaware (Ind.) Circuit Court, Feb. 6, 1926 on petition of the Fidelity Trust Co. (now Fidelity-Philadelphia Trust Co.) trustee for the 6% bonds due June 1, 1932. The suit then was taken to the Madison Circuit Court at Anderson, Ind., on a change of venue, where other receivership suits involving the Union Traction Co. and its subsidiaries are waiting action.

THE MUNCIE & PORTLAND TRACTION COMPANY

(Operated by Union Traction Co. of Indiana)

History—Incorporated in July, 1905, in Indiana; successor to company of same name chartered Aug., 1902. Franchises in cities and towns, 50 years; in counties, perpetual. Owns and operates a line between Muncie and Portland, Ind., 31.7 miles, of which 1.1 miles trackage of Indiana Union Traction Co. Gauge, standard. Rails, 70 lb. T. Cars, 11.

Property is leased to the Indianapolis, New Castle & Eastern Traction Co. for 999 years from June 30, 1916; lease assigned to Union Traction Co. of Indiana. The lease was brought about by the conversion of one-half of the then outstanding $1,000,000 capital stock into Pfd. stock and the amendment of the existing lease between the Union Traction Co. of Indiana and the Indianapolis, New Castle & Eastern Traction Co. The lease provides for the payment of all taxes, a sum equal to 5% on the Pfd. stock, a definite annual payment of $4,530 on Common stock, payable M & S; making the total fixed dividend $29,530; also the payment of a further amount up to $17,370 a year contingent upon certain conditions (see below). The rental also includes the payment of excess profits of the company when they shall exceed the amount of $191,320 a year, but not to exceed $17,370 as additional rentals. Provided, however, that if in any year a dividend of $50,000 or more shall have been paid upon the First Pfd. stock of the Union Traction Co. of Indiana, then for such year an additional rental of $3,475 shall be paid, notwithstanding the fact that the excess earnings for that year may be less than the sum of $191,320; but the total aggregate rentals paid in or for any year ended June 30, shall not exceed $46,900. This lease has not been adopted or affirmed by the Receiver of the Union Traction Co. of Indiana.

CAPITAL STOCK

Authorized and outstanding, $500,000 Common and $500,000 5% Pfd.; par, $100. Annual meeting, in March.

Dividends—Common dividends of 4½% were paid in 1911; 5½% in 1912; 2% in 1913; 1½% in 1914 and 1915. Dividends on Pfd. stock under the lease were formerly paid 2½% each March and Sept. 1.

FUNDED DEBT

THE MUNCIE, HARTFORD AND FORT WAYNE RAILWAY COMPANY

(Operated by Union Traction Co. of Indiana)

History—Incorporated in July, 1901, under laws of Indiana. An electric line connecting Muncie, Eaton, Hartford City, Montpelier and Bluffton, Ind., 42 miles, located on private right of way except in cities where franchises are generally 50 years from 1902. Gauge, standard. Rails, 70 lb. T and 95 and 98 lb. girder. Cars, 20. Formerly leased to the Indiana Union Traction Co. for 999 years from June 26, 1906; lease assumed by Union Traction Co. of Indiana, at rental equal to payment of bond interest, taxes, etc., and 5% cumulative dividend on Pfd. stock. This lease has not been adopted or affirmed by the Receiver of the Union Traction Co. of Indiana.

Foreclosure Suit—On July 30, 1925, the Guardian Trust Co., Cleveland, filed a petition in the Delaware Circuit Court to foreclose the mortgage due Jan. 1, 1935, the interest on which was defaulted. The Trust Co. asked that a receiver be named for the Company and that its property be sold.

CAPITAL STOCK

Authorized and outstanding, $500,000 Common and $500,000 5% cumulative Pfd.; par, $100. Entire Common stock owned by Union Traction Co. of Indiana. Annual meeting, first Tuesday in March.

FUNDED DEBT

$10,000,000 FIRST MORTGAGE 4½% GOLD BONDS, SERIES OF 1928; DUE MARCH 1, 1968

Dated March 1, 1928.

Interest Payable March and September 1 at Halsey, Stuart & Co., Inc., New York and Chicago.

Denominations—Coupon bonds in interchangeable denominations of $100, $500 and $1,000; principal may be registered.

Provisions of Issue—Authorized amount, unlimited; issued and outstanding, $10,000,000 Series of 1928 4½s.

Additional bonds of this Series (or of other series bearing such rates of interest, maturing as such times and having such other provisions as directors at time of issuance may determine) may be issued against deposit, par for par, of cash or obligations of U. S. Government or to refund bonds of another series theretofore issued under Mortgage, and to extent of 75% of expenditures made for additions, improvements, betterments or extensions and 75% of cost or value (whichever is less) of purchased property acquired by Co., provided that all such extensions and purchased property shall be subject to Mortgage as a first mortgage thereon; provided, however, that net earnings, as defined in Mortgage, during any 12 consecutive calendar months ending within 60 days next preceding the date of issuance shall have been at least twice the annual interest charges on all bonds outstanding and those then proposed to be issued.

Purpose of Issue—Proceeds from sale of the $10,000,000 First Mortgage 4½% Gold bonds, Series of 1928, were used in part payment of cost of the generating station, substations and transmission lines.

Callability—Series of 1928 4½s are subject to call as a whole or in part, on 30 days' notice, to and including March 1, 1933 at 105 and interest; premium thereafter decreasing 1% for each five-year period to and including March 1, 1963; thereafter prior to March 1, 1967 at 100½ and interest and thereafter to maturity at par and interest.

Improvement and Sinking Fund—Mortgage provides that beginning with the calendar year 1931, and continuing thereafter so long as any Series of 1928 bonds are outstanding, Company will expend for each calendar year an amount not less than 2% of the principal amount of Series of 1928 bonds authenticated prior to the beginning of such year (except bonds authenticated for exchange for other bonds of the Series of 1928 or to replace lost, destroyed or mutilated bonds and except bonds against the issuance of which cash is on deposit with the Trustee under the mortgage at the beginning of such year) which expenditures shall be for (a) the making of extensions and/or the acquisition of purchased property on account of which the Company would be entitled to have additional bonds authenticated but on account of which no bonds had been or will be authenticated, and/or (b) the redemption and/or the payment or the purchase (at not exceeding the then current optional price) and the cancellation of any Series of 1928 bonds issued under the mortgage, and the mortgage will provide that no additional bonds may be authenticated under the mortgage on account of bonds so cancelled. The mortgage will also require that subsequent series of bonds issued under the mortgage must contain an Improvement and Sinking Fund requirement at least equal to that provided for Series of 1928 bonds.

Security—Secured by a first mortgage on all fixed properties, rights and franchises of Company, now owned, and on all such properties hereafter acquired against which any bonds may be issued under mortgage. Cost of completed initial installation consisting of a 110,000 k.w. plant, 3 high voltage electric substations and approximately 60 miles of 132,000-volt steel tower transmission line is estimated at $14,400,000.

Tax Provisions—Company pays Normal Federal Income tax up to 2% and agrees to reimburse the holders if requested within 60 days after payment, for Pennsylvania and Connecticut 4 mills and Maryland 4½ mills taxes and for the District of Columbia personal property taxes not exceeding 5 mills per annum for each $1 of the principal, and for the Massachusetts Income tax on the interest not exceeding 6% of such interest per annum.

Original Offering—First publicly offered ($10,000,000 Series of 1928 4½s) in April, 1928, at 98½ and interest, by Halsey, Stuart & Co., Inc., New York, etc.

Officers: Samuel Insull, Chairman; Marshall E. Sampsell, Pres., Chicago.

Office, 201 South La Salle St., Chicago.

STAMFORD AND WESTERN GAS COMPANY

History—Incorporated Nov. 12, 1927, in Delaware for the purpose of owning and operating natural gas transmission and distributing lines in Texas. Company was expected to commence the distribution of natural gas for industrial and domestic uses about April 1, 1928, to the first of twenty cities and towns and contiguous territories in Texas under favorable franchises extending beyond 1956. The complete system will embrace about 235 miles of pipe lines to be finished by Sept. 15, 1928. The lines will extend from a point about 70 miles west of Wichita Falls, Texas, to Stamford and Rotan, Texas, serving cities and towns in the counties of Hardeman, Foard, Knox, Baylor, Haskell, Jones and Fisher, without competition. Company will purchase its natural gas supply from Northern Texas Utilities Co.

CAPITAL STOCK

Authorized 100,000 shares Common of no par value; outstanding 84,600 shares Common. The remaining 15,400 shares are reserved for issuance upon the exercise of the below mentioned Stock Purchase Warrants.

FUNDED DEBT

$1,100,000 FIRST (CLOSED) MORTGAGE 7% SINKING FUND GOLD BONDS; DUE APRIL 1, 1936

Dated April 1, 1928.

Interest Payable April and October 1, at Guaranty Trust Co. of New York, N. Y., and Guardian Trust Co. of New Jersey, Newark, N. J.

Denominations—Coupon $500 and $1,000; principal may be registered.

Stock Purchase Warrants—Each $500 and $1,000 bonds has annexed a non-detachable warrant exercisable on or before the maturity or prior redemption of the bond, entitling the holder to purchase from the Company 7 shares and 14 shares respectively, of its no par value Common stock at $10 per share, if ex-

ercised on or before April 1, 1932, and thereafter at $15 per share. Indenture contains provisions for the protection of warrant holders in case of stock dividends, recapitalization or the issuance of additional shares.

Trustee—Guardian Trust Co. of New Jersey, Newark, N. J.

Provisions of Issue—Authorized and outstanding, $1,100,000.

Purpose of Issue—Proceeds from sale of these bonds together with notes, and proceeds from Common stock subscriptions, were used to reimburse Company for expenditures made for construction to date, for completion of system, and other corporate purposes.

Callability—Subject to call as a whole or in part by lot on any interest date, on 30 days' notice, at 104 and interest to and including April 1, 1929; premium decreasing ½ of 1% during each year thereafter.

Sinking Fund—Indenture provides for a sinking fund payable monthly to Trustee, beginning Jan. 1, 1929, calculated to retire over 80% of this issue by maturity. Company further covenants to add to sinking fund 50% of proceeds received upon exercise of stock purchase warrants. Sinking fund moneys are to be used quarterly by Trustee to purchase bonds up to current redemption price, and to extent that bonds are not so obtainable, then to redemption of bonds by lot at current redemption price upon next interest date.

Security—Secured by a direct first mortgage on entire fixed assets of Company, now owned or hereafter acquired, subject only to purchase money or existing liens upon hereafter acquired property. Gas purchase contract and all franchises will be deposited with Trustee as further security. Pipe line rights of way to be mortgaged may be subject to any existing farm mortgages or other liens. Cost of physical properties upon which these bonds will become a first lien has been estimated to be $1,700,000.

Tax Provisions—Company pays Normal Federal Income tax up to 2% and agrees to refund, upon timely and appropriate application, Pennsylvania and Connecticut personal property taxes not exceeding 4 mills per annum, Kentucky and District of Columbia personal property taxes not exceeding 5 mills per annum and Maryland securities tax not exceeding 4½ mills per annum on the bonds, and Massachusetts Income Tax not exceeding 6% per annum on interest received.

Dated, Series "A," January 1, 1923; Series "B," September 1, 1925.

Interest Payable January and July 1 on Series "A" and March and September 1 on Series "B" at The American Exchange Irving Trust Co., New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Registered bonds without coupons in interchangeable denominations of $1,000, $5,000, $10,000 and multiples of $10,000. Registered bonds without coupons, of the denomination of $1,000 exchangeable for coupon bonds of the same denomination.

Trustee—The American Exchange Irving Trust Co., New York.

Provisions of Issue—Authorized amount, unlimited. Issued and outstanding, $8,256,000 ($3,000,000 Series "A" 6s and $5,256,000 Series "B" 5s). Additional bonds of Series "A" or Series "B" or of other series having such rates of interest, maturity dates and other provisions, as the Board of Directors may determine in accordance with the terms of the Indenture, may be issued (a) up to 80% of the cost or fair value, whichever is less, of additions, improvements and betterments made subsequent to June 30, 1922, to the property, and (b) up to 80% of the cost or fair value, whichever is less, of hereafter acquired property, less the total principal amount of any liens outstanding thereon, provided in either case that the net earnings of the Company are at least twice the annual interest charges on all bonds outstanding under the Indenture, including bonds proposed to be issued, and on all underlying bonds as defined in the Indenture. Additional bonds also may be issued, par for par, to refund bonds of any other series or to refund underlying bonds. Subject to the above earnings restrictions the Company may issue bonds against deposit with the Trustee of an amount of cash equal to par value thereof.

Callability—Series "A" are subject to call in whole or in part on any interest date, on at least thirty days' published notice at 110 during the first fifteen years, and at 1% less during each year of the following ten years; plus accrued interest in each case.

Series "B" are subject to call in whole or in part on any interest date on at least thirty days' published notice at 107% on or prior to Sept. 1, 1929 and at 1% less during each period of four consecutive years thereafter up to and including Sept. 1, 1953 and at par thereafter to maturity, plus accrued interest in each case.

Improvement Fund—The Company covenants that it will deposit cash in a special trust fund with the Trustee annually on Jan. 15 of each year, beginning Jan. 15, 1926, and continuing thereafter during the life of the Indenture, in an amount equal to 1% of the aggregate par value of all bonds of the Company issued under the Indenture prior to the third calendar year next preceding the date of such payment and then outstanding. Cash in this fund may be used only for the purpose of paying for permanent betterments, improvements, extensions or additions to the plants, properties and equipment of the Company. These expenditures shall not be used to form a basis for the

issuance of First Refunding Mortgage bonds, or underlying bonds.

Security—Secured by direct mortgage on the entire property of the Company. The Indenture provides that the First Mortgage shall be satisfied on or before its due date and that no new mortgage prior in lien to that of the Indenture securing the First Refunding Mortgage bonds may be executed for extension thereof or for the refunding thereof. Upon the satisfaction of the first mortgage, the First Refunding Mortgage will become a first mortgage on all of the properties owned by the Company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. The Company also agrees to refund the Pennsylvania and Connecticut Personal Property taxes legally assessed against and paid by the holder, not exceeding 4 mills per annum in either State upon application within thirty days after such payment by the holder thereof. The Company also agrees to refund, upon application within 30 days after payment, to holders of Series "B" bonds the Massachusetts Income Tax not exceeding 6% per annum on income derived from the bonds.

Legal Opinion—Seibert & Riggs, New York (for the Bankers); Henry R. Frost and Elmer B. Sanford, New York (for the Company).

Provisions of Issue—Additional bonds of 4½% Series of 1958, or of 5% Series of 1955 or of other series having such rates of interest, maturity dates and other provisions as the Board of Directors may determine may be issued (a) up to 80% of the cost or fair value, whichever is less, of further additions, improvements and betterments to the properties, and (b) up to 80% of the cost or fair value, whichever is less, of hereafter acquired properties except securities, less the total principal amount of any liens outstanding thereon, (c) to the extent of $1,600,000 principal amount against properties as of Sept. 1, 1923, provided in any case that the net earnings of the company as defined in the Indenture are at least twice the annual interest charges on all bonds outstanding under the Indenture, including bonds proposed to be issued

and on all underlying bonds as defined in the Indenture. Subject to the above earnings restriction, additional bonds may also be issued par for par to refund bonds of any other series, or to refund underlying bonds as defined in the Indenture, or against the deposit with the Trustee of an equal face amount of cash or obligations of the United States Government.

Callability—The Series of 1955 bonds are subject to call in whole or in part on any interest date on 30 days' notice at 107 on or before Sept. 1, 1929, and at 1% less during each period of four consecutive years thereafter up to and including Sept. 1, 1953, and thereafter to maturity at par, plus accrued interest in each case. The Series of 1958 bonds are subject to call on any interest date, on at least 30 days' published notice, at 105 on or prior to March 1, 1933, and at 1% less for and during each period of five consecutive years thereafter up to and including March 1, 1953, and at par thereafter to maturity, plus accrued interest in each case.

Improvement Fund—As an Improvement Fund company covenants to deposit with Trustee annually, beginning Jan. 15, 1927, an amount equal to 1% of the aggregate par value of all bonds issued prior to the third calendar year next preceding the date of such payment and then outstanding, to be used only for the purpose of paying for permanent betterments, extensions and additions to the plants, properties and equipment of company, and such expenditures are not to be made the basis for the issuance of additional bonds. The Indenture provides that the underlying mortgages (closed except for refunding purposes) shall be satisfied on or before maturity, and that no new mortgage, prior in lien to the refunding mortgage may be executed in renewal or extension thereof.

Security—Secured by direct lien on entire property of company, now owned or hereafter acquired excepting only securities, subject to the above described prior liens. The indenture provides that the underlying mortgages (closed except for refunding purposes) shall be satisfied on or before their respective due dates, and that no new mortgage prior to the lien of the Indenture may be executed in renewal or extension thereof.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Connecticut and Pennsylvania personal property taxes, not exceeding four mills per annum in either state, and Massachusetts income tax not exceeding 6%, refunded upon application made within 30 days after such payment.

EARNINGS

The stock of the Corporation is owned exclusively by the principal municipalities which it serves. These municipalities are divided into groups, which groups, respectively, beginning in 1915, have given to the Corporation guarantees of a return (after payment of operating expenses, apportioned to each group as provided in the by-laws and any fixed charges pertaining to the particular group) of 6½% on the capital invested in the lines specially serving each group respectively; among these the City of Buer has given a similar guarantee of 9½% per annum. The guarantees are valid during the life of the above issue of bonds. The Corporation's gross earnings for the year 1927 were approximately $1,160,000 and the net earnings $280,000, after operating expenses, maintenance and taxes. Payments by the Corporation's properties under the Dawes Plan amount to about $3,000 per annum.

Officer, Mr. Arnold, Managing Director.

PUBLIC UTILITIES CORPORATION

History—Incorporated Jan. 12, 1910, in Me., to carry on the business of general brokers and dealers in stocks, bonds, mortgages and securities, including the acquisition thereof by original subscription; and to make investments in such properties. The company is confining itself to enterprises based wholly or in part upon the use of electricity or electricity combined with generation and distribution of gas, whose securities are offered for investment. At present the Corporation owns securities in more than 30 companies.

CAPITAL STOCK

Authorized $2,000,000 (increased from $1,500,000 in 1925) Common; outstanding, $1,500,000 Common; par, $50. An issue of $500,000 7% Pfd. stock formerly outstanding was called for payment at $55 a share on April 1, 1927. Stock transferred at Company's office. Annual meeting, second Wednesday in May.

Dividends—Dividends on Pfd. were regularly paid up to time of redemption on April 1, 1927. Common dividends have been paid as follows: 1911, 2%; 1912, 5%; Jan., April and July, 1913, 1¼% each; none since; A stock dividend of 50% was paid on Common Dec. 30, 1924.

FUNDED DEBT

$600,000 5½% COLLATERAL TRUST GOLD BONDS; DUE MARCH 1, 1947

Dated March 1, 1927.

Interest Payable March and September 1, at Guaranty Trust Co. of New York.

Denomination—Coupon, $1,000 (non registerable).

Trustee—Guaranty Trust Company of New York.

Provisions of Issue—Authorized and issued, $600,000.

Purpose of Issue—Proceeds from the sale of these bonds were applied to the retirement of the 7% Pfd. stock of Corporation, and other corporate purposes.

Callability—Subject to call as a whole or in part on four weeks' notice at 102 up to and including March 1, 1932; thereafter at 101½ up to and including March 1, 1937; thereafter at 101 up to and including March 1, 1942, and thereafter at 100 with accrued interest in each instance.

Security—As security for these bonds there are pledged with the Trustee, securities having a market value as of the date of these bonds of approximately $780,000, or 130% of the principal amount of these bonds. Corporation covenants in the indenture to maintain at all times with the Trustee collateral having a market value at least 25% in excess of the principal amount of bonds outstanding. The securities pledged in the first instance are as follows: 1,000 shares Ameri-

can & Foreign Power Co., Inc. Pfd. stock of no par value; 2,000 shares American Gas & Electric Co. Pfd. stock of no par value; 1,000 shares Commonwealth Power Corp. Pfd. stock of $100 par value; 1,000 shares Electric Power & Light Corp. Pfd. of no par value; 1,000 shares General Electric Co. Common of no par value; 1,000 shares General Gas & Electric Corp. Pfd. "A" of no par value; 2,000 shares Pacific Gas & Electric Co. Common of $25 par value and 1,000 shares Radio Corp. of America Pfd. "A" of $50 par value.

The Corporation reserves the right to make withdrawals, exchanges and substitutions of collateral, with the proviso that at all times the market value of the collateral will be at least 25% in excess of the principal of the outstanding bonds. Indenture also permits the Corporation to transfer all the pledged securities as an entirety to any corporation lawfully entitled to acquire them, or to consolidate with any such corporation, provided that the transfer or consolidation shall be upon such terms as will not impair the lien of the Trustee or bondholders, and that payment of the principal and interest of the bonds as also the due performance of all the covenants of the Indenture, shall be assumed by the successor corporation.

Legal Opinion—Johnson, Clapp, Ives & Knight.

Original Offering—First publicly offered ($600,000) in March, 1927, by Jackson & Curtis, Boston.

HAVANA ELECTRIC RAILWAY COMPANY

History and Property—Organized under the laws of the State of Maine, Aug. 11, 1926, and the duration of its charter is perpetual. The Company was formed to acquire and operate the street railway properties in Havana, Camaguey and Santiago, Cuba, with an aggregate of about 600,000 inhabitants.

The properties now operated by the Company have heretofore been owned and operated by Havana Electric Railway Light and Power Company, Camaguey Electric Company, S. A., and by Santiago Electric Light and Traction Company (Compania Electrica de Alumbrado y Traccion de Santiago) but not as a business apart from the light, power and gas business carried on by those concerns. The Company also owns all of the $100,000 stock of **Insular Railway Company** (a New Jersey corporation), which owns and operates a line from Havana to and within the town of Marianao.

Under the terms of its certificate of organization the Company may acquire, sell, lease, operate, etc., and all kinds of interurban, city and street railways and bus lines, for the transportation of passengers and/or freight; deal in stocks, bonds, securities, mortgages; guarantee dividends on stocks and principal and interest on bonds of any company in which it may have an interest; purchase or otherwise acquire real and personal property of every sort and description and wheresoever situated, including stocks, bonds, or other securities or other evidences of indebtedness of any corporation, and may issue in exchange therefor stock, bonds, or other securities or evidences of indebtedness of the Company.

The system includes a total of about 128 miles of railway (single track measurement), viz., 107.6 miles in Havana and Marianao, 8.6 miles in Camaguey, 11 miles in Santiago. The Company owns over 640 passenger cars, together with other equipment, car barns, car construction and repair shops, etc.

Franchises—The Company operates under various franchises, none of which, except that covering the short Principe Line, expires before 1958.

CAPITAL STOCK

Authorized, 326,500 shares Common stock of no par value, and $5,000,000 6% cumulative Pfd., par, $10. Outstanding, 200,000 shares Common and $5,000,000 Pfd. Of the authorized Common stock 126,500 shares are reserved for subscription by holders of Common Stock Subscription Warrants delivered in conjunction with the 25-year 5½% Gold Debentures described below.

Preferred Stock Provisions—Pfd. stock is entitled in preference to the Common stock to dividends of 6% per annum, and in any distribution of assets, other than by dividends from surplus or net profits, the Pfd. stock is entitled to receive $100 per share and accrued dividend before any distribution is made to the Common stock.

The Pfd. stock is redeemable as a whole or in part at any time at $110 per share and accrued dividend upon 30 days' notice, upon the vote of the holders of a majority of outstanding Common stock. Each share of stock, both Pfd. and Common, carries one vote.

The Board of Directors may authorize the conversion of the whole of the Pfd. stock with consent of holders thereof into stock of any othter class except that, without the consent of the holders of two-thirds of the outstanding Common stock the amount which the holders of converted shares would receive of dividends or distribution of assets, may not be increased. No stockholder of the Company has a preemptive right to any additional shares.

By a majority vote of the directors and vote of the holders of the majority of the outstanding shares, additional stock of any class may be authorized except that, without the consent of the holders of two-thirds in amount of the shares of Pfd. stock present and voting at the meeting, no class of stock shall be authorized entitled to dividends or assets in distribution in priority to the Pfd. stock.

The Corporation shall not create or mortgage or create or issue funded debt unless authorized by the written consent or vote of the holders of a majority of shares of outstanding stock, including either written consent of two-thirds of Pfd. stock or the vote of the holders of two-thirds of shares of Pfd. stock present and voting at the meeting.

This limitation does not apply to the creation of purchase money mortgages or acquisition of property subject to mortgage or to the issue of funded debt under the indenture dated Sept. 1, 1926, between the Co-

oration and the Central Union Trust Company of lew York, or to the issue of bonds under the Consolidated Mortgage, dated May 10, 1902 (closed issue), ıade by Havana Electric Railway Company (New ersey Corporation).

The Pfd. stock is entitled to the benefit of a sinking ınd beginning in 1932, consisting of the payments of 100,000 per annum out of surplus or net profits, to be pplied to the purchase of shares of Pfd. stock if btainable at not exceeding $100 per share and accrued ıterest, any sum which cannot be so used to revert to ıe Company.

TAMPA AND ST. PETERSBURG RAILWAY COMPANY

(Controlled by Gandy Bridge Company)

History and Properties—Incorporated in 1919 in Florida under the railroad law, but does not engage in the railway business. It owns right of way 400 ft. wide across Old Tampa Bay upon which Gandy Bridge is constructed, and approaches to the bridge. The toll bridge is about 5¼ miles long and has been in operation since its completion on November 19, 1924. It is the shortest motor route between Tampa and St. Petersburg.

CAPITAL STOCK

Authorized, $6,000,000; outstanding, $2,000,000. All except directors' qualifying shares owned by Gandy Bridge Company.

FUNDED DEBT

$2,400,000 GANDY BRIDGE FIRST MORTGAGE SINKING FUND GOLD 6s, SERIES "A"; DUE DECEMBER 1, 1945

Dated December 1, 1925.

Interest Payable June and December 1, at New York Trust Co., New York, or at Citizen's Bank & Trust Co., Tampa, Fla.

Denominations—Coupon, $500 and $1,000; principal may be registered; denominations interchangeable.

Trustees—The New York Trust Co., New York and Sidney W. Noyes.

Provisions of Issue—Authorized, $4,500,000; issued, $3,000,000 of which $600,000 will be held in treasury of the Gandy Bridge Co. The mortgage provides that the remaining $1,500,000 authorized bonds may be issued in one or more series, having such interest rates, etc., as the directors of Company may from time to time determine as provided in the Trust Deed, but all series must mature on November 1, 1945. The principal amount of such additional bonds shall not, however, exceed the cost or fair value, whichever is less, of additions and betterments to the bridge of a character to increase its present carrying capacity. No additional bonds shall be issuable unless net operating earnings of the mortgaged property for 12 consecutive months within the 14 months next preceding such proposed issuance, after all expenses, taxes, insurance and depreciation as provided in the mortgage, shall have been at least twice the annual requirements for interest and sinking fund on all first mortgage bonds outstanding and those proposed to be issued. The indenture also includes covenants for the adequate maintenance of the property.

Callability—Subject to call as a whole or in part on any interest date at 105 on or before December 1, 1930; thereafter through December 1, 1933, at 104; thereafter through December 1, 1936, at 103; thereafter through December 1, 1939, at 102; thereafter to maturity at 101.

Sinking Fund—Beginning June 1, 1926, a cash fund amounting to $250,000 each year will be paid in equal semi-annual installments to the Trustee, who, after using it for the payment of interest on the present issue of $3,000,000 bonds, shall apply the remainder as a sinking fund to the retirement of these bonds by purchase or call. It is estimated that about 80% of these bonds will be thus retired by maturity. Whenever additional bonds are issued this fund will be increased by an amount sufficient to provide for their interest and the ultimate retirement of the same percentage of such additional bonds.

Security—These bonds are the direct and general obligation of Tampa & St. Petersburg Ry. Co., and are secured by a direct first mortgage on the Gandy Bridge, including a strip of land 100 feet wide across the fill and the right-of-way 400 feet wide crossing the water, including the roadway, bridge structure, toll houses and equipment, together with the easements and rights-of-way constituting its approaches.

Tax Provision—Company pays Normal Federal Income Tax up to 2%, and agrees to refund when paid and claimed by holders the Connecticut and Pennsylvania 4 mill taxes and the Massachusetts Income Tax not exceeding 6%, all as more fully provided in the mortgage.

Legal Opinion—Cook & Harris, St. Petersburg, Fla., and Sullivan & Cromwell, New York (for the Bankers) and J. U. Bethell, St. Petersburg, Fla. (for the Company).

Original Offering—First publicly offered ($2,400,000) in November, 1925, at par and interest, by Coffin & Burr, Boston, New York, etc.

EARNINGS, PERIOD FROM NOV. 19, 1924, TO OCT. 31, 1925

Committee for Receiver's Certificates—Anticipating the default in the payment of the Oct. 1, 1919 interest on the $3,140,000 6% Receiver's Certificates, the following committee was formed in July, 1919, to protect the interests of the holders: George E. Warren, Chairman; A. A. Jackson, Geo. E. Barstow, Jr., Herman D. Kountze, J. F. B. Mitchell, with Arthur W. Hutchins, 60 Broadway, New York, Secretary. Depositaries: American Exchange Irving Trust Co., New York and Girard Trust Co., Philadelphia, Pa. In December, 1919, $3,030,000 of these certificates had been deposited with the committee.

Foreclosure Suit—Sale Rescinded—On Dec. 16, 1919, a summons and complaint in a suit for the foreclosure of Receiver's Certificates were filed on behalf of the protective committee. Final judgment was procured June 29, 1921 and the New York Supreme Court ordered the sale of the property under this suit on Sept. 1, 1921, but sale was postponed from time to time until on Sept. 22, 1927, when, pursuant to the Plan of Reorganization (see below), all the tangible assets of Company were sold at public auction to Arthur W. Hutchins for $500,000, acting on behalf of the Pfd. Certificate Holders' Committee. However, the sale was rescinded under an agreement that the bid could be withdrawn if the New York Transit Commission refused to approve the plan. This information was disclosed May 2, 1928, in report filed in the Supreme Court by John C. Clark, referee, who stated that the approval of the Commission was denied in February, 1928.

PROPOSED PLAN OF REORGANIZATION

The plan, which was prepared and adopted by the above-mentioned committee, provided that said committee through its nominee, unless overbid, would endeavor to purchase at sale, entire property, premises, rights, interest and franchises of defendant Company. If properties were so purchased, it was proposed to form two corporations: a Real Estate corporation and a Street Railway corporation.

The Real Estate corporation was to acquire from the purchaser, the land and improvements, being the present car barn property at 96th and 97th Sts., First and Second Aves., New York. The capitalization and bonded indebtedness of the Real Estate corporation was to be as follows: First Lien bond (or bonds) not to exceed $750,000 secured by a first mortgage on the car barn property. No par stock, 34,000 shares. The above lien was to be placed on the property to the extent necessary to provide the "Cash Requirements" (estimated at $315,000) and funds necessary for working capital for the Railway Company, for distribution to non-assenting certificate holders, and for such other purposes as may have been necessary or desirable in the discretion of the Committee. The Committee was not obligated to make any bid whatever, at the sale, and felt that a bid equaling the amount of the Pfd. Ctfs. would not be justified. For each $1,000 of Receiver's Certificates the holders were to receive Voting Trust Certificates for 10 shares of the no par Common stock. This allotment would have required 31,400 Voting Trust shares and the remaining 2,600 Voting Trust shares or so much thereof as would be necessary, may have been used on the same basis, to satisfy the contract creditors whose claims were on a parity with the Pfd. certificates.

The Railway Corporation was to acquire from the purchaser, the property, rights, interests and franchises of Company exclusive of the real estate mentioned above, subject to the Special Franchise taxes. The capitalization and bonded indebtedness of the Railway Corp. was contemplated as follows: First Lien 6% 10-Year bonds, callable at 102½ not to exceed $750,000; no par stock, 34,000 shares. The bonds, in the amount necessary to be issued were to be sold to the Real Estate corporation to provide the funds required as stated. For each $1,000 of Receiver's Certificates, the holders thereof were to receive Voting Trust Certificates for 10 shares of the no par stock. This allotment would have required 31,400 Voting Trust shares and the remaining 2,600 Voting Trust shares may have been used for the same purpose and in the same way, as the 2,600 shares of the Real Estate Corporation.

Voting Trusts for Stocks—The stocks of both corporations were to be placed in Voting Trusts, with trustees named by the Committee, with broad and ample powers, amongst others, to authorize the sale of the stock as an entirety or in part, at such prices as may be approved by a majority of the holders in interest of the Voting Trust Certificates, and the sale or lease of the properties or any part thereof, as may be deemed advisable. Number of voting trustees were to be fixed by the Committee and the Voting Trust may have run for 10 years or such less time as the Committee may have determined.

As of December 31, 1927, the Trust also owned 16,000 shares of Edison Electric Illuminating Company of Boston and 1,000 6% Preferred shares of the New England Power Association. Massachusetts Lighting Companies and The Light, Heat & Power Corporation each owned 2,000 additional shares of Edison Electric Illuminating Company of Boston.

BUSINESS

Twenty-seven of the constituent companies wholesale and retail electricity. During 1927 these companies sold 147,192,570 k.w.h. of electricity, which provided 73.3% of their gross operating revenue. About 9.6% of the electricity sold was produced by the companies' hydro-electric plants. The balance was purchased under contracts, substantial amounts being obtained from twelve different companies unaffiliated with the Trust. Territories served are so situated that in each case power can be obtained from at least two different sources. During the year constituent companies added 1,065 street lights.

Nineteen of the constituent companies sell gas at wholesale and retail for industrial, commercial and domestic purposes. Gas sales in 1927 were 1,488,481,200 cu. ft., which provided 26.7% of the gross operating revenue of the controlled companies. Of the gas required 87.8% was produced by the companies themselves.

CAPITAL STOCK

Authorized, 2,500,000 shares Common of no par value and $3,500,000 Convertible Participating 5% cumulative Pfd. of $50 par value; outstanding Dec. 31, 1927, 1,754,932 13/20 shares Common and $26,211,620 Pfd. In addition, 120,067 7/20 Common shares were held in treasury. All Common shares are represented by Voting Trust Certificates.

Preferred Stock Provisions—The Participating Pfd. shares are of $50 par value, are non-callable and non-assessable and in liquidation are entitled to $60 and accrued dividends per share before Common shares shall receive any distribution. They are entitled to cumulative dividends at rate of 5% per annum in preference to Common shares and whenever Common shares shall receive any dividend payment, each Pfd. share shall be entitled to receive an additional payment equal to ½ the amount declared and paid on each Common share until a total amount equal to 7% of their par value, including the regular 5% cumulative dividend, shall have been received in any one year. Thereafter, in that year, Common shares are entitled to receive all further distributions of dividends. Pfd. shares may at any time be converted into Common share Voting Trust Certificates on the basis of one share of Pfd. for one Voting Trust Common share. Dividends on Pfd. and Voting Trust Common shares will be adjusted.

Voting Trust—Common shares are deposited under a Voting Trust Agreement whereby they may not be sold except as a whole and for not less than $50 per share during the five years ending April 1, 1932; for not less than $75 per share during the five years beginning April 1, 1932 and ending April 1, 1937; and for not less than $100 per share during the ten years beginning April 1, 1937 and ending April 1, 1947.

Transfer Agent—Old Colony Trust Co., Boston, Mass.

Original Offerings—A block of 5% Convertible Participating Pfd. shares, par $50, and a block of Common Voting Trust shares, no par value, were privately offered in August, 1927, by C. D. Parker & Co., Inc., Boston, at $45 and dividend for the Pfd. and $10 for the Common. A block of Common Voting Trust shares was publicly offered in October, 1927, at market, by C. B. Parker & Co., Inc., Boston, Clark Williams & Co., Hornblower & Weeks, New York, etc. and Tripp & Andrews, Hartford, Conn. A block of 5% Convertible Participating Pfd. shares was publicly offered in November, 1927, at $46 per share and dividend, to yield 5.43% by C. D. Parker Co., Inc., Boston, and Clark Williams & Co., Hornblower & Weeks, Tripp & Andrews, New York.

Subscription Privilege—Executive Committee of Trustees, Jan. 26, 1928, voted to give shareholders of record March 27, 1928, the right to subscribe to Pfd. shares at $40 per share in the ratio of one Pfd. share for each 20 shares of Common Voting Trust and one new share to the holder of 40 Pfd. shares. Subscriptions were payable in full on or before May 1, 1928 or one quarter at the time of subscription, one-half on July 16, 1928, and the remaining one-quarter on Oct. 15, 1928.

Dividends—Initial quarterly dividend of 62½ cents on Participating Pfd. stock was paid July 15, 1927, which rate has been regularly paid quarterly to date; payments J, A, J & O 15. None on Common to date.

INLAND POWER & LIGHT CORPORATION

(Controlled by The Commonwealth Light and Power Co.)

History—Organized Jan. 20, 1926, in Virginia, and has acquired all interests in the former subsidiaries of Commonwealth Light & Power Co. and Interstate Electric Corp.

On May 27, 1927, the physical properties of the Kansas subsidiaries of The Commonwealth Light and Power Company and Interstate Electric Corporation were transferred by consolidation or otherwise to the Kansas Power Company and similar action was taken in respect to the properties of subsidiaries operating in Michigan, Arkansas, Missouri and Texas, whereby such properties were acquired by the operating companies: Michigan Public Service Company, Arkansas-Missouri Power Company, Missouri Public Service Company and Dalhart Public Service Company (see appended statements). All Common stocks of the above noted operating companies (except directors' qualifying shares) were acquired by the Inland Power and Light Corporation.

The operating companies furnish electric light and power, gas, water and/or ice in over 340 communities with a population estimated at over 327,600 serving 60,921 electric, 3.507 gas, and 4,486 water customers.

The electric systems have an installed generating capacity of 31,318 k.w. and 2,473 miles of high tension transmission lines. The gas systems include generating plants of a daily capacity of 269,000 cu. ft. with 124 miles of gas mains. The water systems have a daily capacity of 12,009,600 gallons and 82 miles of water mains. The daily ice making capacity is 486 tons. During the year ended Dec. 31, 1927, the total electric energy generated was 77,961,435 k.w. and there were 147,948,000 cu. ft. of gas made; ice produced was 63,791 tons and water pumped, 510,513,000 gallons.

CAPITAL STOCK

Authorized 300,000 shares Class "A" Common of no par value, 100,000 shares Class "B" of no par value and $10,000,000 7% cumulative Pfd., par $100; outstanding, 100,000 shares Class "A" Common, 100,000 shares Class "B" and $1,629,500 Pfd. The entire outstanding Class "A" and Class "B" Common stock is owned by Commonwealth Light & Power Co. and pledged by it as part security for its Refunding and Unifying bonds. Class "B" Common stock has full voting power.

Preferred Stock Provisions—Has preference for assets over both classes of Common stock and for dividends at the rate of 7% per annum. It is subject to call in whole or in part on any dividend payment date at 107, plus accrued and unpaid dividends. Upon voluntary liquidation, dissolution or winding up of Company, Pfd. stock will receive $107 per share, and upon involuntary liquidation or dissolution, $100 per share, plus an amount equal to the dividends unpaid and accumulated thereon, whether earned or not, before any payment may be made or any assets distributed to the holders of Common stock.

Company shall not, if holders of one-third or more of the outstanding Pfd. stock object thereto, (1) increase the authorized amount of Pfd. so that it will exceed $10,000,000, or (2) create any other stock or class of stock having priority over, or on a parity with, the Pfd. stock, either as to earnings or assets. Pfd. stock shall have no voting power unless dividends amounting to 7% thereon shall have accrued and be unpaid, or unless there shall have occurred some default in the observation of any of the above provisions. In either of these events, so long as any dividends on Pfd. stock are in arrears or any such other default continues, and no longer, the Pfd. stock shall have full voting rights equally share for share with Class B" Common stock.

Class "A" Common Stock Provisions—Subject to the rights of the Pfd. stock, Class "A" Common will have priority as to cumulative dividends to the extent of $1.20 per share per annum over Class "B" Common. It will be subject to call at any time at option of Company, in whole or in part, at $20 per share and accrued dividends. Upon liquidation or dissolution, it will have priority over Class "B" Common up to $20 per share and accrued dividends. Class "A" Common shall not be entitled to vote.

Transfer Agent (Preferred Stock)—The Empire Company, New York, N. Y.

Registrar (Preferred Stock)—Central Union Trust Co. of New York.

Dividends—Initial quarterly dividend of 1¾% on Preferred stock was paid July 1, 1927; regular quarterly payments since, J, A, J & O 1.

$3,000,000 THIRTY-YEAR FIRST COLLATERAL TRUST SINKING FUND GOLD 6s, SERIES "C"; DUE APRIL 1, 1957

Dated—Series "A" March 1, 1926; Series "B" May 1, 1926; Series "C" April 1, 1927.

Interest Payable—Series "A" March and September 1; Series "B" May and November 1; Series "C" April and October 1.

Trustee—Central Union Trust Co. of New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Provisions of Issue—Authorized and issued: Series "A", $709,200; Series "B", $1,452,900. Authorized amount of Series "C" is limited by restrictive conditions of the Trust Indenture, but not to any specific principal amount; issued; $3,000,000. Additional bonds of Series "C" or any subsequent series, bearing such rate or rates of interest and otherwise of such tenor as the Board of Directors may from time to time determine, may be issued against the acquisition of additional securities and for cash when consolidated net earnings as defined in the Trust Indenture for a period of twelve consecutive calendar months within the fifteen calendar months immediately preceding shall have been equal to not less than three times the amount of the annual interest charges on all the Collateral Trust Bonds outstanding and those proposed to be issued. Bonds may also be issued, without earnings restrictions, against the retirement of previously issued bonds, unless retired through the sinking fund hereafter mentioned.

Purpose of Issue—Series "A" bonds were issued on a par for par basis in exchange for Interstate Electric Corp. First Lien Collateral 6s of 1933; Series "B" bonds were issued on a par for par basis in exchange for The Commonwealth Light & Power Co. First 6s of 1947.

Proceeds from the sale or Series "C" bonds, together with the proceeds of other financing, were used in part for the acquisition of the Common stocks of the local operating companies, for the retirement of outstanding securities of predecessor companies and for other corporate purposes.

Callability—Series "A" and Series "B" are subject to call on the first day of any month on 30 days' notice; Series "A" bonds at 102¼ and accrued interest, reducing one-quarter of 1% on April 1, 1928 and on each April 1, thereafter; Series "B" bonds at 105 and accrued interest April 1, 1931, reducing one-half of 1% on May 1, 1931 and in each year thereafter; Series "C" bonds at 106 and interest to and including March 1, 1932, premium reducing 1% on the first day of April in each of the years 1932, 1937, 1942, 1947 and 1952.

Sinking Fund—A sinking fund is provided for Series "A" and Series "B" bonds under the terms of which 2% of the largest principal amount of bonds of said two series at any time outstanding, will be retired each year starting in 1928 by surrender, by purchase for cancellation, or by redemption. For the retirement of bonds of Series "C," indenture will provide for semi-annual payments to Trustee, beginning April 1, 1928, and semi-annually thereafter, which payments, it is estimated, will retire Series "C" on or before maturity. Indenture will provide that with respect to additional Series "C" bonds or bonds of any subsequent series (issued while any Series "C" bonds are outstanding) maturing more than 5 years from date of issue, provision shall be made for their retirement (on the basis of par) at or before maturity by sinking fund or otherwise.

Convertibility—Bonds of Series "C" are convertible at any time on or after April 1, 1932, and prior to maturity, or if called for redemption prior to redemption date, at the option of the holder—with adjustment of accrued dividends and accrued interest—into the fully paid and non-assessable 7% cum. Pfd. stock of Corporation on the basis of 11 shares, of the par value of

$100 each, for each $1,000 principal amount of bonds. This privilege shall not extend to bondholders who are at the time residents of States where so-called Blue Sky laws are in effect at time of conversion, unless and until such Pfd. stock shall be saleable under the respective Blue Sky Laws of States where the bondholders reside.

Security—The Collateral Trust bonds are direct obligation of Corporation and are specifically secured by pledge with the Trustee of all the outstanding Common stocks of the subsidiary operating companies, viz: Arkansas-Missouri Power Co., Dalhart Public Service Co., Kansas Power Co., Michigan Public Service Co., and Missouri Public Service Co.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse resident holders of Series "A", Series "B" and Series "C" bonds, if requested within 60 days after payment, for the Connecticut 4 mills tax, Pennsylvania 4 mills tax, Maryland 4½ mills tax, California personal property tax up to 4 mills and District of Columbia 5 mills tax, and for the Massachusetts Income Tax on the interest not exceeding 6% of such interest per annum.

Legal Opinion (Series "C" bonds)—Townsend, Elliott & Munson, (for the bankers) and Chadbourne, Hunt, Jaeckel & Brown, (for the Corporation)

Original Offering—First publicly offered ($3,000,000 Series "C" 6s) in April 1927, at 96 and interest to yield about 6.30%, by Howe, Snow & Bertles, Inc., Stroud & Co., Inc., Spencer Trask & Co., A. E. Fitkin & Co., New York, etc.; R. E. Wilsey & Co., and Pearsons-Taft Co., Chicago, etc.

ARKANSAS-MISSOURI POWER COMPANY

(Controlled by Inland Power & Light Corp.)

History—Incorporated in April, 1923, in Arkansas, with perpetual charter. Acquired the electric and ice properties formerly owned and operated by the Missouri & Southeastern Utilities Co., the Caruthersville and Kennett Electric Light & Power Co. and the Hayti Light Co. In 1925 Company acquired the electric properties in Walnut Ridge, Mammoth Spring, Portageville and Corning, and in 1926 acquired other electric properties in Arkansas and Missouri, and ice properties in Arkansas and Missouri. Owns the entire outstanding Common stock of the **East Missouri Power Company.**

The Company directly or through its subsidiary furnishes light and power in 88 communities with a population of over 97,000 to 12,661 customers through 527 miles of high tension transmission lines. Company also furnishes ice to 19 communities having a population of 56,090 and operates three miles of water mains in the town of Luxora, Arkansas.

The aggregate generating capacity of the 17 hydro and oil plants of the Company is 4,938 k.w. The daily capacity of the artificial ice plants is 304 tons and that of the water plants 576,000 gallons.

Each group in the system is inter-connected with high tension tranmission lines. A tie-up at Hoxie, Arkansas, with a 110,000 volt transmission line of the Arkansas Light & Power Co. (controlled by the Electric Bond & Share Co.), assures participation in superpower development in the territory.

Among the communities served are Blytheville, Rector, Piggott, Walnut Ridge, Hoxie, Pocahontas, Black Rock, Imboden, Success, Luxora, Osceola, Mammoth Springs and Corning, in Arkansas, and Caruthersville, Hayti, Kennett, Campbell, Thayer, Portageville, Clark-

on, Steele, Piedmont, Potosi, Marston, Holcomb, Ironon, Troy, Warrenton, Wentzville, Old Monroe, Marhasville, Bismark, Irondale, Holland and Cooter in Missouri; Blytheville, Poplar Bluff, Campbell, Steele, Luxora, Osceola, Caruthersville, Kennett, Walnut Ridge and Hoxie are also served with ice.

Additional bonds bearing such designation, interest rates, maturities, etc., as the Board of Directors may prescribe, may be issued (1) to refund, acquire or retire, par for par, bonds of any other series outstanding under the Trust Indenture and divisional bonds on after acquired properties; (2) to a principal amount equal to 75% of the cost or value, whichever is less, of electric, gas and/or water plants, or betterments, additions or improvements to the electric, gas and/or water properties of Company and its subsidiaries made or acquired subsequent to January 1, 1927. Bonds issued against improvements to subsidiary companies or against property subject to divisional liens shall not, however, exceed in the aggregate 25% of all First Mortgage bonds at the time outstanding. Additional bonds may be issued only provided that consolidated net earnings shall, for 12 consecutive months within the 15 months preceding the application for said bonds, have been at least twice the annual interest charges on all the divisional bonds, if any, and all First Mortgage bonds outstanding, including those proposed to be issued.

Callability—Subject to call on the first day of any month upon 30 days' notice at 102 and accrued interest, to and including March 1, 1932, reducing ½% on the first day of April in each of the years 1932, 1937 and 1942.

Sinking Fund—The Indenture provides for a sinking fund, under the terms of which in the calendar year 1930 and in each calendar year thereafter, there shall be used for the retirement of bonds of Series "A" an amount equal to not less than 1% of the largest principal amount of Series "A" bonds at any one time outstanding, by purchase in the open market at not exceeding the then prevailing redemption price or by redemption.

Security—Secured by a first direct mortgage on all the fixed properties of Company, now owned or hereafter acquired, except as to divisional liens, if any, on after acquired properties.

Tax Provisions—The Company pays Normal Federal Income Tax up to 2%. Company also agrees to reimburse resident holders, if requested, within 60 days after payment, for the Connecticut 4 mills tax, Pennsylvania 4 mills tax, Maryland 4½ mills tax, District of Columbia 5 Mills Tax, California Personal Property Tax not exceeding 4 mills per annum, and Massachusetts Income Tax not exceeding 6% per annum.

Legal Opinion—Townsend, Elliott & Munson (for the Bankers), and Chadbourne, Hunt, Jaeckel & Brown (for the Company).

Original Offering—First publicly offered ($2,000,000) in June, 1927, at 96 and interest to yield about 5.32%, by Howe, Snow & Bertles, Inc., Spencer Trask & Co., Pearsons-Taft Co., A. E. Fitkin & Co., New York, etc., and Central Trust Co. of Illinois, Chicago.

NOTE—All stock votes; 191,174 shares Consumers Power Co. 6.6% Pfd. have limited voting power.

Business—The subsidiary companies of the Commonwealth Power Corp. are engaged principally in the production and sale of electricity for light and power, and gas as fuel. One or more of these classes of service are rendered directly to more than 545 growing communities having a combined population in excess of 2,300,000 located in the states of Michigan, Illinois, Indiana, Ohio and Tennessee. Power is also wholesaled to a number of other utility companies. The electric transmission lines of several subsidiaries interconnect with other utility systems and thus form integral parts of some of the important interconnected power systems of the United States.

The Michigan operations are conducted by the Consumers Power Co. and the Southern Michigan Light and Power Co. Electricity is supplied directly to 324 cities and towns. Gas is supplied to 37 cities and towns. The combined population served is estimated to be in excess of 1,500,000. In Feb., 1928, the interconnection of Consumers Power Co. with the system of Detroit Edison Co. was completed, thus making a large block of power available at all times for an operating emergency of either company.

The Tennessee operations are conducted by The Tennessee Electric Power Co. and its principal subsidiary, the Nashville Railway and Light Co., which supply electric and transportation service in Chattanooga and Nashville and electric service in 121 contiguous communities. Electric service also is supplied on a wholesale basis to other utility companies which serve Knoxville and more than 69 other communities. Combined population of the various cities and towns served directly is estimated at 370,000.

The Illinois operations are conducted by the Central Illinois Light Co., Illinois Power Co. and the Illinois Electric Power Co. The first two named companies supply electricity and steam and/or hot water heating in the cities of Peoria, Springfield, Pekin, DeKalb and Sycamore and electric service to 43 surrounding towns. Gas service is furnished in Peoria, East Peoria, Pekin, Springfield, Averyville, and Bartonville. Electric service is also supplied on a wholesale basis to utility companies serving a number of other communities. Combined population of the various cities and towns directly served is estimated to be in excess of 250,000.

The Indiana operations are conducted by the Southern Indiana Gas and Electric Company which supplies electricity, gas, transportation, and steam heating to Evansville. Electricity also is supplied to Mt. Vernon and eight adjacent towns. Combined population of territory served by the Company is estimated to be in excess of 120,000.

The Ohio operations are conducted by The Ohio Edison Co., which supplies electric service directly to Springfield, Ohio and 39 adjacent towns. Electricity is supplied on a wholesale basis to three other towns and steam heat is furnished in the main business section of Springfield. Total population of territory served is estimated to be in excess of 105,000.

The coal properties are operated by the Utilities Coal Corp. which has mines in Kentucky and Illinois. These mines supply in part the fuel requirements of the steam-electric and gas manufacturing plants.

The electric properties include 65 power plants which have a combined installed generating capacity of 848,960 horsepower, 289,840 of which is in 41 hydro-electric plants and the remainder in 24 steam-electric plants. In addition to its own facilities, the Michigan subsidiary company purchases the output of several hydro-electric plants with an aggregate installed capacity of 24,330 horsepower and the Tennessee subsidiary company operates under lease two steam plants with an aggregate capacity of 11,050 horsepower. Electricity with pressure up to 140,000 volts is carried over more than 3,925 miles of transmission lines and delivered over approximately 29,500 miles of distribution lines to more than 465,900 customers.

The gas properties include 13 manufacturing plants with a rated capacity of 44,625,000 cubic feet daily output, and 39 holders with a storage capacity of 18,418,000 cubic feet. Gas is distributed principally as fuel for domestic and industrial purposes through 2,130 miles of main to more than 188,500 customers.

Other properties include 12 heating plants with 26.9 miles of steam and hot water mains, 8 water pumping plants, 4 artificial ice plants and transportation systems in Nashville and Chattanooga, Tennessee; Evansville, Indiana and Springfield, Illinois; and coal mines in Kentucky and Illinois, which provide in part for the requirements of the steam-electric generating plants and the gas manufacturing plants.

Over 71% of Commonwealth Power Corporation's gross earnings in 1927 was derived from the sale of electricity, about 15% from the sale of gas and the balance from heating, water, ice, transportation and coal departments.

CONSUMERS POWER COMPANY

(Subsidiary of Commonwealth Power Corporation)

History—Incorporated May 14, 1910, under the laws of Maine. Owns and operates extensive system of electric and gas properties in Michigan. Electric properties include 44 plants with installed generating capacity of 345,390 h.p. Over 41 of this capacity is contained in 34 water power plants located on the Manistee, Au Sable, Grand, Kalamazoo, Muskegon, Tattabawssee and Shiawassee Rivers, the remainder, being in 10 central steam plants at Zilwaukee, Battle Creek (2), Grand Rapids (2), Flint, Jackson, Alma, Kalamazoo and Greenville. In addition Company has contracts for the output of several additional hydro-electric plants which are connected with the system. All of the 44 generating plants are linked in one inter-connected power system by over 2,210 miles of transmission lines, more than 82% of which are installed in private right of way. A large part of the transmission lines is of steel tower construction carrying electric current at 140,000 volts. Electricity is delivered over 13,376 miles of distribution lines. In Feb., 1928 the interconnection of Consumers Power Co. with the system of the Detroit Edison Company was completed, thus making a large block of power available at all times for an operating emergency of either company.

The gas properties consist of 10 manufacturing plants located at Lansing, Zilwaukee, Flint, Jackson, Kalamazoo, Pontiac, Hastings, Ionia, Manistee and Charlotte and distribution systems in such cities as well as in Bangor Twp., Bay City, Essexville, Monitor Twp., Carrollton and Saginaw supplied from the Zilwaukee plant; Mt. Morris supplied from the Flint plant; Blackman Twp., Michigan Center and Summit supplied from the Jackson plant; Eaton Twp., Eaton Rapids and Eaton Rapids Twp., supplied from the Charlotte plant; Grand Ledge, Holt, Mason and East Lansing supplied from the Lansing plant, and Berkley, Birmingham, Clawson, Farmington, Ferndale, Keego Harbor, Pleasant Ridge, Rochester, Royal Oak and Sylvan Lake supplied from the Pontiac plant. These plants with an aggregate daily capacity of 29,975,000 cubic feet are equipped to produce coal and water gas in about equal amounts. The capacity of the storage holders is in excess of 13,252,000 cubic feet, gas being distributed for domestic and industrial purposes through an extensive pipe system of more than 1,606 miles. The Company also has steam heating plants at Grand Rapids, Battle Creek, Saginaw and Pontiac and a pumping station which supplies water to Cadillac.

During 1927 Company extended its electrical service to additional communities, including St. Charles, Grass Lake, Bath, Dansville, Onekama, Newark, Flushing, Paris, Cascade, Cooper, Gibsonville and Farrandville. As of Dec. 31, 1927 the total number of communities

served directly with electricity or gas, or both, was 219 The estimated population of the territory served is in excess 1,400,000. Gross earnings in 1927 were derived approximately 77% from the electric business, 21% from the gas business and 2% from the heating and water business.

Franchises—A large part of the electric property of Company is owned in fee and is not in any way subject to termination of franchise life, as for instance, its water power properties, developed and undeveloped, the steam plants, and the private rights-of-way with the transmission lines thereon. Current is distributed in the various municipalities under satisfactory long-term franchises.

Control—All the Common stock is owned by Commonwealth Power Corp.

$2,254,000 CONSUMERS POWER CO. FIRST LIEN AND REFUNDING GOLD 5s; DUE JANUARY 1, 1936

Dated January 2, 1911.

Interest Payable January and July 1 at Harris Trust & Savings Bank, Chicago and at Harris, Forbes & Co., New York.

Denomination—Coupon, $1,000; principal may be registered.

Trustee—Harris Trust & Savings Bank, Chicago.

Provisions of Issue—Authorized issue, $35,000,000, of which sufficient are reserved to retire the underlying divisional bonds; the remainder are held in escrow, and can only be issued for not to exceed 80% of the actual cash expenditures for additional property, provided that net earnings for the twelve months previous equal at least one and three-quarters interest charges of all bonds outstanding including those then to be issued, and also may be issued to refund outstanding bonds of constituent companies under certain restrictions. Under the terms of the First Lien & Unifying Mortgage, any additional bonds issued shall be pledged under said mortgage. On Dec. 31, 1927, $11,160,000 of these bonds were pledged under the First Lien & Unifying Mortgage.

Callability—Subject to call at 105 and interest on any interest date.

Sinking Fund—In 1915 and every year thereafter, a sum in cash equal to 1% of the bonds outstanding (including any prior lien bonds not pledged with the Trustee) must be applied, either on account of sinking fund payment under mortgages of constituent companies or for retirement of first lien & refunding bonds, or to reimburse company for 80% of cost of permanent additions for which no escrow bonds are issued.

Security—Due to the conveyance to the Consumers Power Co. of the properties of its former subsidiary companies, the First Lien and Refunding bonds are now secured by a direct first mortgage on properties having generating plants with a capacity of approximately 233,600 h.p., and are also secured by a first mortgage on very valuable undeveloped water rights, which are capable of large ultimate development. They are further secured by a mortgage on the remainder of the Company's electric light and power property, subject to the underlying divisonal (closed) mortgage bonds described above. Further secured by pledge of $1,299,000 Grand Rapids-Muskegon Power Co. First 5s, due 1931.

Tax Provision—Company pays Normal Federal Income Tax up to 2%.

(7)

$7,827,100 CONSUMERS POWER CO. FIRST LIEN & UNIFYING MORTGAGE GOLD BONDS, SERIES "D" 5½%; DUE MAY 1, 1954

Called for redemption on May 1, 1928, at 105 and interest at the National City Bank, New York.

Dated Series "C" Nov. 1, 1922.

Interest Payable May and November 1 at The National City Bank, New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Registered, $1,000, $5,000 and $10,000, interchangeable with coupon bonds.

Trustee—The National City Bank, New York.

Provisions of Mortgage—Authorized amount, unlimited, subject to restrictions below stated. Outstanding, Dec. 31, 1927, $16,872,700 Series "C" 5s and $7,843,100 Series "D" 5½s, of which $16,000 Series "D" 5½s held in treasury.

The mortgage provides for the issuance of bonds thereunder in series bearing the same or different rates of interest, dates, maturities and such other distinguishing features with respect to each particular series as may be determined by the Board of Directors of the Company at the time of the original issue of each series, subject always to the restrictive provisions of the mortgage. Bonds of any series may be issued from time to time in the future in principal amounts equal to and for the acquisition or retirement of underlying bonds outstanding with the public and First Lien and Unifying Mortgage bonds of other series. Bonds may also be authenticated for not exceeding 75% of such actual and reasonable expenditures for permanent extensions and additions to the plants and properties, provided net earnings for twelve consecutive months shall have been at least twice annual interest charges on all underlying bonds outstanding in the hands of the public and all First Lien and Unifying Mortgage bonds outstanding and then proposed to be issued.

The mortgage contains certain provisions permitting the modification thereof or of any supplemental indenture, in any particular, with the assent of the holders of 75% in aggregate principal amount of the outstanding bonds, not including any bonds owned by the Company; provided, however, that nothing shall permit the extension of the maturity of any bond or the reduction in the rate of interest thereon, or any other modification in the terms of payment of such

interest, without the consent of the holder thereof, nor the creation by the Company of any mortgage lien ranking prior to or on a party with the lien of the First Lien and Unifying mortgage.

Callability—Subject to call as a whole or in part at the option of the Company on any interest payment date on 30 days' prior notice at 105 during first ten years and thereafter at prices decreasing 1% every five years.

Sinking Fund—The mortgage requires the Company to deposit each year with the Trustee in semi-annual payments commencing May 1, 1923, an amount in cash equal to not less than 1% of all underlying bonds and First Lien and Unifying Mortgage bonds outstanding in the hands of the public at the preceding April 30. Of the money so deposited with the Trustee, not less than $250,000 in each year shall be utilized in the retirement of First Lien and Unifying Mortgage bonds outstanding in the hands of the public, if purchasable at or below the then existing redemption prices. The balance of the Sinking Fund moneys shall be utilized only in the purchase of First Lien and Unifying Mortgage bonds or underlying bonds at or below their respective redemption prices, or reimbursed to the Company at its request for property expenditures against which no bonds shall have been or may be issued.

General Reserve Fund—The mortgage requires the Company, in each year, either to expend for maintenance, repairs, renewals and replacements, or for extensions, enlargements and additions which no bonds may be issued, or for the purchase of First Lien and Unifying Mortgage bonds, an aggregate amount equal to 4% of the total bonded indebtedness of the Company outstanding in the hands of the public at Dec. 31 of each year, or insofar as such an amount is not so expended, to deposit with the Trustee cash, which in turn may be withdrawn by the Company for one or more of the said purposes.

Security—First Lien and Unifying Mortgage bonds are secured by a direct mortgage on all the physical property of the Company, subject to the liens of underlying mortgages under which there are outstanding in the hands of the public $25,498,500 bonds. The mortgage shares in certain of these liens through pledg with the Trustee of $11,160,000 First Lien & Refund ing bonds and $2,512,500 Michigan Light Co. First & Refunding Mortgage bonds. In addition there ar pledged with the Trustee, all the First Mortgage bond and all the stock of the Thornapple Gas & Electri Co., which owns a large modern by-product gas plan of 3,000,000 cubic feet installed daily manufacturin capacity, one of the two largest steam generating sta tions of the system, having an installed generatin capacity of 54,000 h.p. As further amounts of Firs Lien & Refunding bonds of the Company and bond and stock of the Thornapple Gas & Electric Co. ar issued, they will be similarly pledged.

Tax Provisions—Company pays Normal Federal In come Tax up to 2%. Four mills tax in Pennsylvani and Connecticut Personal Property tax not exceedin four-tenths of one per cent. of principal refundabl upon appropriate application. Tax exempt in Stat of Michigan.

THE OHIO EDISON COMPANY

(Subsidiary of Commonwealth Power Corporation)

History and Property—Incorporated in Ohio in March, 1924, and as of April 1, 1924, consolidated the properties of The Springfield Light, Heat & Power Co. (see 1923 Manual, page 2039) with the former Ohio Edison Co., which had acquired in 1923 the electric properties of The Marysville Light & Water Co., the southern district of The Northwestern Ohio Light Co. and The West Liberty Light & Power Co.

Under the plan of consolidation the Pfd. stock of the Springfield Light, Heat & Power Co. and the former Ohio Edison Co., became the Pfd. stock of the consolidated company (The Ohio Edison Co.); 40,000 shares of Common stock of no par value of consolidated company were issued in exchange for $1,000,000 Common stock of The Springfield Light, Heat & Power Co., and 10,000 shares for the 10,000 Common stock of no par value of the former Ohio Edison Co., which latter stock had been purchased by Commonwealth Power Corp. for $25 per share in cash. The bonds of each of the constituent companies were assumed by the consolidated company.

In Dec., 1925, Company acquired the Indian Lake Light & Power Co. In 1926 purchased The Belle Center Light and Power Co.

Company owns and operates a steam-electric generating plant at Springfield, O., with an installed capacity of 60,300 h.p. Current is delivered over 161 miles of transmission and 1,268 miles of distribution wire lines to more than 24,899 customers. Electric light and power is furnished directly to Springfield, Urbana, and Marysville, and 37 adjacent communities in Ohio, and through other company's lines at wholesale to 3 additional communities. Steam heat is also furnished in Springfield. Population in territory served is estimated to be in excess of 105,000.

Mad River Development—A 23-acre site was secured on the Mad River at a point adjacent to the National Road on the western outskirts of Springfield, upon which a steam plant with an initial installed capacity of 26,600 h.p. was built and went into operation July 14, 1927. This plant is designed to have an ultimate capacity of 133,000 h.p. and is connected with the generating plant in Springfield. The Rockaway plant will be operated for carrying peak loads, maintaining a reserve power supply and for furnishing steam heating service in the downtown district of Springfield.

SOUTHERN INDIANA GAS AND ELECTRIC COMPANY

(Subsidiary of Commonwealth Power Corporation)

History and Property—Incorporated in June, 1912, in Indiana, as the Public Utilities Company; name changed to present title in 1921. On June 1, 1923, purchased the property of Mt. Vernon Electric Light & Power Co. (see 1923 Manual, page 2133, or apply to Dir Information Department). In January, 1926, purchased the property of the Electric Light Co. of Fort Branch, Ind.

Company supplies electric light and power, steam heating, transportation and gas service in Evansville, Ind. Electricity is also supplied to nine other communities, and interurban transportation service is supplied between Evansville and communities to the north as far as Princeton and Patoka. The population of the territory served is estimated to be in excess of 120,000. Electricity is generated and distributed from the company's two central steam generating plants in Evansville, with an aggregate installed capacity of 72,800 horsepower, over 93% of which is installed in the Division Street Station. The Mulberry Street plant is operated for supplying both electric light and power and steam heating service. Steam is distributed from this station through 2½ miles of mains to 358 customers. Electricity is distributed to 24,875 customers through a transmission and distribution system aggregating 1,398 miles of wire lines. These lines extend from Evansville to Winslow, Ind., and from Evansville to Mt. Vernon, Ind.

Gas service is supplied from the Evansville station, which has a daily generating capacity of 4,750,000 cubic feet, both coal and water gas generating equipment being in operation. The total gas storage capacity is 1,650,000 cubic feet. The gas distribution system, aggregating 153 miles of mains, supplies 15,254 customers.

The transportation property includes on a single track basis 73 miles of line, 41 miles of which are in Evansville and the remainder an interurban line from Evansville to Princeton and Patoka; motor buses supplement city and interurban electric railway service.

Franchise Situation—In 1917 Company voluntarily surrendered its franchises and received, in lieu thereof indeterminate permits granted under the Public Service Commission Law of Indiana.

The remaining bonds to be authorized may be issued to reimburse the Company for not to exceed 75% of actual and reasonable expenditures made by the Company after Jan. 1, 1919, for permanent extensions, enlargements and additions of and to its plants and properties, provided that net earnings for 12 consecutive calendar months ending not more than 60 days prior to the issuance of any additional bonds, after all operating expenses, taxes, rentals, insurances and reasonable and adequate expenditures or charges for current maintenance and repairs, shall be not less than twice the annual interest charges on all First & Refunding Mortgage bonds outstanding, including those proposed to be issued and underlying bonds in the hands of the public.

Callability—Subject to call on Jan. 1, 1924, and on any interest date prior thereto at 102 and accrued interest, and on any interest date thereafter at 101 and accrued interest.

General Reserve Fund—Pursuant to the provisions of the mortgage, the Company must either expend in each calendar year beginning with the year 1919, or deposit in cash with the Trustee in a General Reserve Fund, an aggregate amount equivalent to the sum of 20% of gross earnings derived from the railway properties, 15% of gross earnings derived from the electric light and power properties and 12% of gross earnings derived from the gas and steam heating properties and of all other income. The aggregate amount, as above calculated, may only be expended for maintenance, repairs, replacements and renewals, for the purchase or cancellation of bonds of this issue and underlying bonds, or for extensions, enlargements and additions to the property, provided that such expenditures shall otherwise be proper as a basis for the issuance of bonds, but, on account of which, no bonds shall have been or shall be issued except as the General Reserve Fund is reimbursed to the extent of moneys used or withdrawn therefrom for such expenditures.

Security—Secured by a first mortgage on the interurban railway mileage and on the steamheating system in Evansville, and by a direct mortgage on all the remaining property of the Company subject only to the lien of $1,075,000 Evansville Gas & Electric Light Co. 5s, due June 1, 1932.

Tax Provision—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Shearman & Sterling, New York.

$1,297,100 SOUTHERN INDIANA GAS & ELECTRIC CO. FIRST LIEN AND REFUNDING MORTGAGE GOLD BONDS, SERIES "B", 6%; DUE OCT. 1, 1947

Dated October 1, 1922.

Interest Payable April and October 1, at The National City Bank, New York.

Denominations—Coupon, $100, $500 and $1,000; registerable as to principal only and interchangeable with fully registered bonds in denominations of $1,000, $5,000 and multiples of $5,000.

Provisions of Issue—The First Lien & Refunding Mortgage will permit the issuance of bonds in series, of different dates, maturities and interest rates and subject to such different redemption provisions as may be determined by the Board of Directors of Company at the time of the original issuance of each series, subject, however, to the restrictive provisions of the mortgage. Bonds of any series may be issued from time to time in the future in principal amounts, equal to and for the acquisition or retirement of bonds secured by existing mortgages now outstanding with the public, or those of another series under the new mortgage, or for not exceeding 75% of actual and reasonable expenditures for permanent extensions, enlargements and additions of and to the plants and properties made subsequent to April 1, 1921, provided that at all times an equivalent face amount of First & Refunding Mortgage bonds be on pledge with the Trustee. First & Refunding Mortgage bonds are issuable on account of property expenditures only when net earnings for the preceding twelve months shall have been not less than twice the annual interest charges on all First & Refunding Mortgage bonds outstanding, including those proposed to be issued and underlying bonds in the hands of the public. Upon the discharge or exhaustion of the First & Refunding Mortgage, new First Lien & Refunding Mortgage bonds may be issued on account of construction expenditures only when net earnings for twelve consecutive calendar months ending not more than 60 days prior to the application for the issuance of bonds, shall have been not less than twice the annual interest charges on all bonds secured by existing mortgages outstanding in the hands of the public and all First Lien & Refunding Mortgage bonds outstanding and for the issuance of which application is then made.

Callability—Subject to call on any interest date upon 30 days' prior notice at 105 and accrued interest during the first five years, the premium decreasing 1% each five years thereafter.

Sinking Fund—The First Lien & Refunding Mortgage provides for a sinking fund requiring a semi-annual cash payment to the Trustee equal to ½% of the face amount of all First Lien & Refunding Mortgage bonds and bonds secured by existing mortgages outstanding with the public on Oct. 1, 1921, and each six months thereafter. The money so deposited with the Trustee shall be utilized in the purchase of bonds outstanding in the hands of the public.

General Reserve Fund—The mortgage also provides for general reserve fund requiring the Company to either expend in each calendar year beginning 1921 or deposit in cash with the Trustee an aggregate amount equivalent to 5% of the total mortgage debt outstanding in the hands of the public at Dec. 31 of each such year. This amount may only be utilized for maintenance, repairs, replacements and renewals, for the purchase or cancellation of bonds of this issue or bonds secured by existing mortgages or for extensions, enlargements and additions of and to the properties on account of which no First Lien & Refunding Mortgage bonds shall have been or may be issued. The operation of this fund will be similar to the general reserve fund of the First & Refunding Mortgage and any deposit made into the latter fund may be considered as a credit under the General Reserve fund of this mortgage.

Security—Secured by a direct mortgage on the entire property of the Company subject to the liens of a closed divisional mortgage and the First & Refunding Mortgage, and also share in a first lien on a substantial portion of the property through the pledge of $2,572,100 First & Refunding Mortgage bonds.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania and Connecticut State Taxes refunded.

History and Properties—Incorporated under the laws of Maryland, May 27, 1922, and purchased as of July 1, 1922, the properties of the Chattanooga Railway & Light Company, the Chattanooga & Tennessee River Power Company and the Tennessee Power Company (see 1922 Public Utility Manual, page 2417). The duration of Company's charter is perpetual. It was domesticated in the State of Tennessee June 19, 1922; filed Amended Articles of Incorporation in Maryland July 22, 1922, and in Tennessee June 19, 1922. In 1924 acquired the property of Maryville Lighting Co. (see 1924 Public Utility Manual, page 162).

Company owns all the Common stock, over 97% of the Pfd. stock and $5,807,500 principal amounts of bonds of Nashville Railway and Light Company and 100% of the Capital stock of Toccoa Electric Power Company. Company also owns a half interest in the **East Tennessee Development Company,** which has applied for preliminary permits to make the necessary surveys in connection with the construction of eleven power and navigation dams in the Tennessee, Clinch and Powell Rivers about Chattanooga. According to surveys that have been conducted by the Federal Government in the so-called Upper Tennessee basin, the completion of the projects mentioned will make available 592,500 h.p. of electricity.

During 1927 several electric distribution properties were added to the system. The systems purchased comprised those supplying electric service to Rockford and Baxter and the electric and water supply to Blue Ridge and in Niota. New distribution systems were constructed and electric service was inaugurated in the following communities: Clairfield, Crab Orchard, Coulterville, Elmwood, Denver, Keltonburg, Johnsville, Sale Creek and White Bluffs.

Company and its subsidiaries supply electric and transportation service in Chattanooga and Nashville and electric service in 121 contiguous communities. Electric service also is supplied on a wholesale basis to other utility companies which serve Knoxville and more than 69 other communities. In addition water service is furnished in 5 communities and electrically driven raw water ice plants are operated in 4 communities. The combined population of the various cities and towns served directly is estimated at 370,000.

The electric properties include 7 hydro-electric stations located on the Tennessee, Ocoee, Calfkiller, West Fork and Caney Fork Rivers, with an installed generating capacity of 144,800 h.p., and 4 steam-electric plants located at Hales Bar, Nashville, Parksville and Mascot, with an installed generating capacity of 138,-20 h.p. Total installed generating capacity of the various stations is 283,520 h.p., the Hales Bar hydro-steam generating plants representing one of the largest electrical developments in the South. The Company also operates under lease a steam plant at Knoxville and another at Richard City which have a combined installed generating capacity of 11,050 horsepower. Electricity is supplied directly to more than 91,259 customers over 803 miles of transmission lines, and over 7,515 miles of distribution lines.

The transmission lines extend from Jefferson City and the coal fields of east-central Tennessee on the North through Knoxville to Chattanooga on the South and from the Copper Basin on the East to Nashville on the West with a total length of 803 miles. Connection is made at Maryville with the power system of the Aluminum Company of America and at the Georgia State Line southeast of Chattanooga with the Georgia Power Company, which company has high tension connection with the Alabama Power Company, etc., at the Kentucky State line at Prudent with the Kentucky Utilities Company and east of Knoxville with the power systems of Tennessee Public Service Co. These connections make The Tennessee Electric Power Company a part of the great super-power system of the Southeastern states.

The transportation properties comprise the electric railway systems in Nashville and Chattanooga supplemented by motor bus service consisting of 173 miles measured as single track, 299 cars and 18 motor busses.

Franchises—The franchises under which the Company operates are nearly all without limit of time and contain no burdensome restrictions.

CAPITAL STOCK

Authorized, 500,000 (increased from 200,000 Oct. 11, 1926) Common shares of no par value and $30,000,000 (increased from $15,000,000 April 3, 1925) 7.2%, 7% and 6% cumulative First Pfd.; par, $100; outstanding Dec. 31, 1927, 265,000 Common shares, $2,768,500 7.2% First Pfd., $8,345,400 7% First Pfd., and $8,697,400 6% First Pfd. stock. In addition to the $8,697,400 6% First Pfd. stock outstanding, $60,400 is deposited in escrow for exchange for Nashville Ry. & Light Co. Pfd. stock in the hands of the public. In addition to stock shown above there are $81,300 7.2% First Pfd. and $453,900 6% First Pfd. subscribed to but unissued. On Dec. 15, 1926 the Second Pfd. stock was redeemed and cancelled. The Commonwealth Power Corp. owns over 97% of Common stock, representing a majority of the voting stock of the Company.

Subscription Privileges—On June 15, 1926 Common stockholders were offered the right until July 9, 1926 to subscribe to 44,000 shares additional Common stock at $70 per share in ratio of approximately one new share for each 3½ shares held. Payments could have been made in cash, in Second Pfd. stock at $85 a share flat, or in Second Pfd. stock and cash. On Oct. 15, 1926, 40,000 additional Common shares were offered to stockholders for subscription at $75 a share on the basis of one new share for each five shares held.

due in full, to subscribe to their pro rata share of 25,000 additional Common shares at $80 a share.

Preferred Stock Provisions—The First Pfd. stock (7.2%, 7% and 6% sharing equally) has preference both as to assets and dividends over Common and is entitled to full voting powers. Dividends are cumulative from July 1, 1922.

Additional First Pfd. stock of any class may be issued for actual and reasonable expenditures for permanent extensions, enlargements and additions to the plants, properties and equipment made after June 1, 1922, but only to an amount not exceeding the cost of such expenditures and the face amount of bonds issued against the same. Additional 6% First Pfd. stock may also be issued for an equal face amount of the Company's mortgage bonds and divisional lien bonds acquired or retired by the Company, or 5% Pfd. stock of Nashville Ry. & Light Co., and additional 7% First Pfd. stock may, under certain conditions, be issued in exchange for 6% First Pfd. stock in the proportion of six shares of 7% First Pfd. stock for seven shares of 6% First Pfd. stock. The authorized amount of First Pfd. stock is $30,000,000. The total authorized amount may not be increased, nor may any provisions of the charter relating to the issuance of First Pfd. stock be changed without the consent of the holders of 60% of the shares of First Pfd. stock outstanding. In the event of default in the payment of dividends on the First Pfd. stock for four consecutive quarterly periods, the First Pfd. stock, voting as a class, shall have the right to elect two-thirds of the Board of Directors.

Callability—The Pfd. stocks are subject to redemption in whole but not in part upon sixty days' notice at the following rates, plus dividends declared but unpaid: 7.2% First Pfd. at $110 per share, 7% First Pfd. at $110 per share and 6% First Pfd. at $105 per share.

(8)

$24,222,100 THE TENNESSEE ELECTRIC POWER COMPANY FIRST & REFUNDING MORTGAGE 6% GOLD BONDS, SERIES "A"; DUE JUNE 1, 1947

Dated June 1, 1922.
Interest Payable June and December 1, at The National City Bank of New York, or at option of the holder at office or agency of Company, Philadelphia.
Denominations—Coupon, $100, $500 and $1,000 (principal may be registered); interchangeable with fully registered bonds in denominations of $1,000, $5,000 and $10,000.
Trustee and Registrar—National City Bank of New York. William W. Hoffman, New York, Co-Trustee.
Provisions of Issue—Authorized issue, unlimited. Issued, $25,991,100, of which $1,769,000 cancelled by sinking fund, leaving $24,222,100 in hands of public at Dec. 31, 1927.

The First and Refunding mortgage provides for the issuance of bonds thereunder in series bearing the same or different rates of interest, dates, maturities, redemption provisions and such other distinguishing features with respect to each particular series as may be determined by the Board of Directors of the Company at the time of the original issue of each series, subject always to the restrictive provisions of the mortgage. Bonds of any series may be issued from time to time in the future in principal amounts equal to and for the acquisition or retirement of divisional lien bonds outstanding with the public, and bonds of another series issued under the new mortgage. Bonds may also be issued for not exceeding 75% of actual and reasonable expenditures for permanent extensions, enlargements and additions to the plants, properties and equipment made after June 1, 1922, provided consolidated net earnings for twelve consecutive calendar months shall have been at least 1¾ times the annual interest charges on, and in no case less than 10% of, the aggregate principal amount of divisional lien bonds outstanding with the public and all First and Refunding Mortgage bonds outstanding and then proposed to be issued.

The Mortgage contains certain provisions permitting the modification thereof or of any supplemental indenture, in any particular, with the assent of the holders of 75% in aggregate principal amount of the outstanding bonds, not including any bonds owned by the Company; provided, however, that nothing shall permit the extension of the maturity of any bonds or the reduction in the rate of interest thereon, or any other modification in the terms of payment of such interest, without the consent of the holder thereof, nor the creation by the Company of any mortgage lien ranking prior to or on a parity with the lien of the First and Refunding Mortgage.

Callability—Subject to call as a whole or in part on any interest date upon 30 days' prior notice at 107½ on or before June 1, 1932; at 105 from Dec. 1, 1932, to June 1, 1942, inclusive; and thereafter at the principal amount thereof, plus a premium of 1% for each whole year between the date of redemption and maturity.

Sinking Fund—The indenture provides for a sinking fund requiring cash payments to the Trustee on March 1, 1923, and semi-annually thereafter, equal in each case to ½% of the aggregate of divisional lien bonds outstanding in the hands of the public and bonds issued under the mortgage remaining uncancelled, on each of such dates respectively. Such moneys are to be applied toward the purchase or redemption and cancellation of First and Refunding Mortgage bonds, of such series as the Board of Directors of the Company may specify, at or below the then existing redemption prices. All bonds purchased or redeemed for the sinking fund shall be cancelled.

General Reserve Fund—Under the indenture, the Company is required in each year, either to expend for maintenance, repairs, renewals and replacements, or for extensions, enlargements and additions against which no bonds may be issued, or for the purchase of First and Refunding Mortgage bonds, an aggregate amount equal to 5% of the total bonded indebtedness of the Company outstanding in the hands of the public at Dec. 31 of each year, or insofar as such an amount is not so expended, to deposit with the Trustee cash which in turn may be drawn out by the Company for one or more of the said purposes.

Security—The First and Refunding Mortgage bonds are secured by:

(1) A direct first mortgage on the entire property acquired from the Chattanooga & Tennessee River Power Co., including the 54,240 h.p. Hales Bar hydro-electric development and 53,620 h.p. Hales Bar steam station, high tension transmission lines, important substations and certain parts of the distribution system in Chattanooga.

(2) A direct mortgage on the entire property acquired from the Tennessee Power Co. subject only to the lien of the First Mortgage of Tennessee Power Co., under which there are $2,256,000 bonds outstanding with the public.

(3) A direct mortgage on the entire property acquired from the Chattanooga Railway & Light Co. subject to the lien of the First Consolidated Mortgage of the Chattanooga Railways Co. securing $1,667,500 5% bonds, due 1956, outstanding in the hands of the public, guaranteed by the Chattanooga Railway & Light Co., and to the First and Refunding Mortgage of the Chattanooga Railway & Light Co. securing $610,000 5% bonds, due 1956, outstanding in the hands of the public.

(4) A direct mortgage on the electric distribution systems in the towns of Madisonville, Loudon, Lenoir City, Athens, Jefferson City, Tellico Plains, Goodlettsville, Ridgetop, Greenbrier and Maryville, and a number of other towns in Tennessee, all acquired by The Tennessee Electric Power Co.

(5) A direct mortgage on eight-story office building in Chattanooga, Tenn., subject to the lien of a real estate mortgage of $175,000.

(6) The pledge with the Trustee of the following stocks and bonds of acquired and constituent companies as follows: $20,000,000 capital stock and $10,045,000 First Mortgage 5% bonds of Tennessee Power Co., $3,000,000 Common, $2,000,000 Pfd. and $3,697,000 First & Refunding 5% bonds of Chattanooga Railways & Light Co., $4,000,000 Common, $2,439,600 Pfd. and $5,807,500 Refunding & Extension Mortgage 5% bonds of Nashville Ry. & Light Co., 1,000 shares capital stock of Toccoa Electric Power Co., 50,000 shares capital stock of Chattanooga & Tennessee River Power Co., $341,000 First Consolidated Mortgage 5% bonds of Chattanooga Railways Co., and $389,000 First Mortgage 6% bonds of Lookout Mountain Ry. Co.

As further amounts of underlying bonds and Pfd. stock of the Nashville Railway & Light Co. are acquired by the Company, they shall be promptly pledged under the First and Refunding Mortgage. Any additional property or securities of whatever nature acquired by the Company after the date of the First and Refunding Mortgage shall likewise be so pledged.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mills tax refunded.

CAPITAL STOCK

Authorized, $125,000,000, consisting of $100,000,000 Common (increased from $40,000,000 on June 2, 1927) and $25,000,000 6% cumulative Pfd. Outstanding, as of March 31, 1928, $52,263,800 Common and $14,236,200 Pfd.; par, $100. Stock must be held twenty days before annual meeting to entitle holder to vote.

Stock Increase and Stock Dividend—At special meeting of stockholders on June 2, 1927, the authorized Common stock was increased from $40,000,000 to $100,000,000 and the payment of a dividend of 50% in Common stock was approved, payable June 30, 1927 to stock of record June 18, 1927.

Preferred Stock Provisions—Preferred stock has preference for assets and dividends and in liquidation, whether voluntary or involuntary, is entitled to par and accrued dividends.

Callability—The Pfd. stock is not subject to call.

Transfer Agents—American Light & Traction Co., New York; Michigan Trust Co., Grand Rapids, Mich., and the New Jersey Corporation Agency, Jersey City, N. J.

Registrars—Equitable Trust Co., New York, and National City Bank, Grand Rapids, Mich.

Annual Meeting—Third Monday in March.

Market—Both classes of stock dealt in on New York Curb Market.

Dividends—Dividends on Pfd. regular paid (quarterly, F, M, A & N 1) from organization to date. The Board of Directors at a meeting held Jan. 7, 1913, declared to holders of Pfd. stock a cash dividend of 2% for the period of four months to Feb. 1, 1913. Theretofore one month had elapsed between the dates for which Pfd. dividends had been declared and the dates of payments, thereby permitting one month's dividend to remain accrued and unpaid. In order to correct this, a dividend was paid at that time, covering a four months' period. While the dates of payments of dividends remain the same as heretofore—viz., F, M, A & N 1, they are now declared on the first Tuesdays in J, A, J & O.

Dividends paid on the Common stock: Cash payments have been made as follows: 1½% in 1904, 3½% in 1905, 4½% in 1906, 5½% in 1907, 6½% in 1908, 9% (including 1% extra on Aug. 2) in 1909; 9½% in 1910; 10% each in 1911 to 1919, incl.; 2½% each Feb. and May, 1920; Aug., 1920, 1¾%; Nov. 1, 1920, 1%; 1921 to 1924 inclusive, 4% each year; 1925, 6¼%; Feb. 1926, 1¾%; May 1, 1926, 2% regular and 2% extra; Aug. 1926 and Nov. 1926, and Feb. 1, 1927, 2% each; May 1, 1927, 2% regular and 2% extra; Aug. 1, 1927, Nov. 1, 1927, and Feb. 1, 1928, 2% each. Common dividends have been declared on the same day as the Pfd. dividends and are paid quarterly (F, M, A & N 1) by check.

In addition to the above, stock dividends on Common were paid in Common stock as follows: 10% in July, 1909; 2½% in Nov., 1909; 2½% quarterly (F, M, A & N 1) from 1910 to and including May, 1920; 1¾% each Aug. and Nov., 1920; Feb. 1, 1921, to May 1, 1925, 1% each quarter; June 30, 1927, 50%.

FUNDED DEBT

Trustee—National City Bank, New York.

Provisions of Issue—Authorized, open mortgage. In addition to the present issues of $13,500,000 Series "A" 6% and $17,500,000 Series "B" 5% the mortgage provides for the issuance of bonds thereunder in series bearing the same or different rates of interest, dates, maturities, redemption provisions, and such other distinguishing features with respect to each particular series as may be determined by the Board of Directors of the Company at the time of the original issue of each series, subject always to restrictive provisions of the mortgage.

Additional bonds of any series may be issued from time to time in principal amounts, equal to and for the acquisition or retirement of $930,000 divisional lien bonds (Detroit & Suburban Gas Co.) outstanding with the public, and for bonds of other series issued under this mortgage. Bonds may also be issued for not exceeding 75% of the fair value or original cost (as defined in the mortgage), whichever is less, of additional property acquired or for additions to and extensions, betterments and improvements of the property, provided, however, that net earnings (as defined in the mortgage) for any 12 consecutive months within the 14 calendar months immediately preceding the date of the application for such bonds shall have

been at least 1¾ times the annual interest charges on divisional lien bonds outstanding with the public and all First Mortgage bonds outstanding and those proposed to be issued.

The First Mortgage contains appropriate provisions permitting the modification thereof or of any supplemental indenture in any particular, with the assent of the holders of 75% in aggregate principal amount of the outstanding bonds, not including any bonds owned by the Company, or by any corporation of which the Company is a subsidiary, or by any other subsidiary of such corporation; provided, however, that nothing shall permit the extension of the maturity of any bonds or the reduction in the rate of interest thereon, or any other modification in the terms of payment of principal or interest, without the consent of the holder thereof, nor the creation by the Company of any mortgage or lien in the nature of a mortgage ranking prior to or on a parity with the lien of the First Mortgage.

The mortgage also provides that so long as the Series "A" bonds remain outstanding, no cash dividends on the Common stock shall be declared or paid from and after July 1, 1922, except out of earnings subsequent to that date.

Purpose of Issue—Proceeds from sale of Series "A" bonds provided funds for the retirement of $5,995,000 Gold Mortgage 5% bonds, due Jan. 1, 1923, $3,505,000 General Mortgage 5% Gold bonds, due July 1, 1923, and to partially reimburse Company for construction and improvements theretofore made. In April, 1926, $10,000,000 Series "B" bonds were issued to reimburse Company for additions and betterments made previously to Aug. 31, 1925, and when publicly offered in December, 1926, did not represent new financing by the Company at that time. In July, 1927, $7,500,000 additional Series "B" bonds were issued and used to reimburse Company in part for additions and betterments made to March 31, 1927.

Callability—Subject to call at option of the Company in whole or in part at any time upon 60 days' published notice at 107½ to and including July 1, 1932; at 105 thereafter to and including July 1, 1942; at 101 thereafter to and including July 1, 1946, and after July 1, 1946, at the principal amount thereof, plus accrued interest in each case.

Security—The mortgage securing these bonds is a direct first lien upon all the fixed properties, rights and franchises of the Company with the exception of that part formerly owned by the Detroit & Suburban Gas Co., representing about 2% of the total value of the property, which is subject to the lien of a closed mortgage under which there are outstanding $930,000 bonds.

The First Mortgage Gold Bonds eventually will be secured by a direct first lien on the entire property of the company, inasmuch as the property covered by the Detroit & Suburban Gas Co. bonds, upon their retirement, will be conveyed to the Trustee under the First Mortgage.

The mortgage will also cover all fixed property hereafter acquired.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Tax exempt in Michigan to residents of that State. Pennsylvania four mill tax refunded upon application within 60 days, to residents in that State.

Original Offering—Series "A" bonds first publicly offered ($13,500,000) in July, 1922, at 97½ and interest, yielding about 6.20% by Halsey, Stuart & Co., Inc., The National City Co., Lehman Bros. and Goldman, Sachs & Co., New York, etc. Series "B" bonds first publicly offered ($10,000,000) in December, 1926, at par and interest by Otis & Co., Cleveland, etc.; Halsey, Stuart & Co., Inc., Marshall Field, Glore, Ward & Co., Lehman Brothers and Redmond & Co., New York. $7,500,000 additional Series "B" bonds were publicly offered in July, 1927, at par and interest by Otis & Co., Cleveland, etc.; First National Co. of Detroit, Inc., Halsey, Stuart & Co., Inc., Marshall Field, Glore, Ward & Co., Lehman Brothers and Redmond & Co., New York, etc.

FUNDED DEBT

$11,500,000 FIRST MORTGAGE GOLD BONDS 4½% SERIES; DUE MARCH 1, 1967

Dated March 1, 1927.

Interest Payable March and September 1, at The Union Trust Company of Pittsburgh, (Pa.) and in New York City.

Denominations—Coupon (principal may be registered), $1,000, and fully registered, $1,000, $5,000 and authorized multiples. Coupon and fully registered bonds interchangeable.

Provisions of Issue—Series of 4½s due 1967 is limited to an authorized amount of $25,000,000; issued, $11,500,000. In addition the mortgage provides for issuance of bonds thereunder in series bearing the same or different rates of interest, dates, maturities, redemption provisions, and such other distinguishing features with respect to each particular series as may be determined by supplemental, indenture authorized by the Board of Directors of Company at time of the original issue of each series, subject to restrictive provisions of the mortgage. Additional bonds of any series may be issued from time to time for 80% of the net amount, as defined in the mortgage, of additional property, as defined in the mortgage, purchased, constructed or otherwise acquired subsequent to January 1, 1928. Additional bonds of any series may also

be issued from time to time for the acquisition or retirement of bonds of any series issued under this mortgage subject to the limitations set forth in the mortgage. The Mortgage contains provisions permitting the modification thereof or of any supplemental indenture, in any particular, with the assent of the holders of 75% of the outstanding bonds; provided, however, that nothing shall permit the extension of the maturity of any bonds or the reduction in rate of interest thereon, or any other modification in terms of payment of principal or interest, or any change in terms of redemption prior to maturity, or any change in the covenants as to payment or refunding of taxes, without consent of the holder thereof, nor the creation by Company of any mortgage or lien in the nature of a mortgage ranking prior to or on a parity with the lien of the Mortgage.

Purpose of Issue—Proceeds of the $11,500,000 4½% Series due 1967 were to be used to refund $9,097,000 par amount of Company's First Mortgage 4% Gold bonds, due May 1, 1927, to reimburse Company for additions and betterments already made and for Company's estimated 1927 requirements for capital purposes.

Callability—Subject to call at any time in whole or in part by lot, on 60 days' notice, up to and including March 1, 1937, at 107½ and interest thereafter, up to and including March 1, 1947, at 105 and interest, thereafter up to and including March 1, 1966, at 102½ and interest and at par and interest thereafter prior to maturity.

Security—From and after May 1, 1927, this issue of bonds constitute the Company's only funded debt and are now secured by a first mortgage on all the physical properties, rights and franchises of the Company now owned or hereafter acquired, except the Company's general office plant in Milwaukee and the tar plant in North Milwaukee.

Tax Provisions—Company pays Normal Federal Income tax up to 2%, and agrees to refund upon proper application the Pennsylvania 4 mills tax and any Massachusetts Income tax not to exceed 6% per annum.

Legal Opinion—Miller, Mack & Fairchild, Milwaukee, (for the Company), and Simpson, Thacher & Bartlett, New York, (for the Bankers).

SOUTHERN LIGHT AND TRACTION COMPANY

(Affiliated with American Light & Traction Company)

History—Incorporated Sept. 6, 1899, in N. J. Formerly owned the entire issues of bonds of the San Antonio Gas & Electric Co. and the San Antonio Traction Co. See "Exchange of Bonds" below. Franchises expire 1940.

CAPITAL STOCK

Authorized and outstanding, $1,805; par, 10 cents per share. All owned by the American Light & Traction Co. Annual meeting, first Monday in October.

FUNDED DEBT

$201,000 Collateral Trust Gold 5s; dated Sept. 1, 1899; due Sept. 1, 1949; int. March and Sept. at New York Trust Co., Trustee. Coupon, $1,000 principal may be registered. Authorized and issued, $2,500,000 of which $2,299,000 had been retired to Dec. 31, 1927. Subject to call as a whole or in part at 105 and int. at any time upon 6 months' notice. Formerly secured by pledge with the trustee of entire outstanding First Mortgage bonds of the San Antonio Gas & Electric Co. and San Antonio Traction Co. (see under "Exchange of Bonds" below).

Exchange of Bonds—The company by circular dated March 2, 1914, notified holders of the above bonds to present their bonds to the New York Trust Co., and receive in exchange therefor First Mtge. bonds of the San Antonio Gas & Electric Co. and San Antonio Traction Co. The circular of March 2, 1914, said in part, as follows: "The company owns the entire $1,968,000 First mortgage 5% bonds (each issue $984,000) of the San Antonio Gas & Electric Co. and of the San Antonio Traction Co., known as the operating companies, and no more of either issue can be issued. Except aforesaid bonds, your company owns no property or assets whatsoever. To each holder of a $1,000 bond of Southern Lt. Trac. Co. will be distributed one First mortgage $500 bond of San Antonio Gas & Electric Co. and one First mortgage $500 bond of San Antonio Traction Co. The actual value of each operating company is several times the face value of its outstanding bonds and the advantages of a straight first mortgage bond are obvious. Holders will please forthwith present their bonds for exchange." All but $201,000 of the bonds had been exchanged at Dec. 31, 1927.

OKLAHOMA POWER AND WATER COMPANY

History and Property—Incorporated in Jan., 1928, in Delaware and acquired a group of electric, gas and water utility properties operating in the vicinity of Tulsa, Okla., which were formerly owned and controlled by the Sand Springs Home, Inc. Company supplies electric, gas and water service without competition to domestic and industrial consumers in Sand Springs, Okla., and the so-called "Interborough District" lying between Tulsa and Sand Springs. In addition, the company's electric transmission lines cover a large territory in Osage County north and northwest of Tulsa. The population served directly is estimated at 35,000. As part of the consideration for the sale of franchise rights and property within the city limits of Tulsa to the Public Service Company of Oklahoma, the Oklahoma Power & Water Co. has a contract under which a determined pro-rata share of the electric load for that portion of Tulsa known as the West Tulsa District will be supplied by the Company at a favorable wholesale rate. The properties of the company include a power plant at Sand Springs, with a rated generating capacity of 27,800 k.v.a. and about 230 miles of electric transmission lines. Natural gas is largely obtained from the Osage Indian Gas Lease covering about 104,000 acres in Osage County, Okla. It is transported about 25 miles and distributed

through a system including about 59 miles of mains. The water supply is impounded in Shell Creek Reservoir by an Ambursen type concrete dam 73 feet high and 1,350 feet long at the crest. The reservoir covers an area of approximately 628 acres and has a capacity of 3,000,000,000 gallons. The water flows by gravity about 12 miles to Sand Springs and the industrial section and is pumped through the distribution system of about 32 miles and to the service reservoir. The electric system is interconnected with the lines of the Oklahoma Gas & Electric Co. at Sand Springs and with those of the Public Service Co. of Oklahoma at Tulsa. A pipe line connection has been made with the transmission system of the Oklahoma Natural Gas Corporation and a water main owned jointly with the City of Tulsa connects with the water system of that system. These interconnections insure continuous and satisfactory service.

CAPITAL STOCK

Authorized, 60,000 shares Common of no par value and $6,000,000 6% cumulative Pfd.; outstanding, 60,000 shares Common and $3,040,000 Pfd. $2,000,000 additional Pfd. stock is held in the Company's treasury.

FUNDED DEBT

$4,500,000 FIRST MORTGAGE 5% TWENTY-YEAR GOLD BONDS, SERIES "A"; DUE FEBRUARY 1, 1948

Dated February 1, 1928.

Interest Payable February and August 1, at Harris Trust & Savings Bank, Chicago, or at Harris, Forbes & Co., New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustees—Harris Trust & Savings Bank, Chicago and Harold Eckhart.

Provisions of Issue—Authorized amount, unlimited; issued, Series A, $4,500,000.

Additional bonds of other series having such rates of interest, maturity dates and other provisions as the Board of Directors may determine, and as are permitted by the mortgage, may be issued: (a) For the purpose of refunding an equal principal amount of bonds of any series outstanding under the mortgage or of any bonds which may be outstanding as a prior lien against property hereafter acquired, or (b) for not more than 75% of the cost or fair value, whichever is less, of property additions (as defined in the mortgage and excluding additions to or expenditures in connection with the natural gas production and transmission properties) constructed or acquired subsequent to February 1, 1928. No additional bonds may, however, be issued, except for refunding purposes, unless net earnings (as defined in the mortgage), for twelve consecutive calendar months ending not more than 90 days preceding application for issuance, shall have been at least equal to twice the annual interest requirements on all outstanding prior lien bonds and all bonds issued and outstanding under the mortgage, including those proposed to be issued.

Purpose of Issue—Proceeds were used to provide a part of the purchase price of the properties acquired by the Company.

Callability—Subject to call on any interest date on 60 days' notice at 102½ and interest up to and including Aug. 1, 1938; the premium decreasing ¼ of 1% for each full year or fraction thereof elapsed thereafter to maturity.

Maintenance and Improvement Fund—The mortgage provides that the Company shall deposit with the Trustee, within four months after the last day of each calendar year, commencing with the calendar year 1928, an amount in cash equal to 5% of its gross earnings from the operation of its water properties and 12½% of its gross earnings from other utility operations during the preceding calendar year (excluding from such gross earnings an amount equal to the cost of electricity, gas or water purchased and an amount for gas produced and sold based on the average unit cost of gas purchased but not exceeding 15 cents per 1,000 cubic feet), less the amounts actually expended during such year for maintenance and repairs and for renewals and replacements of property other than natural gas producing and transmission property. The money so deposited may be withdrawn (1) for further maintenance, repairs, renewals and replacements; (2) to pay for extensions and additions to the properties, which shall not be made the basis for issuing additional bonds; or (3) for the purchase or redemption of underlying bonds and bonds of this issue. The above percentages and maximum unit cost of gas are subject to periodical redetermination.

Special Fund—The Mortgage provides that subsequent to Oct. 31, 1927 and prior to Feb. 1, 1934 the Company will expend for property additions (as defined in the mortgage) not less than $540,000 against which no bonds shall be issued. The Company will be at liberty to make this expenditure at a rate of not less than $90,000 a year. In lieu of property additions this fund may be applied to the redemption of bonds of this series.

Security—Secured by a direct first mortgage on the entire fixed property acquired by the Company. There are also pledged under the mortgage the Osage Gas Lease and contract with the Public Service Company of Oklahoma. The mortgage contains provisions permitting its modifications (except in certain important particulars) with the assent of the Trustee and the holders of 80% in aggregate principal amount of bonds outstanding thereunder.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania, Connecticut and California personal property taxes not exceeding 4 mills per $1.00 per annum and Massachusetts Income Tax on the interest not exceeding 6% of such interest per annum refunded upon application within 60 days after payment.

Legal Opinion—Cutting, Moore and Sidley, Chicago.

Original Offering—First publicly offered ($4,500,000) in Feb., 1928, at 96½ to yield about 5.30% by Harris, Forbes & Co., H. M. Byllesby & Co., Inc., New York; Harris, Forbes & Co., Inc., Boston and Harris, Forbes & Co., Ltd., Montreal.

Listed—Boston Stock Exchange.

CORPUS CHRISTI GAS CO.

History and Property—Incorporated Sept. 28, 191 in Tex., to furnish gas in Corpus Christi, Tex. Op erates under 30-year franchise with automatic renew al clause. Plant, together with 20 miles of main completed Oct. 1, 1914. Population served, 18,00 No. of meters, 862. Capacity of holders, 110,000 cu. f Price, $1.50 gross, $1.40 net.

In the early part of 1923 natural gas was discovere at White Point, Texas, about 20 miles from Corpu Christi. Thereupon, Company made a contract wit the owners thereof for the delivery and sale of natur gas to it and the owners of the White Point field co structed a pipe line from their gas wells to within 3,0 feet of the corporate limits of Corpus Christi, wher upon the city secured an injunction restraining th Company from performance of the work necessary t connect up its gas mains with the natural gas pipe lin The case was finally argued in July, 1925, but th Manual has never been informed as to the decisio In the meantime the city has gone into the natur gas business and is supplying gas to the residen thereof, thereby offering competition to Company.

In view of the above the Company has delaye the development of its business, pending settleme of litigation. Owners of the natural gas interests White Point, referred to above, intimated that th would stand ready to either purchase the Company property or consolidate their interests with the Cor pany, as soon as said litigation shall have been term nated in a satisfactory way and providing that th injunction against the Company shall have been di missed. As of July 1925 Company was not in recei of a definite proposition, either way, from the owne of the natural gas interests.

In 1925 the following two plans were suggested bondholders in an endeavor to clear up past d coupons:

(1) A group of bondholders suggested that the bon continue to stand, as at present, and that the Compa authorize an issue of Pfd. stock, and that sufficie shares of such Pfd. stock be then issued and deliver to each bondholder, at its face or par value, in pa ment for past due interest coupons, thereby liquidatin collecting in and cancelling all of such past due sen annual interest coupons.

(2) Another group of bondholders proposed t authorization of a larger Pfd. stock issue than th necessarily anticipated in the first plan above me tioned, and that such Pfd. stock be then issued to bon holders in exchange for both past due interest coupo and also the bonds themselves.

No later information available.

SOUTHEASTERN POWER AND LIGHT COMPANY

(See Accompanying Map)

History—Incorporated, Sept. 2, 1924, in Maine as a curity holding company to acquire and hold securis of public utility companies and properties. Under ms of agreement dated Oct. 10, 1924 it acquired the sets and assumed the liabilities of Alabama Traction ght & Power Company, Limited (see 1924 Manual, ge 1748, or apply to our Information Department), an agreement whereby two shares of its Common ck were issued in exchange for each share of the mmon stock of the Traction Company and a share its Preferred stock for each share of the Preferred ck of the Traction Company.

At the outset its principal operating subsidiary was abama Power Company. Mississippi Power Comny was next organized as its operating subsidiary eastern Mississippi. Additional properties were bsequently acquired by merger with Southern wer Securities Corporation in Sept., 1925, and four ditional shares of Common stock were issued for ch share then outstanding. Gulf Power Company s formed in 1925 to operate the newly acquired nsacola and other Florida properties.

In 1927, it acquired control of Georgia Railway and wer Company and by the latter's consolidation with ner Georgia Companies its operating subsidiary, orgia Power Company was formed. Georgia Power mpany controls Georgia Light, Power & Railways d subsidiaries and owns the capital stock of Mutual ght and Water Company.

ts operating subsidiary in South Carolina is South rolina Power Company, the organization of which es from December, 1926, when a consolidation was ected of the public utilities serving the City of arleston, S. C.

The present Alabama Power Company was organd late in 1927 by the consolidation of the former npany of that name with two other subsidiaries erating in Alabama, Gulf Electric Company and Houston Power Company and the new company now serves practically all of the State of Alabama.

Territory—Its subsidiaries furnish electric service throughout substantially the entire state of Alabama, eastern half of Mississippi, northwestern portion of Florida, northern and east central sections of Georgia and the southeastern section of South Carolina.

A total of 467 towns and rural communities receive electric service directly from its subsidiaries and 119 others are indirectly served through other utilities, municipalities and industrial customers. Subsidiaries also furnish gas, local transportation and water service in a number of cities and towns within this area.

The entire territory covers 140,000 square miles with a total population of approximately 4,000,000. During the twelve months ended Feb. 29, 1928, the total energy supply of the systems of the various operating companies was 2,261,764,169 k.w.h; 3,044,724,000 cubic feet of gas was manufactured and 129,937,688 passengers carried by railway and bus operations. As at Feb. 29, 1928 there were connected to the systems of its subsidiaries 235,867 electric customers, 73,173 gas customers and 9,291 water customers.

The territory served by subsidiary operating companies is widely diversified in industry and natural resources. It embraces the iron, steel and coal mining operations in the Birmingham district, the manufacturing and wholesale distributing operations centering in Atlanta, foreign and domestic export and import shipping operations at Charleston, South Carolina, Brunswick, Ga., Pensacola, Florida, Mobile, Alabama, and Gulfport, Miss., textile industries in the Piedmont section of some of the states served and resorts in the coast cities served in Georgia, Florida, Alabama and Mississippi.

Physical Property—The electric generating plants of the several subsidiary companies owned or under lease have a total of 1,252,680 h. p. installed gener-

ating capacity. Of this, the subsidiary companies own hydro electric plants having a total installed capacity of 681,570 h. p. including several of the largest hydro-electric developments in the South. In addition to the plants for the production of electricity now in operation, hydro-electric plants and a steam plant are under construction. Jordan Dam, a hydro-electric project on the Coosa River some 18 miles downstream from Mitchell Dam, will be completed during 1928, with an initial installed capacity of 144,000 h. p. with provision for an ultimate capacity of 216,000 h. p. On the Tallapoosa River, down stream from Martin Dam, there is a dam and power house on the site of an old and obsolete hydro-electric plant known as the Upper Tallassee nearing completion and further down stream from the Upper Tallassee project, work has commenced on the reconstruction and enlargement of the Lower Tallassee project. This series of three plants, Martin Dam, Upper Tallassee and Lower Tallassee will utilize substantially all the river flow and fall of the lower section of the Tallapoosa River. The total operating head of the three plants is practically 300 feet and the initial installed capacity will be over 250,000 h. p.

On the Warrior River, adjacent to the present Gorgas Steam Plant, a new steam plant is now being constructed with an initial installation of 80,000 h. p. This plant will use powdered fuel, and will be designed for an ultimate capacity of 320,000 h. p. These plants are adjacent to the property of Southeastern Fuel Company, also a subsidiary of Southeastern Power & Light Company which owns 12,000 acres of coal land estimated to contain 138,000,000 tons of recoverable coal.

Electric properties owned and operated by the Georgia system include 20 hydro-electric plants with an installed capacity of 363,290 h. p. and several reserve steam plants having a total capacity of 38,64 h. p.

Additions to the Charleston steam plant were completed in 1927 making its present capacity 25,460 h. Reserve steam stations are also maintained in several of the more important cities in Mississippi, Alabama and Florida and Alabama Power Company has leased for the past seven years the 80,000 h. p. steam plant at U. S. Nitrate Plant No. 2 at Muscle Shoals, Al and it purchases considerable energy from the U. S. Government at Wilson Dam, on the Tennessee Rive

Practically all of the subsidiary electric companies are interconnected by a system of transmission and distribution lines totaling 6,450 circuit miles in length and operated at voltages up to 154,000 volts. In addition there are 6,767 miles of secondary low voltage distribution lines located mostly in cities and towns served. Interconnections are also maintained with other companies in Georgia, Tennessee and South Carolina. These interconnections have proved of great economic value to its subsidiaries, and to the other companies, particularly in times of low river flows.

Authorized, 5,000,000 shares Common, 750,000 shares $7 cumulative Pfd., 250,000 shares $6 cumulative Pfd., and 1,000,000 $4 cumulative participating Pfd., all classes of no par value; outstanding, Dec. 31, 1927, 2,117,138 shares Common, 101,000 shares $7 Pfd., 20,945 shares $6 Pfd., and 428,674 shares $4 Pfd. In addition to the above stock, there were outstanding on Dec. 31, 1927, 479,378 option warrants each giving the right to purchase one share of Common stock at $50.

Preferred Stock Provisions—The $7 Pfd. stock and the $6 Pfd. stock are entitled, pari passu, in preference to the Participating Pfd. stock and the Common stock to cumulative dividends at the rate of $7 per share per annum and $6 per share per annum, respectively, and to preference in distribution of assets to $100 a share and accrued dividends.

The Participating Pfd. stock is subordinate to the $7 Pfd. and $6 Pfd. but has preference over Common stock as to dividends and distribution of assets in the amount of $100 a share. It is entitled to cumulative dividends at the rate of $4 per share per annum for each of the years 1926, 1927 and 1928, to $5 per share per annum for each of the years 1929, 1930 and 1931 and to $6 per share per annum for each year thereafter. It is further entitled to receive, or to have funds set apart for the payment of additional dividends at a rate per share in any calendar year which will make the total dividends on this class of stock for such year $7 per share (in addition to any amounts paid on account of accumulated dividends in arrears) before cash dividends in excess of $6 per share shall be paid on Common stock in such year. This additional dividend however, shall not be cumulative.

None of the Pfd. stock has voting rights except those purposes for which the right cannot be waived under the laws of Maine, however, no new class of stock may be created which is entitled to dividends or shares in distribution of assets in priority to the $ Pfd. stock or the $6 Pfd. stock without the consent of the holders of 90% of the shares of the $7 Pfd. stock and $6 Pfd. stock (irrespective of class) then outstanding.

Callability—The $7 Pfd. and $6 Pfd. stocks are redeemable in whole or in part at any time upon 3 days' notice at $110 and accrued dividends. The Participating Pfd. stock is subject to call at 105 and accrued dividends upon 30 days' notice.

ALABAMA POWER COMPANY

(Controlled by Southeastern Power and Light Co.)

History—Alabama Power Company was organized in November, 1927, under the laws of Alabama as a consolidation of Gulf Electric Company, Houston Power Company and the former Alabama Power Company, which had been incorporated on December 4, 1906, in Alabama, for the purpose of acquiring and developing hydro-electric power sites and conducting the business of generating and distributing electric power and operating public utility enterprises within that State.

In 1913, 1915 and 1917, Alabama Power Company acquired by merger and purchase several corporations owning undeveloped power sites, reservoirs, lands and operating public utilities as follows: Alabama Electric Co., Wetumpka Power Co., Alabama Power and Electric Co., Alabama Power Development Co., Decatur Light, Power & Fuel Co., Anniston Electric & Gas Co., Etowah Light & Power Co., Huntsville Ry., Light & Power Co., Pell City Light & Power Co., Lincoln Light & Power Co. and Little River Power Co.

The street railway and electric lighting and power distribution system serving Gadsden and Alabama City were acquired in 1919 by purchase. The gas and electric lighting and distribution system of Selma was acquired by purchase in 1920. In Feb., 1923, Company acquired the entire electric, gas and street railway properties serving the city of Montgomery and its vicinity; and in November, 1923, acquired the entire electric, gas and street railway properties of the Tuscaloosa Railway and Utilities Company, serving the city of Tuscaloosa and its vicinity. In March, 1925, the Company acquired the electric and street railway and properties of The Sheffield Company, Sheffield, Ala., and the properties of the Birmingham, Montgomery & Gulf Power Company. By the consolidation in November, 1927, it added to its system extensive utility properties in southern Alabama.

Territory and Business—The Company's properties are all located in Alabama and it serves directly or at wholesale nearly all the urban population and commercial electric power requirements of the State. The Company does, directly, all the electric light and power business in some 267 communities, including Mobile, Montgomery, Attalla, Anniston, Tuscaloosa, Gadsden, Selma, Talladega, Roanoke, Decatur, Eufaula, Huntsville, Demopolis and the Muscle Shoals District, and it furnishes at wholesale all the power requirements of the utilities serving Birmingham, Bessemer and six other communities. It does the entire commercial gas business in Montgomery, Anniston, and three other communities, and the local transportation business in Montgomery and five other communities.

The Company now is serving directly a total of 88,748 electric customers and electric service is being supplied directly and indirectly to approximately 169,000. The present connected load of the system is approximately 875,524 h.p., and for the year ended Dec. 31 1927, the electrical output of the system was 1,759,143,119 k.w.h.

Properties—The property of the Company include three of the largest hydro-electric developments in the South with a present combined capacity of 317,000 h.p. Lock Twelve hydro-electric plant on Coosa River, 45 miles southeast of Birmingham, has a completed installation with six generating units aggregating 110,000 h. p. capacity. The Mitchell Dam plant, located on Coosa River 14 miles downstream from the Lock Twelve plant, has a present installed capacity of 72,000 h.p., with provision for an ultimate capacity of 120,000 h.p.

Martin Dam, the principal plant on the Tallapoosa River, is located at Cherokee Bluffs, and has a present installed capacity of 135,000 h.p. with provision for an ultimate capacity of 180,000 h.p. This development provides for the storage of flood waters to be released whenever required, the reservoir covering approximately 40,000 acres of land. Waters so impounded are available for use not only at the Martin Dam plant but also at two plants further downstream on the Tallapoosa River known as Upper Tallassee and as Tallassee Falls plants. The Upper Tallassee plant, seven miles downstream, now being rebuilt for an ultimate installation of 75,000 h.p., should be in operation about June, 1928, with an installation of 50,000 h.p. Immediately downstream from the Upper Tallassee project work has commenced on the reconstruction and enlargement of the Lower Tallassee plant; the full development when completed will have an ultimate capacity of about 120,000 h.p. Upstream from Martin Dam on the Tallapoosa River, a series of three or more plants have been planned for which the necessary governmental authority, including Federal license, has been obtained.

Construction of another hydro-electric plant at Lock Eighteen on the Coosa River, known as Jordan Dam, will be completed during 1928, with an initial installation of 144,000 h.p., and with provision for an ultimate installation of 216,000 h.p.

The Gorgas reserve steam plant with a capacity of 100,000 h.p., is one of the largest steam generating stations in the South. It is located at Gorgas, 25 miles northwest of Birmingham on the Black Warrior River in the heart of the Warrior Coal Fields.

Alabama Public Service Commission has granted to Alamaba Power Company a certificate of convenience and necessity for the erection of a new steam plant near the present plant at Gorgas, Ala. Construction of this plant has been started and the first unit of 80,000 h.p. capacity should be in operation during the Spring of 1929. The station will be designed to

mit an ultimate capacity of 320,000 h.p. to be developed as demand requires.

In addition, the Company owns a steam station of 1000 h.p. capacity located at Gadsden, 60 miles northeast of Birmingham, and a steam plant at Montgomery of 6,700 h.p. capacity.

Miles of Street Railway Track—Montgomery and vicinity, 33; Anniston, 11; Huntsville, 4; Gadsden, 13; Tuscaloosa and vicinity, 11; Sheffield, 16—total, 88.

Miles of Gas Mains—Montgomery, 59; Tuscaloosa, 34; Anniston, 35; Decatur, 16; Selma, 19—total, 163.

Franchises—The franchises under which the Company operates are, with minor exceptions, in the opinion of counsel, without time limit.

The combined capacity of the aforementioned plants is 330,290 h. p.

In addition, the Company has two steam stations in Atlanta; one at Butler Street with an installed capacity of 8,710 h. p.; and one at Davis Street with an installed capacity of 12,000 h.p. It also owns steam stations at Athens, Milledgeville and Statesboro and at 18 other sites with an installed steam plant capacity of 33,678 h. p. The combined owned water power and steam plant capacity aggregates 363,968 h. p.

The capacity of the water storage reservoirs is as follows: Burton, 4,647,000,000 cu. ft.; Nacoochee, 110,000,000 cu. ft.; Mathis, 1,369,000,000 cu. ft.; Tallulah 63,000,000 cu. ft.; Tugalo, 500,000,000 cu. ft.; Yonah, 150,000,000 cu. ft.—total, 6,839,000,000 cu. ft.

Over 2,245 circuit miles of transmission and primary distribution lines inter-connect power stations of the company and its subsidiaries. The Company also inter-changes power with five other major power companies in Alabama, Georgia, Tennessee, North Carolina and South Carolina.

Territory and Business—The Company and its subsidiaries and controlled companies supply electric light and power service directly or indirectly to 168 communities in Georgia. 122 of these communities including the City of Atlanta, as well as a number of other thriving manufacturing towns such as Macon, Brunswick, Rome, Athens, Dalton and Gainesville, are served directly by the Company. The total number of electric customer meters served directly by the Company and its subsidiaries as of Dec. 31, 1927, was 97,117. In addition, 46 municipalities are served wholesale for distribution to the local consumers within their respective borders. The estimated population of the territory served is 1,915,000.

The gas systems operated by the Company and its controlled companies furnish service to an estimated population of approximately 400,000 in and adjacent to Atlanta, Macon, Athens and Brunswick. These systems serve an aggregate of 49,479 customers.

Street railway service is furnished by the Company and its controlled companies in Atlanta, Macon, Rome and Athens. During 1927 these transportation systems carried 105,118,460 passengers.

Trustee—The New York Trust Co., New York.

Provisions of Issue—The Mortgage provides that bonds may be issued thereunder in unlimited amount, in one or more series, in such amounts and having such rates of interest, such maturity dates and such other provisions within the limitations of the Mortgage as the Board of Directors may from time to time determine. Outstanding Dec. 31, 1927, $63,000,000 5% Series due 1967. Issued to retire $25,087,000 bonds of predecesor companies, $15,000,000 against the property as it existed Nov. 1, 1926, $22,912,500 to reimburse Company for expenditures incurred for construction and for other corporate purposes.

Additional bonds of Series "A" or other series may only be issued however, for the purposes and in accordance with the restrictions provided in the Mortgage, which include the following: (a) To refund, in whole or in part, an equal principal amount of existing underlying bonds, prior lien bonds as defined in the mortgage and bonds of any series issued under the Mortgage. (b) Against the deposit of an equal amount of bonds of Atlanta Gas Light Co. secured by a mortgage to The New York Trust Co., Trustee, dated March 1, 1927. If and as long as any Atlanta Gas Light Company bonds are deposited with the Trustee of the Mortgage, no bonds of that company may be issued to the public. (c) Against cash to an equal amount. (d) In principal amount not to exceed 75% of the cost or fair value to the Company, whichever is less, of property additions (as defined in the Mortgage) made or acquired

subsequent to November 1, 1926, or for not more than 75% of the cost or fair value to a subsidiary company, whichever is less, of subsidiary property additions (as defined in the Mortgage), but no bonds may be issued against subsidiary property additions unless not less than an equal principal amount of first mortgage bonds of said subsidiary company (as described in the Mortgage) as simultaneously pledged with the Trustee of the Mortgage.

No addtional bonds, however, may be issued under the Mortgage except for refunding purposes unless net earnings (as defined in the Mortgage) for twelve consecutive calendar months within the fifteen calendar months immediately preceding a date not earlier than 15 days before the application for issue shall have been at least equal to either (a) twice the annual interest requirements on or (b) 12% of the aggregate principal amount of all outstanding underlying bonds, prior lien bonds (as defined in the Mortgage) and outstanding Atlanta Gas Light Company underlying bonds (so long as the shares of stock of that Company are pledged with the Trustee), and all bonds issued and outstanding under the Mortgage, including those proposed to be issued.

The Mortgage contains certain provisions permitting, on conditions stated therein, the modification or alteration of the bonds or the Mortgage or of any supplemental indenture with the assent of the Company and of the holders of not less than 85% in aggregate principal amount of the outstanding bonds, not including any bonds owned by the Company; provided that any such modification or alteration shall not permit, without the consent of the holders affected, the extension of the maturity of any bonds, or the reduction in rate of interest thereon, or any other modification in the terms of payment of such principal or interest.

Callability—Subject to call as a whole or in part at any time before maturity on not less than 30 days' notice at par and interest to date of redemption, together with premium of 5% if redeemed on or before March 1, 1937, and if redeemed thereafter and before maturity, together with a premium of 5% of such principal amount less one-sixth of 1% for each full year elapsed since March 2, 1936.

Security—Secured by a first mortgage on certain electric light and power properties, which properties have an estimated value of approximately one-half of the value of the entire fixed properties of Company; further secured by a direct mortgage on the remaining fixed property of Company, (except certain undeveloped land as stated in the Mortgage), subject to closed divisional underlying mortgages securing $18,510,000 of bonds.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania 4 mills tax refundable upon timely application.

MISSISSIPPI POWER COMPANY

(Controlled by Southeastern Power and Light Co.)

History—Incorporated November 24, 1924, in Maine. Soon thereafter it acquired the electric properties of the Gulfport & Mississippi Coast Traction Co., the entire properties of the Hattiesburg (Miss.) Traction Co., Meridian (Miss.) Light & Railway Co., Laurel (Miss.) Light & Railway Co., Mississippi Public Service Company, and several other electric properties including Bay St. Louis, and municipally-owned properties in Houston and Starkville. The electric properties serving Columbus, Miss., and 15 other communities in north Mississippi together with the connecting transmission line, were acquired in 1926.

Properties—The various electric properties owned and operated by Company include steam electric generating stations with an aggregate generating capacity of over 30,587 k.v.a., including the 9,000 k.v.a. station at Gulfport. A total of 29,431 customers are served by the distribution systems. Transportation service is rendered in Meridian, Hattiesburg, Laurel and Ellisville. The gas plants at Meridian, Hattiesburg and Columbus have a combined daily generating capacity of 560,000 cubic feet. The distribution systems include 62.62 miles of mains and serve 3,524 customers. The transmission system is connected with Alabama Power Company system and receives hydro-electric service from it, the Company's present isolated steam plants being held in reserve.

Company supplies electric service to a population estimated at over 155,000, in 62 cities and towns, including most of the important communities in the eastern half of the State, including Meridian, Hattiesburg, Biloxi, Gulfport, Pass Christian, Laurel, Columbus, Corinth and Boonville.

Franchises—By virtue of a general law adopted on April 12, 1924, applicable to the Company and under which it is operating, the State of Mississippi granted a franchise without limit as to time and without burdensome restrictions. In addition to such franchise rights from the State, the Company holds also municipal franchises containing no burdensome restrictions, terminating at various times up to 1950, in all (except three) of the cities and towns served.

Additional bonds either of this series, or other series, having such rates of interest, maturity dates and other provisions as the Board of Directors of the Company may determine may be issued, (a) for refunding an equal principal amount of outstanding underlying bonds or prior lien bonds (as defined in the mortgage) or bonds of any series issued under the mortgage; (b) against cash to an equal amount; and (c) for a principal amount of not more than 75% of the cost or fair value to the Company, whichever is less, of property additions (as defined in the mortgage) made subsequent to March 31, 1928.

Additional bonds may not be issued, however, except for refunding purposes, unless the net earnings (as defined in the mortgage) for twelve out of fifteen calendar months immediately preceding a date not earlier than fifteen days before the date of making application for issuance shall have been equal to either (1) twice the annual interest requirements on, or (2) twice 6% of the principal amount of all outstanding underlying and prior lien bonds and all bonds outstanding under the mortgage, including those proposed to be issued.

The mortgage contains provisions permitting, on conditions stated therein, the modification or alteration of the bonds or the mortgage or of any supplemental indenture with the assent of the Company and of the holders of not less than 85% in aggregate principal amount of the outstanding bonds, not including any bonds owned by the Company, if challenged; provided that no such modification or alteration shall permit, without the consent of the holders affected, the extension of the time or times of payment of the principal of or interest on any bond, or the reduction in rate of interest on, or any other modification in the terms of payment of such principal or interest.

Callability—Subject to call as a whole or in part at any time prior to maturity on 45 days' notice; at 105 through April 1, 1933; thereafter at 104 through April 1, 1938; the premium thereafter decreasing ½ of 1% for each four years elapsed since April 2, 1934; and after April 1, 1966 and prior to maturity at 100; plus accrued interest in each case.

Sinking Fund—No provision.

Security—Secured by a direct first mortgage on all property of the Company outside of the City of Pensacola and by a mortgage on all the property in Pensacola except certain land in Pensacola and street railway properties in Pensacola and vicinity as stated in the mortgage, subject to the lien of divisional bonds maturing in 1931 and 1934.

Tax Provisions—Company pays Normal Federal Income tax up to 2%. Pennsylvania Four Mills tax refunded to holders resident in that State.

Legal Opinion—Patterson, Eagle, Greenough & Day, New York (for the Bankers); and Simpson, Thacher & Bartlett, New York, and Martin, Thompson, Foster & Turner, Birmingham, Ala (for the Company).

Original Offering—First publicly offered ($2,500,000) in March, 1928, at 99 and interest, to yield about 5.06%, by Harris Trust & Savings Bank, Chicago.

SOUTH CAROLINA POWER COMPANY

(Controlled by Southeastern Power and Light Company)

History and Property—South Carolina Power Company was organized by Agreement of Consolidation dated Nov. 16, 1926, approved Dec. 18, 1926, between Charleston Consolidated Railway and Lighting Company, Charleston Consolidated Railway, Gas & Electric Company, Charleston-Edison Light and Power Company, and Charleston Gas Light Company.

The Company conducts the entire commercial electric power and light and gas business in the City of Charleston, South Carolina, and surrounding territory, and supplies service to Mt. Pleasant and Moultrieville. In addition the Company renders transportation service in Charleston and between the City and North Charleston. The population served is estimated at 85,000. The Company serves 10,421 electric consumers and 7,797 gas consumers. Output in 1927: Electricity, 33,405,000 k.w.h.; gas, 352,404,000 cu. ft.

The Company's electric property includes a modern steam generating station with a present installed capacity of 19,000 k.w., including a unit of 10,000 k.w. installed in 1927 to replace an obsolete 1,000 k.w. unit and the boiler house was extended. There were at Dec. 31, 1927, 296 miles of distribution lines. The gas property consists of a water gas system having an aggregate daily capacity of about 4,500,000 cubic feet, together with 84.18 miles of mains. The transportation system comprises 36.42 miles of track together with appurtenant equipment consisting of passenger cars, work cars, etc.

To meet the future growth of the territory in a sound economical manner, plans are under consideration for the interconnection, through the construction of high tension transmission lines, of the property of South Carolina Power Company with other properties in the State of Georgia which are controlled by Southeastern Power and Light Company. South Carolina Power Company would thus have the benefit of the hydro-electric resources of the Southeastern Power & Light System.

Coupon bonds in denominations of $1,000 and fully registered bonds interchangeable.

Trustee—American Exchange Irving Trust Co., New York.

Provisions of Issue—Issued, $4,000,000 5% Series due 1957. Additional bonds either of this series, or of other series, having such rates of interest, maturity dates and other provisions as directors may determine and as are permitted by the mortgage may be issued as follows: (a) $500,000 principal amount, at option of Company at any subsequent time against property as it existed Dec. 1, 1926; (b) for purpose of refunding an equal principal amount of bonds of any series outstanding under the Mortgage or of outstanding underlying or prior lien bonds; (c) in principal amount not to exceed 75% of cost or fair value to Company, whichever is less, of property additions made subsequent to Dec. 1, 1926, or for not mare than 75% of the cost or fair value to a subsidiary company, whichever is less, of subsidiary property additions, or (d) for cash to an equal amount. No bonds may be issued against subsidiary property additions unless not less than an equal principal amount of First Mortgage bonds of said subsidiary Company are simultaneously pledged with the Trustee. No additional bonds, however, may be issued except for refunding purposes unless net earnings for 12 consecutive calendar months within the 15 calendar months immediately preceding a date not earlier than 15 days before the application for issue shall have been at least equal to either (a) twice the annual interest requirements on or (b) 12% of the aggregate principal amount of all outstanding underlying and prior lien bonds and all bonds issued and outstanding under the Mortgage, including those proposed to be issued. Mortgage contains certain provisions permitting the modification or alteration of the bonds or the Mortgage or of any supplemental indenture with the assent of the Company and of the holders of not less than 85% in aggregate principal amount of the outstanding bonds, not including any bonds owned by Company; provided that any such modification or alteration shall not permit, without the consent of the holders effected, the extension of the maturity of any bonds, or the reduction in rate of interest thereon, or any other modification in the terms of payment of such principal or interest.

Purpose of Issue—These bonds, together with Pfd., Second Pfd. and Common stocks, were issued in connection with the acquisition of constituent properties and this financing resulted in the retirement of $658,000 6% bonds, as well as the liquidation of indebtedness incurred for extensions to the physical property theretofore unfunded. This financing also provided Company with funds for further additions to property and other corporate purposes.

Callability—Subject to call on any interest date in whole or in part, on 30 days' notice, to and including Jan. 1, 1932, at 105 and interest, and thereafter at 1-5 of 1% less for each year elapsed since Jan. 2, 1931.

Security—Secured by a direct mortgage on the entire fixed public utility property, and public utility rights and franchises of Company, subject only to the lien of the Charleston Consolidated Ry., Gas & Electric Co. Consolidated (Closed) Mortgage. The bonds share in the first mortgage lien of the Charleston Consolidated Ry., Gas & Electric Co. mortgage under which $1,686,000 bonds are outstanding with the public, through pledge with the Trustee of an additional $671,000, of such bonds.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania 4 mills tax refunded upon application to resident holders.

Legal Opinion—Winthrop, Stimson, Putnam & Roberts, New York (for the Bankers) and Simpson, Thacher & Bartlett, New York, and Martin, Thompson, Foster & Turner, Birmingham, Ala. (for the Company).

Subsidiary and affiliated companies of Standard Gas and Electric Company, all of which are operated by and under the general management of its subsidiary, Byllesby Engineering and Management Corporation, are the following:

California Power Corporation and Subsidiary, The California Oregon Power Company—Furnish electricity for power and light to 55 communities in southern Oregon and northern California, including the cities of Klamath Falls, Medford, Roseburg, Ashland and Yreka. The properties of the Company include 12 hydro-electric generation stations with combined capacity of approximately 90,000 kilowatts, the output of a considerable part of which is wholesale to other companies.

Fort Smith Light and Traction Company and Subsidiary, Mississippi Valley Power Company—Furnish electricity, gas and street railway service to Fort Smith, Arkansas and electricity to a considerable coal mining and fruit growing region in that state.

Louisville Gas and Electric Company and Subsidiaries—Furnish electricity for power and light and gas to Louisville, Kentucky and environs. Louisville, the metropolis of Kentucky is a railroad, tobacco and manufacturing center. A hydro-electric generating station of 80,000 kilowatts capacity at the falls of the Ohio River at Louisville is practically completed (as of May, 1928) which will increase the generating facilities of the Company to 173,500 kilowatts.

Mountain States Power Company—Furnishes electricity for power and light, gas, steam heat, telephone and/or water service to 88 communities in the states of Washington, Oregon, Idaho, Montana, Wyoming and South Dakota, including Casper, Eugene, Albany, Corvallis and Kalispell.

Northern States Power Company and Subsidiaries—Northern States Power Company system furnishes electricity for power and light, gas, street railway, steam heating, telephone and/or water service to 568 communities having in excess of 1,400,000 population located in the states of Minnesota, Wisconsin, North Dakota, South Dakota and Illinois. The communities served include Minneapolis, St. Paul, La Crosse, Sioux Falls, Fargo, Eau Claire, St. Cloud, Winona, Grand Forks, Mankato and Faribault. The properties of the Company include 49 hydro-electric and steam electric generating stations having a combined total generating capacity of approximately 330,000 kilowatts.

Oklahoma Gas and Electric Company—Furnishes electricity to 147 communities in Oklahoma, including Oklahoma City, Muskogee, Enid, Shawnee, Sapulpa, Ardmore and Guthrie. The generating facilities of the Company include 25 steam electric stations having in excess of 100,000 kilowatts installed capacity. 30,000 kilowatts capacity additional is now (May, 1928) under construction at the Horseshoe Lake Station.

San Diego Consolidated Gas and Electric Company—Furnishes electricity and gas to San Diego, California, and cities, towns and territories adjacent thereto. San Diego located on a splendid natural harbor, is a naval and marine base of great importance, a center of the orange and lemon growing industry and is noted for its temperate climate.

Southern Colorado Power Company—Furnishes electricity for power and light to 58 communities in the extensive industrial, mining and agricultural territory in southern Colorado centering at Pueblo.

Standard Power and Light Corporation and Subsidiaries—A comprehensive public utility system furnishing electricity for power and light, natural and manufactured gas, street railway and other utility services in the city of Pittsburgh and surrounding territory. The generating facilities of the system include 2 steam electric generating stations, having a combined total of 376,500 kilowatts generating capacity. Standard Power and Light Corporation also controls approximately a 40% stock interest in The Market Street Railway System in the city of San Francisco.

Wisconsin Public Service Corporation and Subsidiary, Menominee, and Marinette Light and Traction Company—Furnish electricity for power and light, gas and/or street railway service to 141 communities in northeastern Wisconsin and Menominee County, Michigan, including Green Bay, Sheyboygan, Oshkosh, Manitowoc, Marinette, Two Rivers and Menominee, Michigan. The properties of the system include 9 hydro-electric generating stations having a combined total of 29,618 kilowatts capacity and 3 steam electric generating stations having a combined total of 39,750 kilowatts installed capacity.

Wisconsin Valley Electric Company and Subsidiaries, Wisconsin Valley Power Company, Waupaca Electric Service and Railway Company and Valley Transit Company—Furnish electricity for power and light, gas and/or street railway service to 35 cities and towns in north central Wisconsin, including Wausau, Stevens Point, Antigo, Merrill and Rhinelander. The Company owns and operates hydro-electric and steam-electric generating stations with combined capacity of 17,462 kilowatts and also owns important undeveloped hydro-electric sites.

Shaffer Oil and Refining Company and Subsidiaries—A complete unit in the oil industry, embracing petroleum production, transportation, refining, distribution and marketing. The Company owns or controls oil leases covering 114,000 acres of oil lands, on which are located a total of 569 producing wells, 376 miles of pipe lines, a 10,000 barrel modern refinery at Cushing, Oklahoma and 626 tank cars. The Company has 438 distributing stations in 11 states in the Middle West.

Interest in Pacific Gas and Electric Company—Effective May 1, 1927, Standard Gas and Electric Company became a large stockholder in Pacific Gas and Electric Company as the result of a transaction whereby the properties of Western States Gas and Electric Company, Coast Valleys Gas and Electric Company and Sierra and San Francisco Power Company, in California, formerly subsidiaries of Standard Gas and Electric Company, were merged with the system of Pacific Gas and Electric Company. The system of the latter company almost completely surrounded the holdings of Standard's subsidiaries in that territory, making possibilities for satisfactory expansion exceedingly limited. A transaction was arranged, with the approval of the California Railroad Commission, whereby these properties became part of the Pacific Gas and Electric Company system, and Standard Gas and Electric Company received in exchange for its holdings in these companies, together with certain undeveloped water power sites, cash in the amount of $2,085,000, and 260,000 shares (par value $25) of Common stock of Pacific Gas and Electric Company. The latter company serves San Francisco, Oakland and a great section of central and northern California.

Control of Wisconsin Valley Electric Company and Subsidiaries Acquired—Standard Gas and Electric Company acquired, effective July 1, 1927, control of the properties of Wisconsin Valley Electric Company and its subsidiaries, Wisconsin Valley Power Company, Waupaca Electric Service and Railway Company and Valley Transit Company, with headquarters at Wausau, Wisconsin. The territory served covers the valley of the Wisconsin River from Stevens point on the south to Rhinelander on the north, a distance of about 120 miles, and includes most of the territory from thirty to fifty miles east of the river. A total of 35 cities and towns, with combined population of 78,000, are variously supplied with electricity, gas and street railway service, the principal communities being Wausau, Stevens Point, Antigo, Merrill and Rhinelander. Gross earnings for the year 1927 were $1,616,839 and net earnings, before provision for retirement (depreciation) reserves, were $780,098. The Company operates hydro-electric and steam generating stations with combined capacities of 17,462 kilowatts, and also owns important undeveloped hydro-electric sites. Customers of all classes number 23,743.

The territory served by Wisconsin Valley Electric Company lies between that of Northern States Power Company on the west and Wisconsin Public Service Corporation on the east, both of which companies are part of the Standard Gas and Electric Company system, and its properties are strategically located for inter-connection with properties of the two other companies. Construction of a high voltage transmission line from Stevens Point to Green Bay has been started to inter-connect the Company's system with that of Wisconsin Public Service Corporation, thereby effecting operating economies for both companies through the regular interchange of power.

Sale of Gas Properties—As of Dec. 1, 1927, Oklahoma Gas and Electric Company sold its natural gas properties, consisting of distribution systems in 14 communities, to other interests, thereby enabling the Company to concentrate its entire attention upon the development of its electric power and light business. Effective Dec. 31, 1927, Mountain States Power Company sold its gas properties in the cities of Tacoma, Everett and Olympia, Washington. These gas properties are distant from the principal territories served by the Company, the business of which is chiefly electric power and light service.

New Construction—Net construction expenditures of the subsidiary and affiliated companies during 1927 totaled $48,870,800, the largest in the history of the system. Duquesne Light Company completed the installation of two 40,000 kilowatt steam turbine units during the year. Louisville Hydro-Electric Company, a subsidiary of Louisville Gas and Electric Company, practically completed the construction of a hydro-electric plant, with installed capacity of 80,000 kilowatts, at the falls of the Ohio River at Louisville. The California Oregon Power Company placed in service, early in 1928, the first two units totaling 32,000 kilowatts capacity, of the 48,000 kilowatt Prospect No. 2 hydro-electric development on the north fork of the Rogue River in Oregon. Oklahoma Gas and Electric Company, besides increasing the capacity of its steam-electric station at Byng, Oklahoma, to 17,000 kilowatts, started work on the construction of an extension to its Horseshoe Lake steam-electric station, and will install an additional unit of 30,000 kilowatts capacity. San Diego Consolidated Gas and Electric Company is erecting an addition to its Station B, and is installing an additional 25,000 kilowatt steam-turbine unit. Space will be provided for another unit of the same size to be installed at a later date. The San Diego company also made extensive additions to its gas manufacturing facilities, installing a new generator of 3,300,000 cubic feet daily capacity, which was placed in service early in 1928. Company reports favorable progress on the construction of the 21,600 kilowatt hydro-electric development at Chippewa Falls, on the Chippewa River in Wisconsin, planned for completion in the fall of 1928.

Construction actually completed during the year added a net total of 68,726 kilowatts of generating capacity to the aggregate of the system, which now totals 1,153,103 kilowatts. High voltage transmission lines added during the year totaled 908 miles, and 1,102 miles of electric distributing lines were added. New gas mains and lines measured 122 miles.

The construction budget for the year 1928 is estimated at $53,735,000. In addition to the completion of work already under way, it contemplates the construction of a new steam heating plant for the Allegheny County Steam Heating Company, a subsidiary of the Philadelphia Company, at Pittsburgh. Work scheduled for completion during the year, already begun or authorized, includes the additional generating capacity already described for The California Oregon Power Company, Louisville Gas and Electric Company, Oklahoma Gas and Electric Company, San Diego Consolidated Gas and Electric Company and Northern States Power Company, and will add 194,630 kilowatts of capacity to the system's total.

Maintenance Charges—In addition to the amounts shown as Retirement Reserves and in addition to Undistributed Surplus, all subsidiary and affiliated public utility companies have been maintained at highest operating efficiency, and the cost of this maintenance is included in the operating expenses of the various companies. The amount so spent for maintenance and charged to operation for the year ended Dec. 31, 1927, was $11,339,153.

Taxation—The total taxes of the subsidiary and affiliated public utility companies of Standard Gas & Electric Co. charged through operation in the year 1927 were $10,245,200, equal to 7.02% of the aggregate gross earnings of these companies.

Summary of System Operations—The subsidiary and affiliated public utility companies of Standard Gas and Electric Company, as a whole, enjoyed substantial progress during the year 1927. The properties have been maintained in excellent physical condition and are operated at a high standard of efficiency.

Including all properties now in the system for full periods, 83 cities and towns were added during the year, a number of which had never before enjoyed the benefits of utility services. At the close of the year, the number of communities served was 1,430, with estimated combined population of 6,000,000.

The number of customers of all classes added during the year totaled 82,108, an increase of 5.87 per cent to a grand total of 1,481,029 served as of December 31. Electric connected load, or business served, increased from 2,326,299 kilowatts to 2,576,722 kilowatts, a gain of 10.76 per cent. Electric energy output amounted to 3,670,409,785 kilowatt-hours, an increase of 9.08 per cent; and gas output was 46,805,021,000 cubic feet, a decrease of 8.22 per cent. Aggressive solicitation of new business and the sale of domestic appliances added a large amount of revenue producing load to the system's lines.

Management—The subsidiary and affiliated companies of Standard Gas and Electric Company are operated under the management of Byllesby Engineering and Management Corporation, 231 South La Salle Street, Chicago, Illinois. The entire capital stock of Byllesby Engineering and Management Corporation is owned by Standard Gas and Electric Company.

CHANGES IN CAPITALIZATION

On May 16, 1928 stockholders approved amendment of the Certificate of Incorporation of the Company to provide for the following changes:

(1) The authorized number of shares of the class of stock now designated 7% Prior Preference stock will be increased from 500,000 shares of the par value of $100 each, to 750,000 shares, without par value, and said class will be designated Prior Preference stock. Of said authorized shares of Prior Preference stock a part will be the shares of 7% Prior Preference stock now outstanding, which will be of a series designated Prior Preference stock, $7 cumulative, and with terms as hereinafter provided, and the remainder of said authorized shares of Prior Preference stock will be issuable from time to time in said series or in one or more other series; the stock of each such other series to be entitled and limited, upon any liquidation or dissolution of the Company, to a preference over the other classes of stock hereinafter mentioned to the amount of $100 per share, plus a sum equal to the amount of dividends accumulated thereon and unpaid, to be entitled and limited to cumulative dividends at such rate or rates, not exceeding $7 per share per annum, payable quarterly, before payment of dividends on said other classes of stock, and to have such designations and optional or other special rights, or qualifications, limitations or restrictions thereof, and to be redeemable at such price or prices, if any, as may be stated and expressed in the resolution or resolutions providing for the issue of such stock to be adopted by the Board of Directors of the Company. Said Prior Preference stock shall have no voting power except upon the question of the dissolution of the Company;

(2) The series to be designated Prior Preference stock, $7 cumulative, and of which the 7% Prior Preference stock now outstanding will be a part, will have the same preferences, in amount, as to dividends and assets over said other classes of stock and will be redeemable at the same price as now pertain to said 7% Prior Preference stock;

(3) The authorized number of shares of the class of stock now designated 8% cumulative Pfd. stock will be increased from 600,000 shares, of the par value of $50 each, to 1,500,000 shares, without par value, and said class will be designated $4 cumulative Pfd. stock. Of said authorized shares of $4 cumulative Pfd. stock, a part will be the shares of 8% cumulative Pfd. stock now outstanding. The $4 cumulative Pfd. stock will be entitled to the same preferences, in amount, as to dividends and assets as the 8% cumulative Pfd. stock now outstanding, and will have the same restricted voting power as the Prior Preference stock;

(4) The 6% non-cumulative stock and the Common stock will remain unchanged, except as affected by the foregoing changes. Shares of capital stock of the Company, without nominal or par value, of any class may be issued by the Company from time to time for such consideration as may be fixed from time to time by the Board of Directors thereof.

In a letter to stockholders from John J. O'Brien, President, dated April 6, 1928, it was stated that upon authorization of the amendment by the stockholders, Directors contemplated that an offering of $4 cumulative Pfd. stock would be made by the Company to the holders of stock of that class (the stock now outstanding as 8% cumulative Pfd. stock) in an amount to be determined and at a price below the market. It also was stated that Directors had under consideration a plan which provided for the refunding of the outstanding funded debt of Company with an issue bearing a lower coupon rate, and the retirement of the 7% Prior Preference stock by the issuance of a Prior Preference stock with a lower dividend rate. This program will permit Company to reduce its interest charges and Prior Preference dividend requirements, and to substantially increase the balance of earnings available for the payment of dividends on the $4 cumulative Pfd. stock and Common stock.

CAPITALIZATION AS APPROVED MAY 16, 1928

Authorized, 3,000,000 shares Common of no par value, 750,000 shares Prior Preference stock, $7 cumulative, of no par value, 1,500,000 shares $4 cumulative Pfd. of no par value and $3,000,000 6% non-cumulative stock of $1 par value; to be presently outstanding, 1,418,803 shares Common, 210,000 shares Prior Preference stock, $7 cumulative, 525,480 shares $4 cumulative Pfd. and $1,000,000 6% non-cumulative Pfd.

Stock Increases—In Oct., 1911, the authorized Common stock and the authorized 8% Pfd. were increased from $12,000,000 to $15,000,000 and $30,000,000, respectively. In April, 1923, the stockholders voted to change the $15,000,000 Common stock (par value, $50) to stock of no par value and authorized the increase of Common from 300,000 shares to 600,000 shares. Again in Jan., 1924, the authorized Common stock was increased to 1,000,000 shares.

On April 21, 1926, shareholders voted to increase the authorized Common and 6% non-cumulative Pfd. stock each from 1,000,000 shares to 3,000,000 shares.

For increase authorized May 16, 1928 see a preceding paragraph.

Preferred Stock Provisions—The 7% cumulative Prior Preference Stock has preference as to assets as well as dividends over all other classes of stock. It is entitled to dividends at the rate of 7% per annum, cumulative from April 1, 1924. It is not entitled to vote and is subject to call as a whole or in part at 115 and accrued dividends. Additional shares of the 7% Prior Preference stock may be issued only when net revenue for twelve consecutive months, after deduction of annual interest requirements on total funded debt outstanding at time of the issuance of such additional shares, shall have been at least two times the annual dividend requirement on the Prior Preference stock then outstanding and that proposed to be issued. The 8% Pfd. stock has preference over the non-cumulative and Common stocks and is entitled to cumulative dividends from June 1, 1912 at the rate of 8% per annum, and is non-callable. The non-cumulative stock is entitled to dividends at the rate of 6% per annum, but no more, has voting power and is callable at par. See Changes of Capitalization above.

Transfer Agents—All classes of stock: Standard Gas & Electric Co., 231 South La Salle St., Chicago, and 111 Broadway, New York.

Registrars—7% Prior Pref., 8% Pfd., and Common stocks: Continental National Bank & Trust Co., Chicago, and Guaranty Trust Co., New York.

Original Offering—$7,500,000 7% cumulative Prior Preference at 93½ a share in April, 1924; $3,500,000 at 95½ a share in July, 1924; $5,000,000 at 100 a share in May, 1925, and $3,000,000 at 102 a share in March, 1926 by H. M. Byllesby and Company, New York and Chicago, Hambleton and Company, New York, Janney and Company, Philadelphia, and Federal Securities Corporation, Chicago.

Subscription Privileges—Common stockholders of record August 24, 1925, were given the privilege of

subscribing to additional Common stock of Company at $48 per share, to the extent of one-fifth of the amount of such stock outstanding at the close of business August 24, 1925. Subscription privilege expired and payment in full was due Sept. 23, 1925. Stockholders entitled to subscribe for fractional shares received warrants granting them the privilege of subscribing on or before September 23, 1925, for a scrip certificate representing such fractional share and scrip certificates aggregating one or more whole shares entitled the holder to a stock certificate representing such whole share or shares.

Common stockholders of record December 6, 1927 were given the privilege of subscribing for additional Common stock of the Company at $50 per share to the extent of one-tenth of their holdings. Subscription privilege expired Dec. 28, 1927, and payment in full was due on or before that date. Exercise of these rights required the issuance of 128,775 shares of Common stock.

Annual Meeting—Third Wednesday in May, at Wilmington, Del., or Philadelphia.

Listed—The 8% cumulative Pfd. stock and the Common stock are listed on the Chicago and New York Stock Exchanges. The $4 cumulative Pfd. stock will also be listed in New York and Chicago.

THE CALIFORNIA OREGON POWER COMPANY

(Controlled by Standard Gas and Electric Co., through the California Power Corp.)

History and Properties—Incorporated Oct. 16, 1920, in Cal., as successor under Plan of Reorganization to the California-Oregon Power Co., which had acquired the properties of the Rogue River Electric Co., Prospect Construction Co., Klamath Power Co., Siskiyou Electric Power & Light Co. and the power plant of the Trinity Gold Mining & Reduction Co. (see 1920 Public Utility Manual, page 1406). In 1923, acquired the properties of the Douglas County Light & Water Co. In 1927, merged the Keno Power Co. of Klamath Falls, Ore.

The California Oregon Power Co. supplies without competition electricity for power and light in 55 communities, having a combined population of more than 84,000, located in northern California and southern Oregon, serving in important cities of Medford, Grants Pass, Roseburg, Klamath Falls, Dunsmir, Yreka and many other prosperous cities and towns in an area of approximately 1,800 sq. miles. Water service is also furnished in a number of these communities. In addition to serving the electric requirements in its own territory the Company supplies electric energy, under favorable, long term contracts, to Pacific Gas and Electric Co. and Mountain States Power Co.

Practically the entire generating capacity of the Company is hydro-electric, being over 99% of the present installed 90,168 kilowatts, including 32,000 kilowatts capacity of the new hydro-electric plant on the north fork of the Rogue River in Oregon, known as Prospect No. 2, which was placed in service in January, 1928. The properties of the Company include 1,763 miles of electric transmission and distribution pole lines. At Dec. 31, 1927, the Company served 20,091 electric customers, having 120,161 kilowatts connected load. For the 12 months ended Dec. 31, 1927 the electric output amounted to 374,724,290 kilowatt hours. At Dec. 31, 1927 the number of water customers served was 6,347.

The territory served by the Company embraces an area of approximately 90 by 200 miles, including the greater part of Jackson, Josephine, Douglas and Klamath Counties in Oregon; Siskiyou County and parts of Shasta and Trinity counties in California. The Company has contracted with the U. S. Government for the regulation of Upper Klamath Lake and a storage amounting to 400,000 acre-feet has been made available for the irrigation of the Klamath Basin by the construction of a 20-ft. concrete dam about 400 feet long.

Management—The properties are under the management of Byllesby Engineering and Management Corp.

MISSISSIPPI VALLEY POWER COMPANY

(Controlled by Fort Smith Light and Traction Co.)

History—Incorporated April 27, 1922, in Ark., and is operating approximately 60 miles of 33,000 volt transmission lines, from Alma, Arkansas, to Clarksville, Ark., and Paris, Ark., formerly owned by the Commonwealth Public Service Co. (see 1921 Public Utility Manual, page 331). Ownership of these properties was assumed on July 1, 1922. Has also acquired distribution systems at Alma, Dyer, Mulberry, Ozark, Hartman, Paris Settlement, Altus, Denning, Alix, Lamar and Spadra, all in Arkansas. Coal Hill and Clarksville are also served on a wholesale basis. In addition, the company has acquird lateral pole lines serving intermediate coal mining districts. Power is purchased under a favorable contract running for 25 years from Fort Smith Light & Traction Co. at Alma, Ark.

CAPITAL STOCK

Authorized, $200,000 Common, par, $10 and $1,500,000 Pfd., par, $100; outstanding, $25,000 Common and $50,000 Pfd. The Fort Smith Light & Traction Co. owns all the Common stock, except directors' qualifying shares.

FUNDED DEBT

$400,000 FIRST MORTGAGE GOLD 6s, SERIES "A"; DUE MAY 1, 1947

Dated May 1, 1922.

Interest Payable May and November 1, at Continental National Bank & Trust Co., Chicago, and at First National Bank, New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustee—Continental National Bank & Trust Co., Chicago.

Provisions of Issue—Authorized issue, $25,000,000. Additional bonds may be issued for 75% of the cost of additions and extensions to the properties, provided net earnings, as defined in the Mortgage, for twelve consecutive months ending within 90 days of date of application for the issuance of such bonds, shall have been equal to at least 1¾ times annual interest requirements on bonds of a prior lien and on all bonds outstanding and about to be issued. Bonds may also be issued to retire outstanding bonds of this issue. Such additional bonds may be issued in series, of such date and maturity (but not prior to the maturity of any series then outstanding), bearing interest at such rate, redeemable at such price and having such sinking fund provisions, if any, as may be determined by the directors.

Callability—Subject to call as a whole or in part on 30 days' notice; during the first five years at 105, and thereafter at 1% less for each succeeding five-year period, except that for the last six months prior to maturity, bonds may be redeemed at 100; plus accrued interest in each case.

Sinking Fund.—Semi-annual cash sinking fund payments will be made to the Trustee beginning Nov. 1, 1925, equal to 1% of amount of Series "A" bonds outstanding at respective dates of payment. Cash deposited for sinking fund may be withdrawn by the company for permanent extensions and additions to its properties for which no bonds may be issued. Sinking fund cash not so used is to be applied by the Trustee to purchase of Series "A" bonds in the market, at or below the prevailing call price, and if bonds are not so obtainable, the Trustee will call for redemption a sufficient amount of Series "A" bonds to absorb the sinking fund cash.

Security—Secured by direct first mortgage on entire property of company now owned or hereafter acquired.

Guaranty—Guaranteed as to principal, interest and sinking fund payments by endorsement on each bond by Fort Smith Light & Traction Co.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania 4 mills tax refunded upon application to the company.

LOUISVILLE GAS AND ELECTRIC COMPANY OF DELAWARE

(Controlled by Standard Gas and Electric Co.)

History—Incorporated Feb 17, 1913, in Del., as a holding company.

Owns over 99% of the Common stock of Louisville Gas & Electric Co. (Kentucky), which is engaged in the distribution of electricity, manufactured and natural gas, and steam heat in Louisville and surrounding communities; all the capital stocks, except directors' qualifying shares, of Kentucky Pipe Line Co., Kentucky Coke Co., Madison Light & Power Co., and Louisville Hydro-Electric Co.

The Kentucky Pipe Line Co. is engaged in the transportation of natural gas from the West Virginia fields to Louisville, Ky.; the Kentucky Coke Co. is engaged in the manufacture of electricity and gas in Louisville, Ky., and owns Ivyton Oil & Gas Company which produces gas and some oil, and owns leases and wells; The Madison Light & Power Co. (see Public Utility Manual for 1923, p. 118), acquired by the Louisville Gas & Electric Co. of Delaware in 1923 is engaged in buying, selling, generating and distributing electricity, serving a population of about 9,200 in and near Madison, Ind.

Effective Dec. 1, 1927, Ivyton Oil & Gas Co. and Kentucky Pipe Line Co., subsidiaries of Louisville Gas and Electric Company, entered into a contract to merge certain of their properties with those of Kentucky West Virginia Gas Co. Through this transaction Louisville Gas and Electric Company will receive securities of Kentucky West Virginia Gas Co.

The Louisville Hydro-Electric Company was incorporated April 12, 1922, in Delaware, to construct and operate a power house at the government dam on the Ohio River; its capital stock consists of 10,000 shares of no par value.

Construction work on the hydro-electric station of this company at the falls of the Ohio River, which was started in 1925, was continued during 1927. This station, which will have an initial capacity of 80,000 kilowatts, and is designed for an ultimate capacity of

100,000, is almost completed, and the generating equipment already has operated successfully. It will be placed in regular service, it is expected, in 1928.

The entire hydro development, consisting of power house, dam and transmission line, was built under the direction of the Byllesby Engineering and Management Corp., engineers, managers and construction supervisors for Louisville Gas and Electric Co.

The dam, which was constructed by the Byllesby organization under contract for the Federal government as part of the Ohio River canalization program, is more than a mile and a half long. The power house is of steel and concrete construction, 508 feet long and 50 feet wide. There are eight generators, each with a capacity of 10,000 kilowatts. Power generated at the plant will be transmitted over a steel tower transmission line to the Waterside steam-electric station, whence it will be distributed over the Company's system. The average electrical energy output of the plant is estimated at 400,000,000 kilowatt-hours annually. Upon completion of this project, Louisville Gas and Electric Co. will have total installed generating capacity of 173,250 kilowatts.

CAPITAL STOCK

Authorized, 800,000 shares Common stock, Class "A" and 500,000 shares Common stock Class "B"; outstanding, Dec. 31, 1927, 507,381 shares Common stock, Class "A" and 257,956 shares Common stock Class "B"; both classes without par value. There is also outstanding in the hands of the public $9,707,900 7% cumulative Pfd. stock, $11,485,500 6% cumulative Pfd. stock and $8,600 Common stock of the Louisville Gas and Electric Co. of Kentucky. Standard Gas and Electric Co., at Dec. 31, 1927, owned 233,876 shares of Common stock Class "B."

Stock Provisions—The Class "A" Common stock is preferred as to each quarterly dividend at the annual rate of $1.50 per share over the Class "B" Common stock, and, after the Class "B" Common stock has received the same dividend per share, the Class "A" and Class "B" Common stocks participate equally and ratably, share for share, up to an additional annual rate of 50 cents per share, and thereafter the Class "A" Common stock is entitled to dividends in the ratio of 25 cents per share for each $1.00 per share paid on the Class "B" Common stock. The Class "A" Common stock is preferred to $25 per share in distribution of assets over the Class "B" Common stock, and, after the Class "B" Common stock has received the same amount per share, the Class "A" and Class "B" Common stocks participate equally and ratably, share for share in distribution of assets. The Class "A" Common stock is subject to redemption as a whole or in part at any time upon 30 days' notice at $32.50 per share. Class "A" Common stock has no voting rights. Class "B" Common is entitled to one vote for each share. Directors may dispose of unissued stock of either class or any increase thereof for consideration other than cash and holders of Class "A" and Class "B" Common stock shall have no right to subscribe for any part thereof. Directors may dispose of unissued stock or increase of stock of either class for cash and Class "B" stockholders only shall have the right to subscribe therefor.

Proposed Change in Stock Provisions—Stockholders were to vote at the annual meeting on May 16, 1928, to amend the Certificate of Incorporation providing that whenever, for any quarterly dividend period, dividends at the rate of $1.50 per share per annum have been paid on the Class "A" Common stock and dividends at the rate of $1.50 per annum have been paid on the Class "B" Common stock, any further dividends for such period shall be declared on the Class "A" Common and Class "B" Common stock, share and share alike, with distinction as to class. Under the terms of the amendment the Class "A" Common stock will be non-redeemable and will remain non-voting (except as provided by law).

Transfer Agents—Agency of the Company, New York and Chicago.

Registrars—First National Bank of New York, and Continental National Bank & Trust Co., Chicago.

Legal Opinion—Chapman, Cutler & Parker, Chicago (for the Bankers); Cummins, Roemer & Flynn, Chicago (for the Company).

Original Offering—First publicly offered (450,000 Common Class "A" shares) in May, 1925, at $26 per share, by H. M. Byllesby & Co., Inc., Chicago, New York, etc.

Annual Meeting—Third Wednesday in May, at Wilmington, Del.

Dividends—Dividends are payable quarterly, M, J, S & D 25. Initial quarterly dividends of 43¾ cents per share each on Class "A" and Class "B" stocks, paid Sept. 25, 1925, and at same rate quarterly since.

Listed—Class "A" Common shares are listed on the New York, Chicago and Louisville Stock Exchanges.

LOUISVILLE GAS AND ELECTRIC COMPANY OF KENTUCKY

(Controlled by Louisville Gas and Electric Co. of Del.)

History and Property—Incorporated July 2, 1913, in Ky.; consolidation of Louisville Lighting Co. (see Manual for 1913, page 3518), Louisville Gas Co. (see Manual for 1913, page 3518), Kentucky Heating Co., Kentucky Fuel Gas Co., Kentucky Electric Co. (see Manual for 1913, page 3284), George C. Fetter Lighting & Heating Co., Calor Oil & Gas Co. and Campbell Electric Co., all located in or near Louisville, Ky. Manufactured and natural gas franchises expire June 14, 1933; electric franchise is perpetual.

Louisville Gas and Electric Company System serves electric power and light in the cities of Louisville, Madison, Elizabethtown, Mount Washington, Shepherdsville, Pewee Valley, West Point and surrounding communities and also furnishes electricity on a wholesale basis to the public utilities serving Jeffersonville and New Albany, Indiana. The System furnishes natural and manufactured gas in the cities of Louisville, Camp Taylor, Shively and St. Matthews and also supplies the companies serving Prestonsburg and Paintsville. The total estimated population served by the System is in excess of 381,000.

Predecessors of Louisville Gas and Electric Company established themselves in the gas business in 1838 and the electric business in 1885, since which times operations have been continuous.

Electric energy sources include Waterside Station at Louisville, which has a present installed steam electric generating capacity of 92,500 kilowatts and the new hydro-electric plant of the Louisville Hydro-Electric Company at the falls of the Ohio River of 80,000 kilowatts capacity. The System has its own coal properties, completely equipped, assuring an adequate, convenient and economic source of fuel supply. The coal is transported from the Company's mine at Echols, Kentucky, to Louisville, in steel cars owned by the Company. Water for condensing purposes is obtained from the Ohio river.

Construction work on the hydro-electric station of The Louisville Hydro-Electric Company at the falls of the Ohio River, which was started in 1925, was continued during 1927. This station, is designed for an ultimate capacity of 100,000 kilowatts. 80,000 kilowatts capacity is now practically completed and the generating equipment has operated successfully. It will be placed in regular service, it is expected, early in 1928. The entire hydro-electric development consisting of power house, dam and transmission line was built under the direction of Byllesby Engineering and Management Corporation, engineers, managers and construction supervisors for Louisville Gas and Electric Company. The dam which was constructed by the Byllesby organization under contract for the Federal government as part of the Ohio River canalization program, is more than a mile and a half long. The power house is of steel and concrete construction, 508 feet long and 50 feet wide. There are eight generators, each with a capacity of 10,000 kilowatts. Power generated at the plant will be transmitted over a steel tower transmission line to the Waterside

steam-electric station, whence it will be distributed over the Company's system. Upon completion of this project, Louisville Gas and Electric Company will have a total installed generating capacity of 173,520 kilowatts.

The principal sources of supply of natural gas are the Eastern Kentucky and West Virginia fields the gas being transported to Louisville by means of a 12-inch pipe line.

Gas manufacturing plants of the System have a total installed daily capacity of 22,000,000 cu. ft. and the gas system includes nine gas holders which provide storage capacity of 12,300,000 cubic feet for both natural and manufactured gas.

The System at December 31, 1927, served 85,773 electric customers. The connected lighting load at December 31, 1927, was 63,267 kilowatts, the power load 101,803 kilowatts and the total connected load 165,070 kilowatts. The electric distributing system consisted of 748 miles of overhead distribution lines, 49 miles of underground conduits and 87 miles of high tension pole lines with the necessary substations and equipment. The output of electric energy for the year ended December 31, 1927, was 234,238,160 kilowatt hours, compared with 222,310,255 kilowatt hours for the previous year.

The System, at December 31, 1927, served 73,135 gas customers. The gas distribution system consisted of 909 miles of mains. For the year ended December 31, 1927, the total gas output was 5,970,028,000 cubic feet compared with 6,562,489,000 cubic feet for the previous year.

$3,887,600 LOUISVILLE GAS & ELECTRIC CO. OF KY. 6% SINKING FUND GOLD DEBENTURE BONDS, SERIES "A"; DUE OCTOBER 1, 1937

Dated October 1, 1922.

Interest Payable April and October 1, in New York and Chicago.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustee—Continental National Bank & Trust Co., Chicago.

Provisions of Issue—Authorized, $10,000,000. The Trust Agreement permits the issue of additional bonds of Series "A," or of other series of such dates, maturities, interest rates and sinking fund and redemption provisions as may be determined by the Board of Directors of the Company. Such additional bonds may be issued only when net earnings, as defined in the Trust Agreement, after deduction of prior annual interest charges, shall for 12 consecutive months ending not more than 60 days prior to application for the issuance of Debenture bonds have been equal to at least four times the annual interest charges on Debenture bonds of this issue then outstanding, including those about to be issued.

Callability—Subject to call, as a whole or in part, at the option of the Company, on 30 days' notice; on or before Oct. 1, 1927, at 105; thereafter to and including Oct. 1, 1932, at 102; thereafter to and including Oct. 1, 1936, at 101; thereafter at 100; plus accrued interest in each case.

Sinking Fund—The Trust Agreement provides for a sinking fund on a 3% per annum basis, payments to this fund to be made semi-annually, commencing April 1, 1925, based on the amount of Series "A" Debenture bonds outstanding at respective dates of payment. Sinking fund to be applied by the Trustee to purchase of Series "A" bonds at or below the prevailing call price, and if bonds are not so obtainable the Trustee will call for redemption Series "A" bonds to absorb the sinking fund cash.

Security—These bonds are a direct obligation of the Louisville Gas & Electric Co. (Kentucky) and are secured by a lien upon the mortgage obligations of Kentucky Pipe Line Company (Kentucky) and Ivyton Oil and Gas Company (Delaware) and the entire Capital stocks of Kentucky Pipe Line Company (Kentucky), Ivyton Oil and Gas Company (Delaware) and Kentucky Coke Company (Kentucky), except Directors' qualifying shares, subject to the lien of the mortgage securing the First and Refunding Mortgage Gold bonds of the Company. The Trust Agreement, under which these Debenture bonds are issued, provides that no additional mortgage (except purchase money mortgages) shall be placed upon the property of the Company, unless these bonds and the other obligations secured by such mortgage shall, equally and ratably, be secured thereby and participate in the lien on the mortgage obligations and stocks of the affiliated companies.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mills tax refunded upon application.

Legal Opinion—Chapman, Cutler & Parker, Chicago (for the bankers); Cummins, Roemer & Flynn, Chicago (for the Company).

MOUNTAIN STATES POWER COMPANY

(Controlled by Standard Gas & Electric Co.).

History and Property—Incorporated Dec. 14, 1917, in Del., reorganization of Northern Idaho & Montana Power Co., sold under foreclosure Nov. 22, 1917 (see Manual for 1917, Public Utility Section, page 1623).

On May 1, 1923, the Tacoma Gas & Fuel Co. and the Puget Sound Gas Co. (see 1923 Public Utility Manual, pages 1250 and 1257 respectively) were consolidated with the Mountain States Power Co.

During 1924 additions were made to the system by the acquisition of the Stayton Light & Power Co., Stayton, Ore., and the municipal plant of the City of Scio, Ore.

During 1925 property additions included the Coast Power Company (see 1925 Public Utility Manual, page 2322), and the Natrona Power Company (see 1925 Public Utility Manual, page 95). Other properties purchased during 1925 were the Douglas (Wyo.) Light & Power Company, Libby Light & Water Company, Libby, Mont., and the Municipal plant of Falls City, Ore. Property additions during 1926 included the Midwest Public Service Company (see 1926 Public Utility Manual, page 836).

Effective Dec. 31, 1927, Company sold its gas properties at Tacoma, Olympia and Everett, Wash., to the Washington Gas & Electric Company. These gas properties are distant from the principal territories served by the Company, the business of which is chiefly electric power and light service. Earlier in the year, the Company's electric and gas distribution systems at Snohomish and Monroe, Wash., were sold.

Exclusive of the gas properties sold effective Dec. 31, 1927, Company furnishes electricity for power and light, gas, steam heat, telephone and/or water service to 64,516 (41,177 electric, 16,961 gas) customers in 88 communities having a combined estimated population in excess of over 300,000 in the states of Washington, Oregon, Idaho, Montana, Wyoming and South Dakota, including Salem, Casper, Eugene, Corvallis, Kalispell, Puyallup, Marshfield, North Bend, Sandpoint, Whitefish, Dallas, Cottage Grove, Springfield, Tillamook, Lebanon, Libby, Douglas, Graybull and Riverton.

The Company has a present total installed electric generating capacity of 25,993 kilowatts, of which 4,625 kilowatts is hydro-electric and 21,728 kilowatts is steam electric. The Company also purchases steam and hydro-electric energy under favorable contracts, which include a contract with The California Oregon Power Company, expiring in 1952, for the purchase of 16,000 hydro-electric horsepower which, as needed may be increased to 24,000 horsepower. The Company has a present electric connected load of 94,349 kilowatts; 521 miles of transmission and 687 miles of distribution pole lines; a total daily gas manufacturing capacity of 1,380,000 cu. ft., and 78 miles of gas transmission and distribution mains. For the 12 months ended Dec. 31, 1927, the electric output of the system was 78,622,966 kilowatt hours, and, for the same period, the gas output was 664,794,000 cubic feet.

NORTHERN STATES POWER COMPANY

(Of Delaware)

(Controlled by Standard Gas & Electric Co.)

History—Incorporated Dec. 23, 1909, in Delaware. Owns all of the capital stock, except directors' shares, of Northern States Power Company (Minnesota), which Company and its subsidiary companies own and operate all the properties comprising the Northern States Power Company System. Northern States Power Company (Minnesota) was incorporated June 16, 1909, in Minnesota for a period of 30 years, with the privilege of renewal for a like period. This Company was originally organized under the name of Washington County Light and Power Company. By an amendment to its charter filed on Dec. 17, 1909, it changed its name to Consumers Power Company and by an amendment to its charter filed February 5, 1916, it changed its name to Northern States Power Company. The Company (Minnesota) is a holding and operating Company. The principal subsidiary and affiliated companies are: Minneapolis General Electric Company and subsidiaries, Northern States Power Company (Wisconsin), Interstate Light and Power Company (Delaware), Minneapolis Mill Company, St. Anthony Falls Water Power Company, and Northern States Securities Corporation.

Northern States Power Company (Delaware) is controlled through stock ownership by Standard Gas and Electric Company. Northern States Power Company (Delaware) owns all the outstanding capital stock of Northern States Power Company (Minnesota), except directors' qualifying shares, the capital stock of the Northern States Power Company (Delaware) being outstanding with the public. Northern States Power Company (Minnesota) owns the entire capital stock of the Northern States Securities Corporation. The entire capital stocks of the subsidiary companies, with the exception at Dec. 31, 1927, of $667,000 7% Preferred stock of Northern States Power Company (Wisconsin) and $2,000 Common stock of a subsidiary company, are owned either by Northern States Power Company (Minnesota) or subsidiary companies. The original properties embraced in the Northern States Power Company System were those included in what are now known as the Minneapolis Division, St. Paul Division (with the exception of that property acquired from the St. Paul Gas Light Company in 1926), Stillwater Division, Fargo Division, Sioux Falls Division, Galena Division, Grand Forks Division, Mankato Division, Faribault Division and Minot Division.

In 1917 Northern States Power Company (Minnesota) acquired control of Northwest Light and Power Company, Minnesota Valley Electric Company and Renville County Electric Company. The properties of these companies were merged with those of Northern States Power Company (Minnesota), in 1923.

On December 1, 1920 Northern States Power Company (Minnesota) acquired control of The Ottumwa Railway and Light Company, the electric and steam heating business of which was reorganized in 1923 as Northern States Power Company (New Jersey), and the railway department as Ottumwa Traction Company. The properties of these companies were sold in May, 1925.

In 1923 control of Wisconsin-Minnesota Light and Power Company now Northern States Power Company (Wisconsin), was acquired.

In August 1924 Northern States Power Company (Minnesota) acquired control of a group of properties comprising St. Cloud Public Service Company, Glenwood Electric Light Heat and Power Company, Farmers Light and Power Company, Brainerd Gas and Electric Company, St. Cloud Water Power Company, Sauk Rapids Water Power Company and St. Cloud Electric Power Company, these companies operating in and around St. Cloud, Minnesota. The properties of these companies were merged with those of the Northern States Power Company (Minnesota) in January, 1926.

On January 2, 1926, Northern States Power Company (Minnesota) acquired control of St. Paul Gas Light Company, South St. Paul Gas and Electric Company and St. Croix Power Company. The properties of St. Paul Gas Light Company and South St. Paul Gas and Electric Company were merged with those of Northern States Power Company (Minnesota) in April, 1926. In May, 1926, Northern States Power Company (Wisconsin) acquired control of Chippewa Power Company, the properties of which company were formerly operated under lease by Northern States Power Company (Wisconsin).

In January, 1927, Northern States Power Company (Minnesota), acquired the property of Minnesota Power Company, thereby adding 50 communities to the Company's system.

In 1927, The Interstate Light and Power Company of Delaware acquired control of Elizabeth Light and Power Company at Elizabeth, Ill.

Field of Operations and Character of Business—Northern States Power Company System furnishes 568 communities in Minnesota, North Dakota, South Dakota, Wisconsin and Northern Illinois with electric, gas, steam heat, street railway, telephone and/or water services as follows:

COMMUNITIES CLASSIFIED BY SERVICE	
Electricity	563
Gas	24
Steam	7
Street Railway	8
Telephone	1
Water	1

The communities served include Minneapolis, St. Paul, Stillwater, St. Cloud, Faribault, Mankato, Hutchinson, Pipestone, Montevideo, Grand Forks, Fargo, Minot, Sioux Falls and the zinc mining district in and around Galena and Platteville. The aggregate estimated population served at December 31, 1927, was 1,420,000. At that date the System had 26 hydro-electric generating stations with aggregate installed capacity of 109,495 kilowatts and 23 steam electric generating stations with aggregate installed capacity of 220,460 kilowatts; 3,732 miles of high tension transmission pole and steel tower lines and 4,399 miles of local distributing pole and underground lines. Several undeveloped water power sites are controlled. The gas plants of the System have a present combined daily generating capacity of 20,795,000 cubic feet, holder capacity of 8,435,000 cubic feet and 1,018 miles of gas mains.

Northern States Power Company reports favorable progress on the construction of the 21,600 kilowatt hydro-electric development at Chippewa Falls on the Chippewa River in Wisconsin, planned for completion about July 1, 1928.

CAPITAL STOCK

Authorized $50,000,000 Class "A" Common, 10,000,000 shares Class "B" Common and $150,000,000 cumulative Pfd.; outstanding, Dec. 31, 1927, $21,924,600 Class "A" Common, 500,000 shares Class "B" Common, $49,022,500 7% Pfd. and $18,017,000 6% Pfd. Par of both Class "A" Common and Pfd. issues, $100; Class "B" Common is without par value. The unissued Pfd. stock may pay such dividends as may be decided upon at time of issuance. The Standard Gas & Electric Co., at Dec. 31, 1927, owned 499,926 Class "B" Common shares. All classes of stocks have equal voting rights, share for share.

Subscription Privileges—In December, 1927, the Company offered holders of its Class "A" Common stock the privilege of subscribing to additional Class "A" stock at $100 a share to the extent of one-fourth of their holdings as of January 3, 1928. At the same time holders of the Class "B" Common stock were offered the right to subscribe to additional Class "B" stock to the same extent. Subscription rights on both classes of stock expired January 23, 1928.

Preferred Stock Provisions—The 6% Pfd. stock is redeemable at 107½ and accrued dividends, and the 7% Pfd. stock is redeemable at 110 and accrued dividends, on 60 days' notice. Both classes of Pfd. stock have equal voting rights with the Common stock.

Class "B" Common Stock—The stockholders met July 10, 1924, and authorized a new class of stock to be known as Class "B" Com., without par value. It was proposed to issue 500,000 shares to yield $5,000,000 which was to be used largely for construction purposes. The new Class "B" Com. ranks after the Pfd. and Class "A" Common stock as to assets. It shares in dividends with Class "A" Common after full dividends are paid on the Pfd., in ratio of 10c on each share of Class "B" for each dollar a share paid on Class "A" Common.

$13,985,000 NORTHERN STATES POWER COMPANY OF MINNESOTA FIRST LIEN AND GENERAL MORTGAGE GOLD 6s, SERIES "A"; DUE NOVEMBER 1, 1948

Dated November 1, 1923.

Interest Payable, May and November 1, at Harris Trust & Savings Bank, Chicago, or Guaranty Trust Company, New York.

Denominations—Coupon, $500 and $1,000; principal may be registered; fully registered bonds, $1,000, $5,000 and $10,000.

Trustees—Harris Trust & Savings Bank, Chicago, and Murdoch H. McLean.

Provisions of Issue—Authorized amount of mortgage, unlimited. Issued $23,000,000 ($14,500,000 Series "A" and $8,500,000 Series "B", see No. 11), of which $515,000 Series "A" redeemed.

Additional bonds of Series "A" or Series "B" or other series with such dates, maturities, interest rates, redemption features, etc., as may be determined, may be issuable under the provisions of the indenture for (a) the refunding of underlying bonds or of bonds of other series under this mortgage and (b) for 75% of expenditures for additions and extensions to the properties, provided that net earnings for a period of twelve months have been at least equal to 1¾ times the annual interest charge on all underlying and First Lien & Gen. Mtge. bonds in the hands of the public and those proposed to be issued, and dividends on Pfd. stocks of subsidiary corporations outstanding in the hands of the public, all as provided in the indenture. Additional bonds may also be issued against the pledge of bonds of Northern States Power Company of Wisconsin, formerly Wisconsin-Minnesota Light & Power Co. and upon the fulfilment of the requirements in the indenture, for the refunding of bonds of that company which are now in the hands of the public, and for further additions and extensions to the property.

Callability—Subject to call on any interest date, until and including Nov. 1, 1938, at 105 and interest, the premium decreasing ½% each calendar year thereafter, the bonds being redeemable in 1947 and on May 1, 1948, at 100½ and interest.

Special Trust Fund—Under the terms of the indenture securing these bonds, the company covenants that an amount equivalent to at least 12½% of the gross earnings from the operation of the properties (less the cost of purchased power and gas and of leased generating or distributing property) shall be expended or set aside after May 1, 1925, for maintenance, repairs, renewals and replacements of properties. This percentage is subject to periodical adjustment at intervals of not less than five years, by agreement between the Trustees and the company. Any part of this fund not used for such purposes may be expended for extensions and additions to the properties which shall not be made the basis for issuing additional bonds under the indenture, or for the retirement of outstanding bonds. It is specifically provided that out of this fund or with other moneys there will be purchased or redeemed each year, and cancelled, not less than 1% of the Series "A" bonds, which are from time to time outstanding.

Security—A direct lien upon all the physical properties and securities of Northern States Power Company (Minnesota), which includes all the bonds and stocks of Minneapolis General Electric Company, Interstate Light and Power Company (Wisconsin), and Interstate Light and Power Company (Delaware), less directors' qualifying shares, except $6,831,000 bonds of the Minneapolis General Electric Company; subject however to the lien of the mortgage securing the First and Refunding bonds, of which $18,886,000 are pledged under this mortgage; also subject as to the property acquired from St. Paul Gas Light Company to the liens of mortgages securing an aggregate of $9,150,000 bonds; as to the property acquired from St. Cloud Public Service Company, to the liens of mortgages securing an aggregate of $2,530,000 bonds; as to property acquired from St. Cloud Water Power Company, to the lien of a mortgage securing $190,000 bonds; as to property acquired from Citizens Light, Heat and Power Company, to the liens of mortgages securing $32,003 mortgage notes outstanding; as to the property acquired from Minnesota Power Company, to the lien of a mortgage securing $333,800 bonds outstanding; and a direct first lien upon all the property of Northern States Securities Corporation, which includes all the bonds and stocks of St. Anthony Falls Water Power Company, Minneapolis Mill Company and Northern States Power Company (Wisconsin), less directors' qualifying shares and except $13,645,000 bonds and $667,000 Pfd. stock of Northern States Power Company (Wisconsin).

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mills tax refunded upon application.

Legal Opinion—Chapman, Cutler & Parker, Chicago.

Original Offering—First publicly offered ($8,500,000) in Dec., 1923, at 97½ and interest, yielding about 6.20%, by Harris Trust & Savings Bank and H. M. Byllesby & Co., Inc., Chicago, etc., and Harris, Forbes & Co., and Guaranty Co., New York, etc.; an additional $6,000,000 were offered by the same firms in April, 1924, at 99½ and interest, yielding over 6%.

$938,000 NORTHERN STATES POWER CO. OF MINNESOTA CONVERTIBLE 6½% GOLD NOTES; DUE NOVEMBER 1, 1933

Dated November 1, 1923.

Interest Payable May and November 1, at Guaranty Trust Company of New York, or Harris Trust & Savings Bank, Chicago.

Denominations—Coupon notes in interchangeable denominations of $100, $500, and $1,000; principal may be registered.

Trustee—Guaranty Trust Co. of New York.

Registrars—Guaranty Trust Co. of New York, and Harris Trust & Savings Bank, Chicago.

Provisions of Issue—Authorized and issued, $10,000,000, of which $395,000 redeemed and $8,666,100 converted into Common stock to April 19, 1928.

The Trust Agreement under which these notes are issued provides (1) that no mortgage (except purchase money mortgages and mortgages existing on property hereafter acquired) other than the First & Refunding Mtge. of the company and its First Lien & Gen. Mtge. shall be placed upon the property of the company, unless these Notes shall be secured by such mortgage equally and ratably with all other obligations secured thereby, and that no such mortgage shall be placed upon the property of any such subsidiary unless all obligations issued under such mortgage shall be pledged directly or indirectly either under the First & Refunding Mtge. or First Lien & Gen. Mtge.; (2) that no additional funded debt of the company or any subsidiary other than as provided in section (1), may be created unless either the net earnings of the company and its subsidiaries for a period of twelve consecutive months within the fifteen months next preceding the creation of such debt shall have been at least 1¾ times the annual interest requirements on the total funded debt of the company and its subsidiaries outstanding at the time of the creation of such additional debt, including the additional debt about to be created, or the company shall thereupon execute and deliver a general mortgage upon all its property under which these notes shall be secured in priority to such additional funded debt; (3) that beginning Nov. 1, 1924, the company will pay to the trustee annually $200,000 in cash as a sinking fund, to be applied to the purchase in the open market of notes of this issue at a price not exceeding the then redemption price, and/or to the redemption of notes.

Purpose of Issue—Issued to redeem the entire issue of the Company's 10-Year Notes due April 1, 1926, and to reimburse the company in part for expenditures heretofore incurred for additions, extensions and betterments to the properties.

Callability—Subject to call in whole or in part on 60 days' notice on any interest date prior to maturity; on or before Nov. 1, 1924, at 105 and thereafter at 105 less ½ of 1% for each year or fraction thereof elapsed subsequent to Nov. 1, 1924 to and including May 1, 1933; thereafter at 100; plus accrued interest in each case.

Convertibility—Convertible at any time after Jan. 1, 1924, and on or before Jan. 1, 1929 (or as to notes called for prior redemption on or before 30 days previous to the redemption date) into Common stock of the Northern States Power Co. of Del. on the basis of $100 principal amount of Notes plus $3.50 in cash for each share of stock of $100 par value, with adjustment of accrued interest and accrued dividends. So long as any of the Notes are outstanding, the Minnesota Company will not issue any other obligations convertible into the same class of stock of the Delaware Co. as that into which these Notes are convertible, on a basis more favorable to the holders of such obligations in respect to conversion prices than that enjoyed by the holders of these Notes, unless the same convertible privilege in respect to conversion prices shall be accorded to holders of these Notes.

Security—A direct obligation of Company but not secured by a mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mills tax and the Massachusetts Income tax, not exceeding 6% per annum, refunded.

Legal Opinion—Stetson, Jennings, Russell & Davis, New York (for the bankers), and Cummins, Roemer & Flynn, Chicago (for the Company).

THE CHIPPEWA POWER COMPANY

(Controlled by and leased to Northern States Power Company of Wisconsin)

History—Incorporated in January, 1920, in Wisconsin and owns lands, flowage rights, a concrete dam and a water power site on the Chippewa River, eleven miles north of the Wissota dam of the Northern States Power Company of Wisconsin. The Company is the possessor of a charter granted on May 6, 1902, by the State of Wisconsin permitting the construction and giving the perpetual right to maintain a dam across the Chippewa River.

Company completed construction of a hydro-electric generating plant with an initial installed generating capacity of 19,296 h.p. upon its dam site and an 11 mile 110,000-volt transmission line connecting with the generating station of the Wissota plant of the Northern States Power Company of Wisconsin. The plant was completed May 1, 1923, and entire operation taken over for operation by the Wisconsin-Minnesota Light & Power Co. (now Northern States Power Company of Wisconsin) under a 30 year lease. By the terms of this lease, the latter Company agrees to pay an annual rental, payable in equal monthly installments, as follows: $245,000 for the first seven years, $255,000 for the next ten years, and $265,000 for the last thirteen years; also to operate and maintain the property at its own expense at standard operating efficiency, repairing all damages that may be sustained by the property through any cause whatsoever during the continuance of the lease. It also agrees to pay all taxes and all other charges incidental to the operation of the development to the end that the rental as shown above shall be a net rental to be paid to The Chippewa Power Co. without any deduction whatever.

CAPITAL STOCK

Authorized and outstanding, 5,000 shares of no par value. All owned by Northern States Power Company of Wisconsin. Annual meeting, first Monday after first Tuesday in June.

Electric Co. and Sapulpa Electric Co. in July, 1917, were consolidated under the name of Oklahoma Gas & Electric Co. During 1925, the properties of the following, formerly controlled, were acquired: Southern Oklahoma Power Company, Shawnee Gas and Electric Company and Okahoma General Power Company.

On February 28, 1926 the Company purchased the properties of Consumers Light and Power Company, Ardmore City Gas Company and Wilson Ice Company, and in May, 1926, acquired the United Power Company and the Chandler Electric Company.

On March 1, 1928, effective as of Dec. 1, 1927 Oklahoma Gas and Electric Company sold to Oklahoma Natural Gas Corp. (see General Index) its natural properties, consisting of distributing systems in 14 communities, thereby enabling the Company to concentrate its entire attention upon the development of its electric power and light business.

Oklahoma Gas and Electric Company furnishes electricity for power and light to 147 communities in Oklahoma, including Oklahoma City, El Reno, Enid, Drumright, Sapulpa, Muskogee, Chandler, Davenport, Ardmore, Durant, Healdton, Ringling, Wilson, Shawnee, Ada and Guthrie, having an estimated population in excess of 560,000. The properties of the Company include steam electric generating stations having in excess of 100,000 kilowatts installed capacity, which includes the River Bank Power Station near Muskogee, with installed capacity of 22,500 kilowatts and the Horseshoe Lake plant near Oklahoma City having present installed capacity of 35,000 kilowatts. Work is under way on the construction of an addition to the Horseshoe Lake station and the installation of an additional steam turbine unit of 30,000 kilowatts capacity. The transmission and distribution system of the Company includes 3,500 miles of pole lines.

As of Dec. 31, 1927, the Company served 97,168 electric customers; had connected electric load, all purposes, of 254,476 kilowatts, 3,535 miles of transmission and distribution pole and underground lines, and, for the 12 months ended Dec. 31, 1927, had a total electric output of 399,543,412 kilowatt hours compared with 207,140,920 in 1926.

SAN DIEGO CONSOLIDATED GAS AND ELECTRIC COMPANY

(Controlled by Standard Gas and Electric Co.)

History and Property—Incorporated April 6, 1905, in Cal.; successor to San Diego Gas & Electric Co. In 1910, absorbed the United Light, Fuel & Power Co. of San Diego (see Manual for 1910, page 2285.) In Dec., 1916, acquired the property of the Escondido Utilities Co. (see Manual for 1916, page 1120).

The Company furnishes electricity and gas in San Diego and 10 surrounding communities and electricity in 30 other communities, serving a total estimated population of 224,000. The System of the Company includes 2 steam electric generating stations, having aggregate installed capacity of 46,000 kilowatts; 108 miles of high tension transmission pole lines; 1,236 miles of local distributing pole and underground lines; daily gas manufacturing capacity of 15,650,000 cubic feet; gas holder capacity of 9,130,000 cubic feet, and 764 miles of gas mains.

At Dec. 31, 1927, the Company served a total of 115,213 customers and had electric connected load, all purposes, of 108,791 kilowatts. For the year ended Dec. 31, 1927, the electric output was 126,801,100 kilowatt hours and gas output, for the same period, 2,461,459,000 cubic feet. The Company has long term favorable contracts with the Southern California Edison Company and The Southern Sierras Power Company for hydro-electric power.

Company is erecting an addition to its Station B in San Diego and is installing an additional 25,000 kilowatt steam turbine generating unit. Space will be provided for another unit of this size to be installed at a later date. The San Diego Company installed a new gas generator of 3,300,000 cu. ft. daily capacity, which was placed in service early in 1928.

SHAFFER OIL AND REFINING COMPANY

(Controlled by Standard Gas and Electric Co.)

History—Incorp. in Del., May 31, 1919, to acquire the oil interests of C. B. Shaffer and associates.

Business and Property—The Company is a balanced, self-contained unit of the petroleum industry, embracing fully within its own organization, complete properties and facilities for the production, refining, transportation and marketing of its products, which are distributed under its Deep Rock trade mark. The refinery, with daily capacity of 10,000 barrels, is located at Cushing, in the heart of the Mid-Continent field. It is a completely equipped plant, covering 391 acres, and includes a cracking plant, paraffin wax and lubricating oil equipment, and tank storage capacity of 2,315,000 barrels. Fuel requirements of the refinery are supplied by gas from the Company's own sources. The cracking process used is considered one of the most efficient known today. In addition there are four casinghead gasoline plants with total daily capacity of 21,000 gallons. The Company and its subsidiaries produce 87,500,000 gallons of gasoline products annually.

The Company owns oil leases covering 114,488 acres of oil lands in Oklahoma, California, Colorado, Montana, New Mexico, Mississippi, Kansas, Arkansas, Colorado, Texas and Louisiana, 11,159 acres of which are developed and on which are located 569 producing wells. Present average daily production is approximately 7,500 barrels. The Company has its own pipe lines and gathering pipe-line system, totaling 376 miles, and gathers and pipes all of the crude oil of which it refines. It also owns 626 tank cars and has under a favorable five-year lease 250 additional tank cars, practically all of eight to ten thousand gallon capacity.

Through subsidiaries, the Company has retail distributing facilities through which are marketed annually approximately 49,500,000 gallons of gasoline, 6,700,000 gallons of kerosene, 6,000,000 gallons of domestic heating oil, 2,000,000 gallons of lubricating oils—largely high grade motor oils—and 3,200,000 gallons of fuel and miscellaneous oils. The principal distributing territory includes Illinois, Indiana, Minnesota, Wisconsin, Iowa, Nebraska, Oklahoma, Arkansas, Michigan, and North and South Dakota, in which are located 235 bulk stations and 203 service stations

CAPITAL STOCK

Authorized, 1,000,000 shares Common and 450,000 shares Pfd., both of no par value; to be outstanding upon completion of financing approved by stockholders April 7, 1928, 580,000 shares Common and 50,000 shares Convertible Pfd. stock, $7 cumulative. As of May, 1928, Standard Gas and Electric Company owned 560,448 shares Common, without par value and 1,969 shares Convertible Pfd. stock, $7 cumulative, without par value.

CHANGES IN CAPITALIZATION

Stockholders of Company at a special meeting on April 7, 1928, approved amendment of the Certificate of Incorporation providing for the following changes in capitalization:

(1) The total number of shares of stock which may be issued by the Company will be changed from 450,000 shares Pfd., par $100 each, 40,000 shares Class "B" Common, par $1 each, and 460,000 shares Common of no par value to 450,000 shares Pfd. of no par value and 1,000,000 shares Common of no par value;

(2) Of said authorized Pfd. stock, a part will be the shares of Pfd. stock now outstanding, which will be of a series designated Convertible Pfd. stock, $7 cumulative and with terms outlined below, and the remainder of authorized Pfd. stock will be issuable from time to time in said series or in one or more other series;

(3) The Pfd. stock outstanding, entitled to cumulative dividends at rate of 7% ($7 per share per annum), with certain participating rights in dividends after the payment of dividends on the other classes of stock, having a preference in liquidation or dissolution of Company or distribution of its capital of $100 per share and accrued, unpaid dividends, with certain participating rights in the event of such liquidation, dissolution or distribution, and being non-callable, will be of the series designated Convertible Pfd. stock, $7 cumulative, having rights and privileges outlined below:

(4) Of the authorized Common stock, a part will be the shares of Common stock now outstanding. The Common stock will be entitled to receive all dividends and assets, subject to preferences of the Pfd. stock, and the holders thereof shall be entitled to one vote for each share of such stock. The provision now appearing in the Certificate of Incorporation of the Company, as heretofore amended, as to the amount to be charged against the net profits or surplus of the Company by reason of the declaration of a stock dividend, will be stricken from the Certificate. Shares of capital stock of the Company, without nominal or par value, of any class, may be issued by the Company from time to time for such consideration as may be fixed from time to time by the Board of Directors.

In letter to stockholders from J. J. O'Brien, president, dated March 27, 1928, it was stated:

(1) Company as of February 29, 1928, had outstanding:

$1,843,700 First Mortgage 6% bonds due June 1, 1929.
7,500,000 6% Gold notes due April 15, 1928.
4,250,000 6% notes due Dec. 31, 1931.
14,000,000 Preferred stock.
40,000 shares Class "A" Common stock.
137,552 shares Common stock.

(2) Directors have arranged the following program of refinancing subject to the authorization of the amendment:

a. The redemption of the $1,843,700 First Mortgage 6% bonds due June 1, 1929;
b. Payment of the $7,500,000 6% Gold notes due April 15, 1928;
c. Payment of the $4,250,000 6% notes due Dec. 1, 1931;
d. Issuance and sale of $10,000,000 6% Convertible Gold notes due March 1, 1933;
e. Issuance of 580,000 shares Common stock in exchange for $9,000,000 of the outstanding Pfd. stock, certain funded debt above mentioned, open accounts and outstanding Common stocks.

(3) The capitalization of Company on completion of this program will be as follows:

$10,000,000 6% Convertible Gold Notes due Mar. 1, 1933;
50,000 shares Convertible Pfd. stock, $7 cumulative, without par value;
580,000 shares Common stock, without par value.

Preferred Stock Provisions—Of the authorized Preferred stock, a part consists of Preferred stock outstanding prior to April 7, 1928, now designated Convertible Preferred stock, $7 cumulative. The remaining shares may be issued from time to time either in whole or in part in said series or in one or more other series, the stock of each such other series to be entitled and limited, upon any liquidation or dissolution of the Company or distribution of its capital, to a preference over the Common stock to the amount of $100 per share, plus a sum equal to the amount of dividends accumulated thereon and unpaid, to be entitled and limited to cumulative dividends at such rate or rates, not exceeding $7 per share per annum, payable quarterly, before payment of dividends on Common, and to have such designations and optional or other special rights, or qualifications, limitations or restrictions thereof, and to be redeemable at such price or prices, if any, as may be stated and expressed in the resolution or resolutions providing for the issue of such stock to be adopted by the Board of Directors of the Company. Shares of each series of Preferred shall have no voting power except that if, when and so long as at any time the stock of such series shall be in default in respect of the cumulative dividends fixed for such series to an amount which shall exceed a sum equal to ½ of the annual cumulative dividend rate, each share of such stock shall be entitled to one vote.

The series designated Convertible Preferred stock, $7 cumulative, is entitled and limited to cumulative dividends at rate of $7 per share per annum, payable quarterly, before the payment of any dividends on Common. It is entitled and limited, upon any liquidation or dissolution of the Company, or distribution of its capital, to a preference over the Common stock to the amount of $100 per share and accrued unpaid dividends. It is subject to redemption as a whole or in part, at option of Company upon 60 days' notice at $115 per share and accrued, unpaid dividends. It is convertible at option of the holders thereof, upon 20 days' notice to Company, into Common stock of Company, as constituted at the time of such conversion, on the basis of 2 shares of Common, without par value, for each share of Convertible Preferred stock $7 cumulative, so converted, with provision for adjustment of dividends declared on said Preferred stock, but unpaid, and with certain provisions for adjustment of the conversion basis in event of the reclassification or change of the Common stock. The Convertible Preferred stock, $7 cumulative, has voting power fixed for it by the provision as to voting power of the various series of Preferred stock outlined in the paragraph just preceding.

Transfer Agents—Guaranty Trust Co. of New York, and Continental National Bank & Trust Co., Chicago.

Registrars—Bankers Trust Co., New York, and Illinois Merchants Trust Co., Chicago.

Listed (Preferred)—Chicago Stock Exchange.

Dividends—Initial quarterly Pfd. dividend of 1¾% paid Oct. 25, 1919, which rate was paid to July 25, 1923, after which date payments were temporarily suspended; none paid thereafter to July 25, 1926, when 1¾% was paid, which quarterly rate has been maintained to April 25, 1928. On Jan. 25, 1927, a dividend of 19¼% was paid, in settlement of the unpaid accumulated dividends on the Pfd. stock, to stockholders of record, Dec. 31, 1926. Pfd. dividend payments J, A, J & O 25, to shareholders of record the last day of the preceding month, respectively. On Jan. 25, 1927, an initial dividend of $7 a share on Common stock was paid to stockholders of record Dec. 31, 1926.

FUNDED DEBT

$10,000,000 6% CONVERTIBLE GOLD NOTES, DUE MARCH 1, 1933

Dated March 1, 1928.

Interest Payable March and September 1, in Chicago and New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—Union Trust Company, Chicago, Ill.

Provisions of Issues.—Issued, $10,000,000.

Purpose of Issue—Proceeds from the sale of this issue of $10,000,000 6% Convertible Gold Notes, due March 1, 1933, and from the sale of Common stock of the Company will be used to retire the Company's present outstanding $1,843,700 First Mortgage 6% bonds, due June 1, 1929, $7,500,000 Two-Year 6% Gold notes, due April 15, 1928, $4,250,000 6% Gold notes, due Dec. 31, 1931, and to reimburse the Company for expenditures for additions and extensions heretofore and now being made to its properties, and for other corporate purposes.

Callability—Subject to call as a whole or in part at any time upon 60 days' notice; until and including March 1, 1929, at 102½ and interest, the premium thereafter decreasing ½% for each year or fraction thereof elapsed to and including September 1, 1932, the notes thereafter being redeemable at 100 and interest.

Convertibility—These notes may, at the option of the holder, be converted prior to maturity into Common stock, as constituted at the time of conversion, on the basis of two shares of the present class of Common stock, which is without par value, for each $100 of these 6% Convertible Gold notes, with adjustment of accrued interest. Any notes which may be called for redemption before maturity shall be convertible up to 30 days prior to the redemption date. The Trust Agreement under which these notes are issued contains appropriate provisions for adjustment of the above conversion basis in event of issuance as a stock dividend of additional stock of the class into which these notes are then convertible, and, further, that these notes will be accorded any more favorable basis for conversion into such stock at the time enjoyed by any future convertible funded debt or stock of Company. If the present class of Common stock be changed into another class of stock after the issuance of these notes, the notes will be convertible into such other class of stock, and an adjustment of conversion basis will be made in the event of any such change of class or of a change in the character of the shares before conversion; all as provided in the Trust Agreement.

Security—These notes are a direct obligation of the Company, but are not secured by mortgage. The Trust Agreement under which these notes were issued provides that: (1) Neither the Company nor any subsidiary, as defined in the Trust Agreement, may create any mortgage on its property or any pledge of its assets (except purchase-money mortgages, mortgages then existing on property hereafter acquired, pledges of current assets to secure loans for not more than 12 months in the ordinary course of business and mortgages of pledges to secure inter-company indebtedness) without securing these 6% Convertible Gold notes equally and ratably with the obligations authorized to be issued under such mortgage or secured by such pledge; and (2) neither the Company nor any such subsidiary may create any additional funded debt, except inter-company indebtedness, and as otherwise permitted, in the above provision (1), unless these 6% Convertible Gold notes shall be secured by mortgage upon the property of the debtor corporation in priority to any such funded debt.

Tax Provisions—Company pays Normal Federal Income Tax up to 2% and agrees to refund, upon timely application, Pennsylvania personal property taxes not in excess of four mills per dollar per annum, Connecticut personal property taxes not in excess of four mills per dollar per annum, Maryland securities tax not in excess of four and one-half mills per dollar per annum, and Massachusetts income tax not in excess of 6% per annum, to holders resident in those states.

Legal Opinion—Roberts & Montgomery, Philadelphia (for the Bankers) and Cummins, Roemer & Flynn, Chicago (for the Company).

Original Offering—First publicly offered ($10,000,000) in March, 1928, at 98½ and interest, to yield 6.35% by H. M. Byllesby & Co., Inc., New York, etc., Federal Securities Corp., Chicago, and Janney & Co., Inc., Philadelphia, Pa.

BOND REDEMPTION

All outstanding First Mortgage Convertible 6% Sinking Fund Gold bonds, due June 1, 1929, were called for redemption on April 13, 1928 at 102 and interest, at Continental National Bank & Trust Co., Chicago, Trustee. Bonds were convertible into Pfd. stock at 105.

SOUTHERN COLORADO POWER COMPANY

(Controlled by Standard Gas and Electric Co.)

History and Property—Incorporated Nov. 14, 1911, in Colo., as The Arkansas Valley Ry., Light & Power Co.; name changed to present title, May 10, 1922. Former Company was a consolidation of Pueblo & Suburban Traction & Lighting Co. (see Manual for 1911, page 2276); the Rocky Ford Electric Co.; the La Junta Electric Co.; the Colorado Light & Power Co. (see Manual for 1911, page 1626); the La Bella Mill Water & Power Co. and the Gold Belt Consolidated Electric Co. (see Manual for 1911, page 1791). The company acquired all of the capital stocks, franchises and physical properties of the consolidated

companies. In May, 1926, acquired the properties of the Arkansas Valley Electric Company, serving the city of Florence, Colo., and the adjoining towns of Rockvale, Coal Creek and Williamsburg.

The Company is operated in three units known respectively as the Pueblo, Valley and Mountain divisions, with 358 miles of interconnecting high tension transmission pole lines. The communities served include Pueblo, Victor, Goldfield, Cripple Creek, Canon City, Rocky Ford, La Junta, Anaconda, and Independence, Colo., and surrounding territory.

The Company owns and operates two modern steam power stations in the city of Pueblo, with aggregate generating capacity of 11,988 kilowatts, which supply power for the electric distributing and street railway systems in Pueblo. The Pueblo electric distributing system consists of 208 miles of pole line and 116 miles of high tension line with 13,796 customers. The street railway system covers all of the principal sections of the city and also serves the outlying districts. There are approximately 32 miles of single track together with 50 cars.

The Company owns and maintains a reserve steam power station at Rocky Ford. The local distribution systems in the various towns comprising the Valley Division consist of 94 miles of low tension pole line and 93 miles of high tension transmission pole line with 4,732 customers. A 66,000-volt transmission line connects Pueblo and La Junta and forms the basis for a number of branch feeder lines operating on a lower voltage to serve the intermediate communities.

At Canon City the Company owns and operates a modern steam power station with a normal generating capacity of 11,560 kilowatts. The Company operates a hydro-electric plant on Beaver Creek, about five miles east of Victor, having a normal rating of 1,200 kilowatts, and high tension transmission lines connects this development with the Company's steam power stations at Pueblo, Canon City and Rocky Ford. The systems in the communities served by the Mountain Division comprise 149 miles of low tension distributing pole lines and 189 miles of high tension transmission pole lines serving in all 5,051 customers.

FUNDED DEBT

$6,893,000 FIRST MORTGAGE GOLD 6s, SERIES "A"; DUE JULY 1, 1947

Dated July 1, 1922.

Interest Payable January and July 1, at Continental National Bank & Trust Co., Chicago, and First National Bank, New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustees—Continental National Bank & Trust Co., Chicago; William P. Kopf, Chicago, Co-Trustee.

Provisions of Issue—Authorized issue, $50,000,000. The mortgage permits the issue of additional bonds of Series "A", or of any other series of such dates, maturities, interest rates and sinking fund and redemption provisions, as may be determined by the directors of the Company, as provided by the terms of the mortgage. No bonds of a maturity prior to that of Series "A" bonds may be issued while any bonds of Series "A" are outstanding. Additional bonds may be issued for 75% of the cost of such extensions and additions, provided net earnings, as defined in the mortgage, for 12 consecutive months, ending not more than 60 days prior to application for the issuance of such bonds, shall have been at least 1¾ times the annual interest charges on all first Mortgage bonds then outstanding, including those about to be issued, and on underlying bonds which may then be outstanding on property

hereafter acquired by the Company. Such additional bonds may also be issued at par for par to retire bonds of any other series, or to retire underlying bonds not exceeding in amount 75% of the value of the property securing them.

Callability—Subject to call, as a whole or in part, at the option of the Company, on 30 days' notice, on or before July 1, 1933, at 107½, and thereafter at ½ of 1% less for each succeeding year, plus accrued interest in each case.

Sinking Fund—The mortgage provides for a sinking fund which, with respect to Series "A" bonds, requires semi-annual payments to the Trustee, commencing July 1, 1925, of 1% of the total Series "A" bonds outstanding at the respective dates of payment, including any underlying bonds then outstanding on property hereafter acquired, as provided in the mortgage, which sinking fund will be credited with any similar payments required to be made on such underlying bonds. Cash deposited for the sinking fund of the Series "A" bonds may be withdrawn by the Company for the cost of permanent extensions and additions, for which no bonds may be issued, or for the redemption of underlying bonds. Sinking fund cash not so used is to be applied by the Trustee to the purchase of Series "A" bonds at or below the prevailing call price, and if bonds are not so obtainable the Trustee will call for redemption a sufficient amount of Series "A" bonds to absorb the sinking fund cash.

Security—Secured by a direct first mortgage on the entire property of the Company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse holders of these bonds, upon application, for the Pennsylvania four mill tax.

Legal Opinion—Winston, Strawn & Shaw, Chicago (for the bankers); Cummins, Roemer & Flynn, Chicago (for the Company).

Original Offering—First publicly offered ($6,000,000) in July, 1922, at 94 and interest, to yield about 6.50%, by H. M. Byllesby & Co., and Federal Securities Corp., Chicago, Spencer Trask & Co., New York, etc., and Janney & Co., Philadelphia; $400,000 by the same firms in Sept., 1923, at 91 and interest; and a further $2,000,000 in Dec., 1924, also by the above firms.

WISCONSIN PUBLIC SERVICE CORPORATION

(Controlled by Standard Gas and Electric Co.)

History—Incorporated in July, 1883, in Wis., as the Oshkosh Gas Light Co. (see 1922 Public Utility Manual, page 176, or apply to our Information Department); name changed to present title in 1922. It acquired as of Oct. 1, 1922, all the property, subject to liens of prior mortgages, and all the capital stock of the Wisconsin Public Service Company, Sheboygan Gas Light Co., Calumet Service Co., Peninsular Service Co. and Manitowoc & Northern Traction Co. Also acquired a steam power plant and certain rolling stock from Wisconson Securities Co. Also owns all the bonds and capital stock of the Menominee & Marinette Light & Traction Co. of Menominee, Mich., and Marinette, Wis. (see appended statement).

Effective Dec. 31, 1925, the Wisconsin Public Service Corporation absorbed the following subsidiary and affiliated companies: Northeastern Power Company, Northern Light, Heat & Power Company, Wabeno Lighting Company, Green Bay Park Railway Company, Riverview Motor Bus Company, Oslo Power & Light Company, and Denmark Light & Power Company.

The Company supplies electricity for light and power, gas and/or street railway service to 141 communities located in 10 counties in northeastern Wisconsin and Menominee County, Michigan, having a combined population of 340,000 including the cities of Green Bay, Oshkosh, Marinette, Manitowoc, Sheboygan, Oconto, Plymouth, Sturgeon Bay, DePere, Kaukauna, Peshtigo and Menominee. Properties of the system include 9 hydro-electric generating stations having an aggregate installed capacity of 29,618 kilowatts, 4 steam electric generating stations having an aggregate installed capacity of 39,750 kilowatts, 494 miles of high tension transmission pole lines, 1,075 miles of distribution pole lines, gas plants having a combined daily manufacturing capacity of 7,186,000 cu. ft. of gas, holders having a combined capacity of 3,273,000 cu. ft. The gas distribution system consists of 424 miles of mains. At Dec. 31, 1927, the system served 36,567 electric customers having a combined connected load of 126,705 kilowatts and 29,746 gas customers. Electric output for the 12 months ended Dec. 31, 1927 amounted to 153,364,676 k.w.h. and gas output for the same period 946,413,000 cu. ft.

During 1927 the transportation system in Manitowoc and between Manitowoc and Two Rivers was improved by the substitution of busses for traction service.

Franchises—The Company operates in Wisconsin under indeterminate permits created by the statutes of the state. Under the Wisconsin law, rates shall be fixed to earn a fair return on the capital invested and the Company is protected against any competition so long as its service is reasonably satisfactory. The Menominee & Marinette Light & Traction Co. at the present time is operating in part without a franchise in Menominee, Mich.

CAPITAL STOCK

Authorized, $7,500,000 Common and $12,500,000 cumulative Pfd.; outstanding, Dec. 31, 1927, $5,650,000 Common, $3,647,100 7% Pfd., Series "A" and $4,013,600 6½% Pfd., Series "B"; par of Common, $10; of Pfd., $100. All the outstanding Common stock is owned by Standard Gas & Electric Co.

Stock Increase—Shareholders on Feb. 3, 1927, authorized an increase in the number of shares of Pfd. stock from 55,000 ($5,500,000 par value) to 125,000 ($12,500,000 par value) and the number of shares of Common stock from 30,000 ($3,000,000 par value) to 75,000 ($7,500,000 par value). They also voted to change the par value of the Common stock from $100 to $10 per share. Dividend dates on the Series "A" and Series "B" Pfd. stocks, which heretofore have been different for the two classes of stock, were made to coincide and all dividends on Pfd. stock will now be payable on the 20th of March, June, Sept. and Dec. to stock of record the last day of the preceding month.

Preferred Stock Provisions—All classes of Pfd. have equal preference as to assets and dividends over the Common stock. The 6½% is redeemable as a whole or in part at 105 and accrued dividends on any dividend date, the 7% Pfd. stock at 110 and accrued dividends and the 6% Pfd. at 107½ and accrued dividends. If dividends are in arrears for one year they have equal power with Common.

Transfer Agent—Secretary of Company.

Registrar (Pfd. Stock)—First Wisconsin Trust Co., Milwaukee, Wis.

Annual Meeting—First Thursday in February.

Dividends—Initial dividend of 1¾% on 7% Pfd. paid Dec. 1, 1922, and regular quarterly dividends since; initial dividend of $1.62½ a share on 6½% Pfd. stock paid Sept. 20, 1926, and at same rate quarterly since. Initial quarterly dividend of 1½% was paid on the Series "C" 6% Pfd. stock, June 20, 1928. Payments on all class M, J, S & D 20.

STANDARD POWER AND LIGHT CORPORATION (OF DELAWARE)

(Controlled by Standard Gas & Electric Company)

History—Incorporated June 20, 1925, in Delaware, as successor to Standard Power and Light Corporation of Maryland by exchange of stocks (see 1925 Public Utility Manual, page 1551).

During 1927, intermediary holding companies, Pittsburgh Utilities Corporations of New York and of Delaware, and California Railway and Power Co., were dissolved, further simplifying the corporate structure of Standard Power and Light Corp. and its subsidiary and affiliated companies; and the group of natural gas producing and distributing properties in Ohio, known as Muskingum Gas Producing Corp., The National Oil and Gas Co., The Ohio Valleys Public Utilities Co. and Ohio Company, were sold to other interests.

Corporation was organized for the acquisition of public utility securities and for the operation, engineering and management of public utility properties. The Corporation owns directly over 94% of the Common stock of Philadelphia Company and a substantial stock interest in Market Street Railway Company of San Francisco.

Philadelphia Company was organized in 1884 under the laws of Pennsylvania. It controls, through entire Common stock ownership, Duquesne Light Company which does all the electric light and power business in the City of Pittsburgh and which supplies substantially all the electric light and power service in the surrounding boroughs and in the greater parts of Allegheny and Beaver Counties, Pennsylvania, having a population of over 1,360,000. It owns or controls through subsidiaries a gas distributing system in Pittsburgh and an extensive natural gas producing, transporting and distributing system in southwestern Pennsylvania and northern West Virginia, and an interest in the Kentucky West Virginia Gas Company system, which systems supply the greater part of the gas consumed in Pittsburgh. The Company also owns securities of Pittsburgh Railways Company representing the control (partly through long-term leases) of the electric railway system in Pittsburgh and vicinity, and of The Beaver Valley Traction Company, and all the stock of subsidiaries engaged in supplemental operations.

The Duquesne Light Company properties include two steam plants with an aggregate generating capacity of 376,500 k.w., 221 substations and 6,100 circuit miles of transmission and distribution lines. It serves 276,309 customers, and for the year ended Dec. 31, 1927 had gross operating revenues amounting to $25,728,365. The gas properties include leases on 335,777 acres of lands, 1,781 producing wells, 3,997 miles of field and distribution lines and a manufactured gas plant of 30,000,000 cu. ft. daily capacity. The properties serve 172,979 customers and for the year ended Dec. 31, 1927 had gross operating revenues of $13,248,237. The electric street railway system for the year ended Dec. 31, 1927 had gross operating revenues of $22,603,595. It operates 627 miles of track and has in service 1,509 cars and 62 motor coaches.

For the year ended Dec. 31, 1927, Philadelphia Company system had gross earnings after eliminating inter-company transactions of $61,250,924 and net earnings including other income before depreciation and depletion of $27,610,280. Market Street Railway Company had gross earnings of $9,819,570 and net earnings including other income before depreciation of $1,599,428 making aggregate gross earnings of $71,070,494 and net earnings including other income before depreciation and depletion of $29,209,709 for Standard Power and Light Corporation system.

CAPITAL STOCK

Authorized, 800,000 shares Common stock, 500,000 shares $7 dividend Pfd. and 3,300,000 shares Participating Pfd.; outstanding, Dec. 31, 1927, 440,000 shares Common, 220,000 shares $7 dividend Pfd., and 2,960,013 shares Participating Pfd. All shares are without par value. Standard Gas and Electric Company owns 120,000 shares $7 dividend Pfd., and 2,960,013 shares Participating Pfd.

Stock Provisions—The Pfd. stock is entitled to cumulative dividends at the rate of $7 per share per annum, payable quarterly, before any dividends shall be paid upon the participating Pfd. stock or Common stock. The participating Pfd. stock is then entitled to cumulative dividends at the rate of $1 per share per annum before any dividends shall be paid on the Common stock, and after dividends at such rate have been declared in any quarterly dividend period on both the participating Pfd. stock and the Common stock, the participating Pfd. stock and Common stock share equally, as classes, in any further dividends declared in such period. The Pfd. stock is preferred as to assets to the amount of $100 and accumulated dividends for each share. The participating Pfd. stock is then entitled to $20 per share and all dividends accumulated thereon before any payment or distribution shall be made upon the Common stock. The Common stock is then entitled to receive $20 per share, after which all assets shall be divided equally between the participating Pfd. stock and the Common stock, as classes. The Pfd. stock is redeemable on any quarterly dividend payment date, on 30 days' notice, at $110 per share and accumulated dividends; the participating Pfd. stock is not redeemable.

Voting Rights—The Participating Pfd. stock is entitled to elect four-fifths of the directors of the Cor-

poration and the Common stock to elect one-fifth of the directors. The $7 dividend Pfd. stock is non-voting.

Transfer Agents—Agency of the Company, New York and Chicago, and First National Bank, Boston.

Registrars—Guaranty Trust Co. of New York, Continental National Bank & Trust Co., Chicago, and The National Shawmut Bank of Boston.

Annual Meeting—First Tuesday in May, in New York City.

Dividends—Initial Pfd. dividend of $1.75 per share paid Feb. 2, 1925, and at same rate quarterly since; payments, F, M, A & N 1, to stockholders of record the 16th day of the preceding months, respectively. Initial Participating Pfd. dividend at the rate of $1.00 per share per annum from date of issue to Dec. 31, 1926, was paid to stockholders of record Dec. 31, 1926, on Dec. 31, 1926. In 1927, cash dividends amounting to $2,217,388 and stock dividends amounting to $740,003 were paid on the Participating Pfd. stock. No dividends paid on Common.

FUNDED DEBT

$24,000,000 6% GOLD DEBENTURES; DUE FEBRUARY 1, 1957

Dated February 1, 1927.

Interest Payable February and August 1 at H. M Byllesby & Co., New York and Chicago and at Ladenburg, Thalmann & Co., New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustee and Registrar—Guaranty Trust Co., New York.

Provisions of Issue—Authorized amount, not limited; issued, $24,000,000. Trust Agreement provides that additional debentures, or other funded debt of the Corporation of such dates, maturities, titles, interest rates, redemption and other provisions as may be determined by the Board of Directors of the Corporation, may be issued in accordance with the provisions of the Trust Agreement, provided, however, that no additional Debentures of this issue or other funded debt of the Corporation may be created, except for the purpose of refunding par for par funded debt issued under the Trust Agreement, unless the net income credits of the Corporation, as defined in the Trust Agreement, for a period of twelve consecutive months within the preceding nineteen months shall have been at least two times the annual interest charges on the total funded debt of the Corporation then outstanding, including that about to be issued.

Purpose of Issue—Proceeds together with treasury cash, used to retire $10,000,000 Two-Year 5% First Lien Gold notes of Pittsburgh Utilities Corp. due April 15, 1928, heretofore assumed by Standard Power & Light Corp. The remaining $14,000,000 Debentures were issued to refund $14,000,000 Debentures of the Corporation outstanding, thus effecting a consolidation of the Corporation's funded debt.

Callability—Subject to call as a whole or in part at any time before maturity, upon 60 days' notice at 105, on or before Feb. 1, 1937; thereafter the premium decreasing 1% for each five years or fraction thereof to Feb. 1, 1952; thereafter at 101, to Feb. 1, 1956; thereafter at 100; plus accrued interest in each case.

Sinking Fund—None.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Corporation agrees to refund, upon timely application, Pennsylvania personal property taxes not in excess of 4 mills, Connecticut personal property taxes not in excess of 4 mills, Maryland securities tax not in excess of 4½ mills and Massachusetts income tax not in excess of 6% to holders resident in those states.

Legal Opinion—Van Vorst, Siegel & Smith, New York (for the Bankers) and Cummins, Roemer & Flynn, Chicago (for the Corporation.)

Original Offering—First publicly offered ($24,000,000) in Feb., 1927, at 99½ and interest, to yield over 6.03%, by H. M. Byllesby & Co., Inc. and Ladenburg, Thalmann & Co., New York, and The Union Trust Co. of Pittsburgh.

Market—Listed on New York Curb Market.

Price Range—1927: High, 100⅛; low, 99.

History—Incorporated March 22, 1871, by Special Act of the Pennsylvania Legislature, as the Empire Contract Co.; name changed to Mexican National Ry. Co. on June 17, 1873; to Commonwealth Contract Co. on Nov. 5, 1875; to Rio Grande Extension Co. on Oct. 31, 1879, and to present title on May 24, 1884. For a number of years the company supplied natural (fuel) gas to the city of Pittsburgh, Pa., and to adjacent towns, but from an organization originally supplying only fuel gas, the company expanded into one supplying Pittsburgh and many other important manufacturing towns along the banks of the Allegheny, Monongahela and Ohio Rivers, almost exclusively, with fuel gas and electric power, as well as serving the same territory with electric transportation.

The Company is a holding company. The business controlled by the company through stock ownership may be classified under four divisions, as follows: (1) Street railways; (2) electric light and power; (3) illuminating (artificial) gas; fuel (natural) gas.

Street Railway Properties—The Philadelphia Co. owns the entire capital stock of the Pittsburgh Rys. Co. with a total of 586 track miles. The Philadelphia Co. also controls through ownership of stock, The Beaver Valley Traction Co., and the Pittsburgh & Beaver St. Ry. Co.

Bus Companies—During 1924 the Beaver Valley Motor Coach Company was formed, as a subsidiary of The Beaver Valley Traction Co., for the purpose of operating coaches or busses in Beaver and Allegheny Counties, Pa. During 1925, the Pittsburgh Motor Coach Company was formed, as a subsidiary of the Pittsburgh Railways Company for the purpose of operating coaches and busses in the City of Pittsburgh.

Electric Light and Power—The Philadelphia Co. owns all of the 2,000,000 outstanding Common shares of no par value of the Duquesne Light Co., which, through direct ownership of property and plants, or through stock ownership or leases, controls all of the electric light and power and heating business of the Philadelphia Co. From proceeds of part of its 5% Series "A" bonds, dated Dec. 1, 1927, Philadelphia Company acquired $5,000,000 additional Common stock and $15,000,000 additional Participating Pfd. stock of Duquesne Light Company, making a total of $25,00,000 Common and $25,000,000 Participating Pfd. stock of that company owned. Effective March 15, 1928 these stocks were converted into 2,000,000 shares Common stock of Duquesne Light Company of no par value, which are pledged under Philadelphia Company's 5% Series "A" bonds. Duquesne Light Company has outstanding $20,000,000 5% cumulative First Pfd. stock ranking senior to the pledged Common stock.

Artificial Gas—The Philadelphia Co. controls through stock ownership the Consolidated Gas Co. of the City of Pittsburg which under a perpetual charter is the only artificial gas manufacturing company in the City of Pittsburg having the exclusive right to distribute illuminating gas in said city.

Fuel Gas—The Philadelphia Co. owns the entire capital stock of a number of companies that supply nearly all the fuel gas consumed in the City of Pittsburg and the large number of manufacturing towns lying along the Monongahela and Allegheny rivers. This territory is well covered with distributing mains and is connected by larger mains of ample capacity with the sources of supply in the West Virginia fields and elsewhere. The company and its subsidiaries control by lease 335,777 acres of gas and oil lands situated in West Virginia and western Pennsylvania. The principal fuel gas companies controlled are the following: Equitable Gas Co., Philadelphia Company of West Virginia and Pittsburgh & West Virginia Gas Co. The Philadelphia Company acquired all property and franchises of the Union Gas Co. of McKeesport, Aug. 31, 1921, and of the Chartiers Valley Gas Co., Dec. 31, 1921, and The Allegheny Heating Co., Dec. 15, 1922. (For latest published statements, see 1921 Public Utility Manual, pages 1504 and 1503, respectively, or apply to our Information Department).

From part of proceeds of its 5% Series "A" bonds, dated Dec. 1, 1927, Philadelphia Company acquired 61,000 shares 7% cumulative Second Pfd. stock and 45,000 shares Common stock of Kentucky West Virginia Gas Company.

Kentucky West Virginia Gas Company owns 216 producing gas wells on 57,402 acres in proven territory with capacity of 104,000,000 cubic feet daily and owns in fee or has gas leases of approximately 946,770 acres in undeveloped territory in easten Kentucky and western West Virginia. Besides furnishing gas to a number of small communities in Kentucky, it furnishes natural gas under long term contracts to Pittsburgh and West Virginia Gas Company for delivery to Equitable Gas Company (subsidiaries of Philadelphia Company). The latter furnishes and distributes gas in the City of Pittsburgh and the surrounding territory, and Kentucky West Virginia Gas Company also furnishes natural gas under long term contracts to Louisville Gas and Electric Company, which furnishes and distributes gas in the City of Louisville, Ky.

The total authorized capital of Kentucky West Virginia Gas Company is 40,000 shares 5% cumulative First Pfd. stock (par $100), 80,000 shares 7% cumulative Second Pfd. stock (par $100), and 100,000 shares Common stock (no par value); outstanding, 32,750 shares 5% cumulative First Pfd. (owned by Louisville Gas and Electric Company or one or more of its subsidiaries), 67,700 shares 7% cumulative Second Pfd. (owned by Philadelphia Company and its subsidiary, Pittsburgh and West Virginia Gas Company) and 100,000 shares Common stock (45,000 shares owned by Philadelphia Company, 30,000 shares owned by Louisville Gas and Electric Company or one or more of its subsidiaries).

DISSOLUTIONS, CONSOLIDATIONS AND MERGERS, YEAR ENDED DECEMBER 31, 1927

The policy of eliminating subsidiary companies where practicable resulted in the following six companies being closed out through dissolution during the year:

Pine Run Street Railway Company
Clairton and Blair Street Railway Company
Rosslyn Street Railway Company
Overgrade Bridge Company
Sewickley and Edgeworth Railway Company
McKees Rocks and Allegheny Street Railway Company

Elimination of the following companies was also accomplished through sale and conveyance of all their properties and franchises to a parent traction company:

The Fort Pitt Street Passenger Railway Company
The Gross Street Railway Company
The Negley Street Railway Company
Highland Park Passenger Railway Company
The Pittsburgh, Oakland and East Liberty Passenger Railway Company
Bates Street Railway Company
Brereton Avenue Street Railway Company
Carrick & Baldwin Street Railway Company
Crafton and Chartiers Valley Traction Company
McKees Rocks and Neville Island Street Railway Company
Virginia Avenue Street Railway Company
Washington and Claysville Street Railway Company
Tustin Street Railway Company

In connection with its new financing and simplification of its corporate structure, Duquesne Light Company acquired the following companies through purchase of all physical property:

The Allegheny County Light Company
Southern Heat, Light and Power Company
United Electric Light Company
Sewickley, Light, Heat and Power Company

In the gas group, the Pittsburgh and West Virginia Gas Company acquired all the property and franchises of:

Eastern Union Gas Company
West Union Gas Company
Mill Fork Oil and Gas Company

There were no new incorporations during the year.

The Consolidated Gas Co. of the City of Pittsburgh.—During the year ended March 31, 1916, this Company defaulted the payment of interest on its bonds. The Common stock of the Consolidated Gas Co. is owned by the Philadelphia Company. For over ten years The Consolidated Gas Co. of the City of Pittsburgh had failed to earn its interest, and, in consequence the investment of the Philadelphia Company in its Common stock was written down to the nominal value of $1. The default, therefore, had no effect upon the financial accounts of the Philadelphia Company. In June, 1919, the operations of the Consolidated Gas Co. of the City of Pittsburgh and the South Side Gas Co. were discontinued. Subsequently their pipe lines were abandoned in the streets, and the remainder of the property sold.

Holders of First Mortgage 5% bonds of Consolidated Gas Co. of the City of Pittsburgh received the privilege of exchanging their holdings for 6% cumulative Pfd. stock of the Philadelphia Company, on the basis of one $1,000 bond for 18½ shares of the stock. At Dec. 31, 1927, $4,991,000 of the $5,000,000 bonds had been so exchanged.

Franchises—The franchises under which the properties owned and controlled by Company and its subsidiaries are operated, in the opinion of counsel, are satisfactory, and with but a few minor exceptions, unlimited as to time or were granted for 999 years.

Control—Early in 1926 control of the Philadelphia Company passed to Standard Power and Light Corporation. Through this connection the services of an associated company, Byllesby Engineering and Management Corporation, became available to the subsidiary operating public utilities and their affiliated companies.

CAPITAL STOCK

Authorized Dec. 31, 1927, $48,650,000 Common, $2,033,400 5% non-cumulative Pfd., and $25,000,000 6% cumulative Pfd.; outstanding Dec. 31, 1927, $47,598,375 Common, $1,442,450 5% non-cumulative Pfd. and $16,651,600 6% cumulative Pfd.; par, $50. On Jan. 19, 1928, $4,300,000 additional 6% cumulative Pfd. was publicly offered. Standard Power and Light Corp. owns directly over 94% of the Common stock. Of the authorized 6% cumulative Pfd. stock, $1,442,450 was heretofore reserved to be exchanged for the outstanding 5% Pfd. stock, but by resolution adopted Dec. 16, 1918, this stock may now be used for the general purposes of the Company.

The directors on Dec. 16, 1918, authorized an increase in the outstanding capital stock of the Company by $7,000,000 of 6% cumulative Pfd. stock, making the total amount of this stock issued, and to be issued, $25,000,000, as follows:

Amount outstanding at Dec. 31, 1927	$16,651,600
Issuable in exchange for 15-Year 5½% Convertible debentures, dated March 1, 1923	7,905,400
Balance	443,000
Total.....	$25,000,000

NOTE—All of above stock not issued or used for above purposes to be used for the general purposes of the Company as the Board of Directors may direct.

In March, 1911, 50,000 shares of Common stock obtained through conversion of the £500,000 Sterling Debentures sold in 1910 to Ladenburg, Thalmann & Co., were listed on the Parquet of the Paris Bourse, in the form of Bearers' Certificate issued by the New York Trust Co.

Preferred Stock Provisions—The 5% Non-Cumulative Preferred stock has preference as to dividends, only, over the other classes of stock and in the event of dissolution, receives dividends before any other distribution is made. It is non-callable. After the payment of such dividends, the 6% cumulative Pfd. is entitled to payment of par value, accrued diivdends and outstanding dividend warrants. The 5% Preferred then shares pro rata with the Common in the remaining assets.

The 6% cumulative Preferred stock is preferred as to assets and dividends over Common and, only as to earnings for each current year, is subject to the dividend rights of 5% non-cumulative Preferred. It is non-callable. Company shall not, without consent of owners of record of two-thirds of the then outstanding 6% Preferred stock, authorized or issue any stock having any preference or priority over this issue, nor any increase or reduction of this issue, nor any increase of the mortgage or secured indebtedness of Company requiring authorization or approval by its stockholders. Except in case of default in payment of dividends thereon, holders of 6% Preferred have no right to vote except upon the foregoing matters requiring their consent or other matters by the laws of Pennsylvania requiring action by a certain proportion of all the stock of Company. In event of such default in payment of dividends on the 6% Preferred, owners thereof shall have the right to vote upon all matters to the same extent as owners of any other stock of Company shall be entitled to vote, while so long as such default shall continue. The 6% Preferred stock is free of present Normal Federal Income Tax and Pennsylvania four mills personal property tax.

In addition to the above, the Pittsburgh Railways Co. operates the properties of the Morningside Electric Street Ry. Co., the entire capital stock of which is owned by Philadelphia Company.

By the terms of a contract, effective, Jan. 1, 1902, the Pittsburgh Rys. Co. assumed the operation of all the properties of the Consolidated Traction Co., the United Traction Co. of Pittsburgh and their underlying companies; see subjoined statements of these companies. Company also leases the railroad property of the Pittsburgh & Castle Shannon R. R. Co. for 99 years at a rental of $15,000 per annum (for statement of latter company, see Steam Railroad Volume.)

Receivership Lifted—A petition for the discharge of the receivers was referred by the Court on March 31, 1923, to Judge Wasson, Special Master, for an opinion and recommendation. After a number of hearings, the Master's report, which was favorable, was placed before the Court on Oct. 11. Subsequently on Jan. 30, 1924, Federal Judge Thompson, in United States District Court at Pittsburgh, approved the lifting of the six-year receivership of company, and signed the decree ordering the return of the property to its owners. The receivership ended formally Dec. 30, 1925, when Judge W. H. S. Thomson in the U. S. District Court, ordered the receivers discharged after filing their final account, covering receivers' disbursement of $500,000.

New Financing—Immediately on return of the property to corporate management (Feb. 1, 1924) arrangements were made to consummate the $5,000,000 of new financing, which was provided for under the agreement. These arrangements were made through the Union Trust Co. of Pittsburgh and there were issued: (1) $2,000,000 6% notes, maturing serially over a period of four years; (2) $3,000,000 6% Car Trust bonds, maturing serially over a period of 15 years. The proceeds of the Equip. Trust bonds purchased 225 modern passenger cars. The proceeds of the note issue were used for improved car barns, shop equipment, tracks, etc. In April, 1925, the Company issued and sold $1,200,000 of 6% Car Trust Bonds, maturing serially over a period of 15 years. The proceeds were used for the purchase of 103 modern passenger cars.

Interest Continuation Plan—Reorganization—The proposed plan for financial reorganization provides for a General Refunding and Unifying mortgage, under which bonds will be isued in series to be exchanged at rates to be determined, for the various classes of bonds now outstanding. Eventually upon completion of these changes, the new mortgage is intended to be a first lien on all of the property of the railway system. As bonds of underlying companies are exchanged they will be deposited with the Trustee of the General Mortgage so as to preserve the lien against the underlying company. As funds are not available at this time with which to redeem matured issues (amounting as of May 1, 1928, to $3,627,000) arrangements have been made for continuing the usual interest payments. This arrangement is a temporary one, pending the adoption of a plan of reorganization, and in no way prejudices any rights of bondholders.

Reorganization Plan Formulated—In July, 1921, a plan providing for the reorganization of Pittsburgh Rys. Co. was formulated by the city administration, the Philadelphia Co. and the Pittsburgh Rys. Co. The proposed agreement called for an early termination of the receivership and the reorganization of Pittsburgh Rys. Co. with the limit of its capital securities fixed at $62,500,000, being the amount determined for financing purposes by the Public Service Commission of Pa. as of March 22, 1920. On this amount, the company is permitted to earn yearly $3,750,000, equivalent to 6%, for a period of ten years, in addition to the yearly operating expenses. The agreement also provided for the raising of an additional sum of $5,000,000 the proceeds of which were to be spent in betterments, improvements and rehabilitation of the street railway system, subject, however, to the approval of the Board of Control, which was created by the Agreement. This Board is composed of four members, two representing the city, one representing the other municipalities signing similar agreements, and one representing the company. In case of tie the company representative has no voice. This Board of Control passes on all budgets for annual expenditures, betterments, improvements and rehabilitation.

The contract provides that the company shall pay to the city a yearly sum of $100,000 in lieu of bridge tolls, pole, car and wire tax and the claim for cleaning off streets. The company is also to pay to the city, in quarterly installments, the sum of $200,000 for the paving and repaving of streets, thereby enabling the city to do necessary municipal work without friction with the company and at such times as it may desire. This amount does not include repairs or replacements to pavements, which are still to be done by the company.

The Philadelphia Co., as principal stockholder, will proceed at once either to attempt to reorganize the Pittsburgh Rys. Co. or attempt to cause a new company to be formed for purpose of taking over all the assets of the Pittsburgh Rys. Co. of every kind and description. The city agreed that it would accept for its claims against the Pittsburgh Rys. Co. and subsidiary companies and the Receivers of the Pittsburgh Rys. Co., the sum of $526,091.12 in full up to Jan. 1, 1921, which amount, as well as accruing charges

against said Receivers, for paving, bridge tolls (including Monongahela Bridge Co.'s claims), pole, car and wire tax and gross receipt tax, shall be paid secured by the new company in such manner as may be mutually agreed upon between the city and the new company.

The Pennsylvania Public Service Commission has approved the contract.

Capital Structure—Excerpt from Company's Annual Report for 1926: "A plan of readjustment of the capital structure of the Railways System is still undergoing careful study. It is desirable to bring into one consolidated company the ownership of all of the leased and operated properties and to simplify the present situation. This complex problem, rendered more difficult by the many individual security issues outstanding, presents a number of angles for solution. In the comparatively near future a plan is expected to be presented which the company with the support of the security holders will be capable of executing. Meantime the temporary arrangement of continuing to pay interest on matured bonds of underlying companies, in which the holders of over 91% of such bonds are participating, remains operative."
